Continued from page 1:

General:

- Environmental reevaluation will be required if the scope of the project changes to include additional areas or activities, or if previously unknown cultural or other sensitive resources are discovered. Contact Environmental Office if project changes occur or sensitive resources discovered.

Hazardous Waste:

- A lead compliance plan prepared by a Certified Industrial Hygienist is required, include SSP 7-1.02K(6)(j)(iii) in the construction contract.

Cultural:

- If cultural materials are discovered at the job site, do not disturb the resources and immediately:
 1. Stop all work within a 60-foot radius of the discovery;
 2. Protect the discovery area; and
 3. Notify the Engineer.

The Department investigates. Do not move cultural materials or take them from the job site. Retain a qualified archaeologist to assess the significance of the find. Do not resume work within the discovery area until authorized.

- If human remains are discovered, State Health and Safety Code Section 7050.5 states that further disturbances and activities shall cease in any area or nearby suspected to overlie remains, and the County Coroner contacted. Pursuant to Public Resources Code (PRC) Section 5097.98. if the remains are thought to be Native American, the coroner will notify the Most Likely Descendent (MLD). At the time the landowner will work with the MLD on the respectful treatment and disposition of the remains. Further provisions of PRC 5097.98 are to be followed as applicable.

No permits are required for this project.
