Project Description: (please use a separate page if necessary)

The project would replace the two existing mainline bridges on State Route 99 and one on the northbound off-ramp to Avenue 12/Road 29 from State Route 99. The Build Alternative offers two bridge construction type options. Option 1 would replace the two existing mainline bridges with a single four-span cast-in-place/prestressed concrete box girder bridge. Option 2 would replace the two existing mainline bridges with a single four-span precast/prestressed I-girder bridge.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
