In accordance with Orange County Board of Supervisor's policies regarding implementation of the California Environmental Quality Act, the County of Orange has conducted an Initial Study to determine whether the following project may have a significant adverse effect on the environment. On the basis of that study, the County of Orange hereby finds that the proposed project will not have a significant adverse effect on the environment and does not require the preparation of an Environmental Impact Report because either the proposed project:

- has** or **creates no** significant environmental impacts requiring mitigation; or
- will not create** a significant adverse effect, because the Mitigation Measures described in the Initial Study have been added to the project.
