Present Land Use/Zoning/General Plan Designation:

Agricultural Watershed (AW)/Agricultural, Watershed and Open Space (AWOS) **Project Description:** (please use a separate page if necessary) The project proposes vegetation removal and earthmoving activities on slopes greater than five percent in connection with the development of approximately 91.3 net acres of vineyard within approximately 116.2 gross acres on an approximately

170.2-acre parcel. Proposed activities associated with vineyard development include removal of brush and trees within the proposed clearing limits, ripping, rock removal, blasting, soil cultivation, seeding of a cover crop, mulching, trenching for storm drain and irrigation pipelines, installation of a trellis system and deer fence, laying out vine rows, installation of temporary and permanent erosion control measures, and planting of grapevines.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
