Project Description (Proposed actions, location, and/or consequences).

The proposed project is a Site Approval application for an unmanned 24-acre solar farm on a 798-acre property also containing an existing landfill (Foothill Sanitary Landfill) and a landfill gas-to-energy operation. The project includes the construction of 13,770 bifacial modules 5.2 MW in size. The project also includes the installation of three (3) utility poles, and an underground fiber optic cable for data transmission. No employees are at the site for daily operations post-construction. The site is currently served by on-site well and septic systems, as well as natural drainage. However, no services are required for the solar farm operation. Access to the proposed project site will be from Waverly Road. The project site is not under a Williamson Act contract.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.
