Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Sapphire Hotel and Event Center	
Lead Agency: City of Murrieta	
Contact Name: Aaron Rintamaki, Associate Planner	
Email: ARintamaki@MurrietaCa.gov	Phone Number: 951-461-6079
Project Location: Murrieta City	Riverside County
Project Decription (Proposed actions, location, and/or consequence	es).
The project consists of a commercial development project located would develop approximately 7-acres from the 15.78-acre site. The with a remainder lot left vacant for future development. Lots 2 and parking, landscaping and utilities. Lot 1 will include infrastructure but will otherwise remain vacant for future development to be determined and will be located at the southwest corner of the site post subdivible dedicated for road improvements to portions of McElwain Road designation is "Office," and the site is zoned "Office." The project use and zoning designations, but a Conditional Use Permit will be Murrieta Municipal Code, Development Code.	ne project proposes to subdivide the parcel into 3 lots 3 will include the Event Center, Hotel, and required and utility improvements to serve the current project ermined. The remainder lot is approximately 7.8-acres ision. Approximately 0.6-acres of the remainder lot will d and Linnel Lane. The project site land use shall be developed in accordance with the existing land

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The IS/MND identified potentially significant impacts in the areas of air quality, biological resources, cultural resources, geology/soils, hazardous materials, Hydrology and Water Quality, Noise, and tribal cultural resources for which mitigation measures are proposed to reduce these impacts to less than significant levels. Mitigation measures include Best Available Control Measures to minimize fugitive dust and volatile organic compounds, and noise, pre-construction biological surveys to protect special-status species, payment of mitigation fees pursuant to applicable habitat plans, protection of significant trees, construction monitoring for the recovery of potential cultural and paleontological resources and dignified treatment of any human remains, proper engineering design and construction in conformance with 2016 California Building Code standards and project-specific geotechnical recommendations, and appropriate treatment of unanticipated hazardous materials encountered during construction.
