(Address)

Project Title: Ball Road Storm Water Improvement Project City Council March 19, 2019 Agenda Item 19 (Res. 2019-023)

Project Applicant: City of Anaheim

Project Location - Specific:

Ball Road to Carbon Creek Channel, along Western Avenue, Sunview Drive and OCTA's Right of Way from Sunview Drive until Carbon Creek Channel, as shown on the attached map.

Project Location - City: Anaheim Project Location - County: Orange

Description of Nature, Purpose and Beneficiaries of Project:

The City proposes to install a storm water diversion junction structure along Ball Road at Western Avenue and just west of Knott Avenue, as well as a retention/detention system within the abandoned rail line owned by OCTA. This system will divert storm water flow from the main storm line on Ball Road, and draw storm water south along Western Avenue and then west along Sunview Drive, until it reaches the abandoned rail line. The infiltration system will allow the storm water to percolate into the ground water, between Sunview Drive and Ball Road.

Name of Public Agency Approving Project: City of Anaheim

Name of Person or Agency Carrying Out Project: City of Anaheim

Exempt Status: (check one):

- ☐ Ministerial (Sec. 21080(b)(1); 15268);
- ☐ Declared Emergency (Sec. 21080(b)(3); 15269(a));
- ☐ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));
- ☒ Categorical Exemption. State type and section number: Class 3, Section 15303 (d), New Construction
- ☐ Statutory Exemptions. State code number: \_\_\_\_\_

Reasons why project is exempt:

The City Council finds and determines that the effects of the Proposed Project are typical of those generated within that class of projects ( i.e., Class 3 — New Construction), which consists of construction and the location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another use where only minor modifications are made in the exterior of the structure, including water main, sewage, electrical, gas, and other utility extensions, including street improvements, of reasonable length to serve such construction, and that, therefore, pursuant to Section 15303 of Title 14 of the California Code of Regulations, the Proposed Project will not cause a significant effect on the environment and is, therefore, categorically exempt from the provisions of CEQA and no further environmental review is required.
