NOTICE OF INTENT TO ADOPT A MITIGATED NEGATIVE DECLARATION COUNTY OF MONTEREY

NOTICE IS HEREBY GIVEN that the Monterey County Resource Management Agency (RMA) has prepared a draft Mitigated Negative Declaration, pursuant to the requirements of CEQA, for the Bradley Road Bridge Scour Repair Project, File Number 3852, along Bradley Road in an unincorporated portion of the County (see description below).

The Mitigated Negative Declaration and Initial Study, as well as referenced documents, are available for review at the Monterey County RMA - Public Works & Facilities Division, 1441 Schilling Place, 2nd Floor, Salinas, CA 93901. The Mitigated Negative Declaration and Initial Study are also available for review in an electronic format by following the instructions at the following link: <https://www.co.monterey.ca.us/government/departments-i-z/resource-management-agency-rma/public-works/current-major-projects/bradley-mitigated-negative-declaration>.

Project Description: The County of Monterey (County) RMA proposes to implement the Bradley Road Bridge Scour Repair Project (proposed project) to repair and protect the Bradley Road Bridge piers (Bridge No. 44C-0050), which are currently exposed and being undermined due to ongoing scour (the erosion of soil or sediment). The Bradley Road Bridge (bridge) is located approximately 5 miles north of the Monterey County/San Luis Obispo County border, just west of Bradley and approximately ¼ mile east of Highway 101 in unincorporated Monterey County, California. The existing bridge is approximately 1,668 feet long by 27 feet wide and spans the Salinas River. The bridge is a twenty-four-span steel truss and concrete girder bridge with 23 concrete piers and two concrete abutments. The bridge has a history of scour at the concrete piers in the low flow channel of the Salinas River, which is currently undermining the foundations of Piers 16 through 19. The proposed project would install cast-in-drilled-hole (CIDH) piles and retrofit of the pier footing caps at Piers 16 through 19. The bridge would remain open to public use during construction and no traffic detours will be required.

We welcome your comments during the 38-day public review period. You may submit your comments from December 10, 2019 to January 17, 2020 in hard copy to José Gómez, Project Manager II at the address above. The County also accepts comments via e-mail or facsimile. To submit your comments by e-mail, please send a complete document including all attachments to: gomezj2@co.monterey.ca.us. To submit your comments by facsimile, please send a complete document including all attachments to: (831) 755-4816.

For reviewing agencies: Resource Management Agency (RMA) requests that you review the enclosed materials and provide any appropriate comments related to your agency's area of responsibility. The space below may be used to indicate that your agency has no comments or to state brief comments. In compliance with Section 15097 of the CEQA Guidelines, please provide a draft mitigation monitoring or reporting program for mitigation measures proposed by your agency. This program should include specific performance objectives for mitigation measures identified (CEQA Section 21081.6(c)). Also inform the County if a fee needs to be collected in order to fund the mitigation monitoring or reporting by your agency and how that language should be incorporated into the mitigation measure.

All written comments on the Initial Study should be addressed to:

Monterey County RMA - Public Works & Facilities
Attn: José Gómez, Project Manager II
1441 Schilling Place, 2nd Floor
