Notice of Scoping/Initiation of Studies

This is to advise you that the California Department of Transportation (Caltrans) is formally initiating studies to enhance safety along a 4.81-mile segment on Arroyo Seco Parkway (SR 110) between the Figueroa Street off-ramp (PM 25.78) and Orange Grove Avenue (PM 30.59) in the cities of Los Angeles and South Pasadena, California. The following alternatives are being proposed: Alternative 1: No Build Alternative, Alternative 2: Hard Shoulder Running, Alternative 3: Dynamic Flex Lane, Alternative 4: Speed Reduction, and Alternative 5: Two-Lane Option (alternatives are described in the attached Notice of Preparation (NOP)).

As a result of the Preliminary Environmental Analysis Report (PEAR), an Environmental Impact Report/Environmental Assessment will be prepared to evaluate any potential environmental impacts pursuant to the California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA). Caltrans is the lead agency under CEQA and NEPA. During the course of the environmental study, Caltrans will work closely with the public to assure that public comments and reasonable alternatives are considered. We welcome any comments or suggestions you may have concerning this proposed project.

Please send your comments by October 24, 2019 to:
