SCH# 2019099104 SR-55 (I-5 to SR-91) Improvement Project Project Description - Notice of Completion

Project Description:

The project is located in Orange County on SR 55 between just south of the I-5/SR 55 interchange and the SR 55/SR 91 interchange (between Post Mile 10.4 and R17.9). The total length of the project is approximately 7.5 miles. Within the limits of the proposed project, SR 55 currently has three to five general purpose lanes and an HOV lane in each direction, with auxiliary lanes between ramps at various locations. The purpose of the proposed project is to provide additional capacity on SR 55 between I-5 and SR 22 and provide operational improvements between SR 22 and SR 91. These improvements will improve traffic operations and reduce congestion. The estimated construction cost for the build Alternative is approximately 148 million. Caltrans has identified the Build Alternative as the Preferred Alternative.
