Summary Form for Electronic Document Submittal

SCH #: None so far

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic apply of the document.

Lead Agency: Reclamation District Number 1500 Contact Name: Steve Brown
Chara Caraban disagraph and disagraph and a same and a
Email: Steve@smbenvironmental.com Phone Number: 916-517-2189
Project Location: Karnak Road Sutter County City County
Project Decription (Proposed actions, location, and/or consequences).
The Proposed Project consists of: (1) installing approximately 320-feet of new sheet pile wall along the south bank of the canal to remediate the erosion of the canal bank; (2) placement of approximately 500 tons of drainrock and approximately 130 cubic yards of topsoil backfill behind the sheet pile wall; (3) removal and replacement of approximately 350-feet of existing chain-link fence; (4) installation of 9 new 10-foot wide automatic conveyor-belt style debris removal screens to replace the existing debris catchment system; and (5) implementation of seeding and erosion control measures.
Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures the would reduce or avoid that effect.
Standard air quality, construction best management practices, cultural resources, traffic and noise avoidance mitigation measures would reduce any potential significant impacts to less than significant levels.
