Description of Project: CREH is proposing the to drill the 638H-10-9D well in BV Hills; it will be a production oil/gas well. The project involves drilling the new well, completing at various intervals, & installation of production facilities; refer to site plan. Drilling activities will require a sump & the estimated MD is up to 13,000 ft. New temporary and permanent disturbance will be required for the well pad and access roads; flowlines will either be following existing routes or be part of the new well pad and access road disturbance areas. After initial drilling & completions activities, CREH may complete additional downhole work (workover activities) as approved by CalGEMD (formerly DOGGR). All activities will be located on Tier 1 lands owned by CREH.
