The project replaces water mains in portions of the Redwood Valley County Water District to provide seismic resiliency. Additional new water mains would be installed to intertie with existing and replacement mains to provide water distribution system resiliency. The project includes new meter replacements to facilitate residential fire sprinkler systems as well as flush-out valves to improve distribution system water quality and facilitate future installation of fire hydrants.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
