**From:**

Department of Fish and Wildlife  
 1701 Nimbus Road  
 Rancho Cordova, CA 95670

**Street Address:**

1400 Tenth Street  
 Sacramento, CA 95814

**Project Title:** Henningsen Lotus Park Streambank Restoration (Lake or Streambed Alteration Agreement No. 1600-2019-0164-R2).

**Project Location:** The project is located at the South Fork American River, in the County of El Dorado, State of California; Latitude 38.8040°, Longitude -120.9068°; Section 18, Township 11N, Range 10E, U.S. Geological Survey (USGS) map Coloma, Mount Diablo base and meridian; Assessor's Parcel Number [APN] 006-011-42.

**Project Description:** The California Department of Fish and Wildlife has executed Lake and Streambed Alteration Agreement number 1600-2019-0164-R2, pursuant to Section 1602 of the Fish and Game Code to the El Dorado County Department of Transportation as represented by Raphael Martinez.

The project is limited to repair and restoration of areas of the South Fork American River bank that were damaged in a 2017 storm. Restoration activities will include replacing rock slope protection (RSP) that was damaged or lost in the storm and placing additional shoulder backing material adjacent to walkways in damaged areas above the RSP slope. Approximately 750 cubic yards of RSP will be placed over a footprint of approximately 6,750 square feet at an average thickness of three feet. Approximately 20 cubic yards of shoulder backing material will be placed over a footprint of approximately 1,080 square feet at an average thickness of six inches. No vegetation removal other than removing loose debris, concrete use, or excavation will occur.

**Public Agency Approving Project:** CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

**Person or Public Agency Carrying out Project:** El Dorado County Department of Transportation

**Exempt Status:**

Statutory Exemption.

Categorical Exemption. Type – Class 1; California Code of Regulations, title 14, section 15301

**Reasons why project is exempt:** The project is exempt under Class 1 because it consists of the repair of existing facilities (the RSP slope and the shoulder backing) with no expansion of use.
