

# Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Limonite Avenue Widening Project - Bain Street to Homestead Street

Lead Agency: City of Jurupa Valley

Contact Name: Chase Keys, PE, Engineering Department

Email: ckkeys@jurupavalley.org Phone Number: 951-332-6464 x235

Project Location: Limonite Ave. between Bain and Homestead, Jurupa Valley Riverside  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

The City proposes to widen approximately 3,900 linear feet of Limonite Avenue between Bain Street on the west to Homestead Street on the east. The roadway would be widened from two to four lanes. The Project would tie into four-lane sections of Limonite Avenue from just west of Bain Street to just west of Homestead Street. The widened facility would consist of four travel lanes with a raised median and shoulders in both directions, an equestrian use trail on the north side of the street and a multi-use path on the south side. Three existing intersections would be modified to accommodate the widened roadway and existing driveways would be reconstructed as necessary where they join Limonite Avenue. New right-of-way would be acquired along both sides of Limonite Avenue to accommodate the improvements.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Biological Resources\*: BIO-1 = Prepare DBESP under MSHCP for Riparian/Riverine Resources, BIO-2 = DBESP under MSHCP for least Bell's vireo, BIO-3 = Regulatory Permitting for Riparian Resources, BIO-4 = DBESP for Fairy Shrimp if found in former watering pond, BIO-5 = DBESP under MSHCP for Sensitive Plants, BIO-6 = Burrowing Owl Pre-Construction Survey, BIO-7 = Steps to take if burrowing owl found in pre-construction survey, BIO-8 = Pay Stephens' Kangaroo Rat mitigation fee, BIO-9 = Limit construction on Pyrite Creek to minimize impacts on speckled dace, BIO-10 = Construction to limit indirect impacts under MSHCP, BIO-11 = Raptor and Nesting Bird Surveys.  
Cultural Resources: CUL-1 = Archaeological monitoring during grading, CUL-2 = Archaeological Treatment Plan, CUL-3 = Paleontological Monitoring, CUL-4 = Paleontological Treatment Plan.  
Geology and Soils: GEO-1 = grading and construction will conform to requirements of Project geotechnical report.  
Hazards and Hazardous Materials: HAZ-1 = Survey for Lead-based Paint, HAZ-2 = Dewatering of groundwater if necessary during construction, HAZ-3 = Coordinate any relocation of power poles with transformers  
Hydrology and Water Quality: HYD-1 = Obtain Notice of Intent under NPDES program.  
Noise: NOI-1 = Limit construction noise, NOI-2 = Install block wall to protect one residence from traffic noise  
Traffic: TRF-1 = Prepare and implement a Traffic Management Plan during construction.  
Tribal Cultural Resources: TCR-1 = Native American Monitoring, TCR-2 = Treatment of Tribal Resources, TCR-3 = Disposition of Discoveries

\* MSHCP = Multi-Species Habitat Conservation Plan for Western Riverside County

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

With respect to the proposed Project, the key issues to be resolved include: (1) indirect impact to biological resources along the Santa Ana River; (2) potential impacts if fairy shrimp are found onsite; and (3) temporary impacts to properties along this portion of Limonite Avenue during construction.

Provide a list of the responsible or trustee agencies for the project.

California Department of Fish and Wildlife – possible regulatory permitting for state listed or otherwise sensitive species and/or jurisdictional drainage areas

U.S. Fish and Wildlife Service – possible regulatory permitting for federally listed or otherwise sensitive species and/or jurisdictional drainage areas

U.S. Army Corps of Engineers – possible regulatory permitting for federal jurisdictional drainages

State Water Resources Control Board - Notice of Intent to Comply with General Construction Activity NPDES Permit

Regional Water Quality Control Board, Santa Ana Region - possible regulatory permitting related to jurisdictional drainages

Riverside County Flood Control and Water Conservation District - possible temporary encroachment permit(s)
