State Clearinghouse Number (if submitted to State Clearinghouse): 2019129046

Project Title: Mokelumne Aqueduct System Routine Maintenance Project

Project Applicant: East Bay Municipal Utility District

Project Location (include county): Calaveras, San Joaquin, Contra Costa, Alameda

**Project Description:**

The Project involves the routine maintenance at access road and aqueduct stream crossing locations that require Fish and Game Code Section 1602 Lake and Stream Alteration Agreements (LSAAs) authorized by the California Department of Fish and Wildlife. Access roads are critical to repairs, maintenance, and operations of the aqueducts and maintenance activities provide for safe travel on the access roads at stream crossings, while ensuring natural flows for ditches, swales and other watercourses. Routine maintenance of the access road stream crossings is ongoing due to changing conditions resulting from weather events, deterioration of culverts and normal use. Routine maintenance work is also required due to deterioration of culvert ends, headwalls and/or weather conditions that could affect the integrity of the aqueduct pipelines. Routine maintenance activities occur every one to five years in the stream zones of the Project depending on location and maintenance needs.

This is to advise that the East Bay Municipal Utility District has approved the above  
☒ Lead Agency or ☐ Responsible Agency)

described project on May 12, 2020 and has made the following determinations regarding the above  
 (date)  
 described project.

1. The project [☐ will ☒ will not] have a significant effect on the environment.
2. ☐ An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.  
☒ A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [☒ were ☐ were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [☒ was ☐ was not] adopted for this project.
5. A statement of Overriding Considerations [☐ was ☒ was not] adopted for this project.
6. Findings [☒ were ☐ were not] made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

This map illustrates the proposed water service area for the Camanche Reservoir and Pardee Reservoir project. The service area is outlined in green, covering a large portion of the Central Valley. The aqueduct, shown in blue, connects the reservoirs to the service area. Major cities and towns within the service area include Sacramento, Modesto, and San Francisco. The map also shows the surrounding landscape, including the American River and the San Francisco Bay Area. An inset map in the bottom left corner shows the location of the project area within the state of California.
