Project Title: OG Royale 0406720542

Project Applicant: Royale Energy, Inc.

Project Location: Rio Vista Gas Field

County: Sacramento

Section: 04

Township: 03N

Range/Baseline: 03E / MD B&M

Latitude/Longitude: 38.130972, -121.658617

Project Description:

The proposed project consists of drilling one new well in the Rio Vista Gas Field in Sacramento County. The proposed well is located on a developed oil field, within a parcel under active oil production, and is consistent with the County of Sacramento's zoning code.

Exempt Status:

As the Lead Agency, the Division of Oil, Gas, and Geothermal Resources (Division), has determined that the proposed project is exempt from further environmental review requirements of the California Environmental Quality Act (CEQA), pursuant to the specified exemptions marked in the section below. The Division further finds that the proposed project would not result in a significant adverse impact on the environment, or that any of the exceptions to the exemptions apply (14 CCR 15300.2).

CEQA Exceptions to the Exemptions (14 CCR 15300.2): where project is located (e.g. sensitive environment); Cumulative Impact; Significant Effect due to Unusual Circumstances; Scenic Highways; Hazardous Waste Sites; Historical Resources.

Reasons Why Project is Exempt:

The basis for the Division's determination that the project is exempt from the requirements of CEQA is provided in the brief explanation below.

15261(b) - Ongoing Project: The Division has determined that the project is statutorily exempt under the Ongoing Project (14 CCR 15261(b)) exemption per the CEQA Guidelines because the Division identified the Rio Vista Gas field and issued permits in this oil field pre-CEQA (before April 5, 1973). New permits issued in this developed area of the Rio Vista Gas field are considered part of an ongoing project and exempt from further CEQA reviews.

Class 1 - Existing Facility: The Division has determined that the project is categorically exempt from CEQA under the "Class 1" (14 CCR §15301) exemption per the CEQA Guidelines and per DOGGR's regulations (14 CCR §1684.1) because the well will be installed within an existing oil field and involves no expansion of use of the oil field.

Class 4 - Minor Alterations to Land: The Division has determined that the project is categorically exempt from CEQA under the "Class 4" (14 CCR 15304) exemption per the CEQA Guidelines because the project involves the minor alteration of the condition of land and/or vegetation within a densely developed oil field and does not require the removal of healthy, mature scenic trees.

Exceptions to Exemptions: The Division further finds that there are no exceptions to the otherwise-applicable categorical exemptions (PRC §21084; 14 CCR 15300.2(c)). There is no substantial evidence that there are any "unusual circumstances" associated with the proposed project that creates a reasonable possibility that the activity will have a significant effect on the environment and that there are no significant "cumulative impacts" resulting from successive projects of the same type in the same place. Therefore, this project is not subject to CEQA.
