

APPENDIX B
PROPOSED BEE CANYON GREENERY COMPOSTING OPERATION AT FRB LANDFILL
MITIGATION MONITORING AND REPORTING PROGRAM

Mitigation Measure	Implementing Action	Method of Verification	Timing of Verification	Verification Responsibility	Date Completed
Aesthetics					
<ul style="list-style-type: none"> (AS-1) For the water tanks that will be located on the composting site operations area, OC Waste & Recycling will ensure that the water tanks are either painted tan or a similar color or that when the tanks are ordered they will either be tan or a similar color that will blend in with the adjacent topography to reduce any aesthetics/viewshed impacts to residents using Portola Springs Community Park or to any other residents that are able to see the water tanks. In addition, the tanks will be painted with non-reflective paint. 	<p>During the ordering of the water tanks or during construction if the tanks need to be painted.</p>	<p>Verification by OC Waste & Recycling</p>	<p>During construction</p>	<p>OC Waste & Recycling</p>
