

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Star-Kist Cannery Facility ProjectLead Agency: Los Angeles Harbor DepartmentContact Name: Nicole EncisoEmail: nenciso@portla.orgPhone Number: (310) 732-3615Project Location: Los Angeles, Los Angeles County*City**County*

Project Description (Proposed actions, location, and/or consequences).

The Los Angeles Harbor Department (LAHD) has prepared this Initial Study/Negative Declaration (IS/ND) to address the environmental effects of the proposed Star-Kist Cannery Facility Project (Project). The proposed Project would involve demolition of the former Star-Kist Cannery Facilities on an approximately 16.5 acre site on Terminal Island within the Port of Los Angeles in the City of Los Angeles, Los Angeles County, California. The future proposed use for this site is undetermined at this time. The objectives of the proposed Project are to remove an under utilized building that has become an attractive nuisance within the Port; optimize use of existing land at the Project site; and create a more marketable location for future development. The proposed Project involves two planned phases for demolition at the Project site. Once all properties are demolished, the sites would be graded, and newly exposed dirt would be covered with crushed miscellaneous base. The proposed Project would also include the installation of perimeter fencing and exterior perimeter lighting.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

All impacts were determined to be less than significant or no impact would occur. No mitigation measures are required to reduce or avoid a potentially significant impact.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy.

Provide a list of the responsible or trustee agencies for the project.

LAHD - Coastal Development Permit

Los Angeles Regional Water Quality Control Board - Section 401 Permit, Stormwater Pollution Prevention Plan; National Pollutant Discharge Elimination System General Permit for Stormwater Discharges Associated with Industrial Activities

US Army Corps of Engineers - Section 404 Permit; Regional General Permit No. 65 (Wharf Maintenance)
