Project Description: (please use a separate page if necessary)

Inyo County Department of Public Works (County) proposes to replace the existing North Round Valley Road Bridge over Pine Creek (Bridge No. 48C0044), which was damaged from high-velocity flows in Pine Creek.

The County proposes to replace the structure with a single-span, precast/prestressed wide flange girder superstructure supported on high cantilever abutments founded on cast-in-drilled-hole concrete piles, approximately 85 feet in length. The existing horizontal and vertical alignments of North Round Valley Road will be maintained. No falsework (temporary form-work used to support the concrete until it develops strength) within locations of the creek channel will be required

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
