**Subject: Phase I Environmental Site Assessment
Escalante Meadows (Formerly a Portion of Guadalupe Ranch Acres)
Guadalupe, California**

Dear Mr. Deese:

This report presents the findings of a Phase I Environmental Site Assessment (ESA) completed by Rincon Consultants, Inc. for Escalante Meadows (formerly a portion of Guadalupe Ranch Acres) in Guadalupe, California. The Phase I ESA was performed in accordance with our proposal and contract dated November 26, 2018.

The accompanying report presents our findings and provides an opinion regarding the presence of recognized environmental conditions. Our work program for this project, as referenced in our contract, is intended to meet the guidelines outlined in the American Society for Testing and Materials (ASTM), Standard Practice for Environmental Site Assessments: *Phase I Environmental Site Assessment Process* (ASTM Standard E-1527-13). Our scope of services, pursuant to ASTM practice, did not include any inquiries with respect to asbestos, lead-based paint, lead in drinking water, wetlands, regulatory compliance, cultural and historic resources, industrial hygiene, health and safety, ecological resources, endangered species, vapor intrusion or other indoor air quality, mold, or high voltage power lines.

Thank you for selecting Rincon for this project. If you have any questions, or if we can be of any future assistance, please contact us.

Sincerely,
Rincon Consultants, Inc.

Executive Summary

This report presents the findings of a Phase I Environmental Site Assessment (ESA) for Escalante Meadows (formerly a portion of Guadalupe Ranch Acres) located in Guadalupe, California (Figure 1, Vicinity Map). The Phase I ESA was performed for Housing Authority of the County of Santa Barbara (HACSB) by Rincon Consultants, Inc. (Rincon). The Housing Authority of the County of Santa Barbara has requested this assessment and will use the information for the purposes of redeveloping the subject property. The Housing Authority of the County of Santa Barbara plans to demolish the existing structures and redevelop the subject property with 80 new units, a community center and a maintenance facility. The subject property is currently occupied by Escalante Meadows, residential duplex housing, formerly a portion of Guadalupe Ranch Acres.

Rincon performed a reconnaissance of the subject property on December 27, 2018. The purpose of the reconnaissance was to observe existing conditions and to obtain information indicating the presence of recognized environmental conditions in connection with the subject property. The property contains 52 residential duplex units. The maintenance shop area contains small quantities of various cleaners, degreaser, insecticide, paint thinner, spray paint cans, paint buckets, concrete mix, and a portable fuel canister. Rincon did not observe indications of releases from these containers. In addition, Rincon observed a two PG&E pole-mounted transformers located along the western interior and eastern interior portion of Escalante St. There was no indication of a release in the vicinity of the transformers.

The subject property is located in an area that is primarily comprised residential, agricultural and educational land uses. Properties in the vicinity of the subject property include Mary Buren Elementary School, residential homes, wetlands and agricultural land.

Environmental Data Resources, Inc. (EDR) was contracted to provide a database search of public lists of sites that generate, store, treat or dispose of hazardous materials or sites for which a release or incident has occurred. The EDR search was conducted for the subject property and included data from surrounding sites within a specified radius of the property. The subject property was listed in the HAZNET database searched by EDR. According to EDR, the HAZNET listing indicates the subject property generates small quantities of hazardous waste that includes inorganic solid waste, organic solids and liquids with pH less than or equal to 2. Based on the nature of the listing (offsite disposal of hazardous waste), this is not expected to impact the subject property.

In addition, Mary Buren School located adjacent to the west-northwest is listed on the LUST, HIST CORTESE, and CERS databases searched by EDR. The LUST case was opened following an unauthorized release from an underground storage tank system on the site. According to GeoTracker, this site is listed as, "Completed- Case Closed as of 5/13/2015". Based on the case closed status, and groundwater flow direction (away from the subject property), this adjacent release site is not expected to impact the subject property.

Historical sources reviewed as part of the Phase I ESA include aerial photographs and topographic maps. The photos and maps reviewed indicate that the subject property was vacant in 1939. In 1943 the subject property is mostly vacant with a small structure located in the eastern corner of the property. From 1949 to 1954 portions of the subject property are in agricultural use. From 1954 to

present day the subject property is developed with the existing duplex housing along Escalante Street. In addition, the southern portions of the subject property have been occupied by wetlands.

Based on the findings of this Phase I ESA, it is our opinion that no recognized environmental conditions were identified for the subject property.

Because we have no evidence indicating that the subject property has been impacted by hazardous materials or petroleum products, no additional assessment is recommended.

Introduction

This report presents the findings of a Phase I ESA conducted for Escalante Meadows (formerly a portion of Guadalupe Ranch Acres) located in Guadalupe, California (Figure 1, Vicinity Map). The Phase I ESA was performed by Rincon Consultants, Inc. (Rincon) for Housing Authority of the County of Santa Barbara in general conformance with ASTM E 1527-13, our contract and proposal dated November 26, 2018. The following sections present our findings and provide our opinion as to the presence of recognized environmental conditions on the subject property.

Purpose

Housing Authority of the County of Santa Barbara has requested this assessment and will use the information for the purposes of redevelopment of the subject property. The purpose of this Phase I ESA was to determine if there are recognized environmental conditions on the subject property, taking into account commonly and reasonably ascertainable information and to qualify for Landowner Liability Protections under the Brownfields Amendments to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).

A recognized environmental condition (REC) is defined pursuant to ASTM E 1527-13 as,

“the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: 1) due to any release to the environment; 2) under conditions indicative of a release to the environment; 3) under conditions that pose a material threat of a future release to the environment”.

A Controlled REC is defined pursuant to ASTM E 1527-13 as,

“a recognized environmental condition resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). A condition considered by the environmental professional to be a controlled recognized environmental condition shall be listed in the findings section of the Phase I Environmental Site Assessment report, and as a recognized environmental condition in the conclusions section of the Phase I Environmental Site Assessment report”.

A Historical REC is defined pursuant to ASTM E 1527-13 as,

“a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by regulatory authority, without subjecting the property to any required controls (for example, use restrictions, activity and use limitations, institutional controls, or engineering controls). Before calling the past release a historical recognized environmental condition, the environmental professional must

determine whether the past release is a recognized environmental condition at the time the Phase I Environmental Site Assessment is conducted (for example, if there has been a change in the regulatory criteria). If the EP [Environmental Professional] considers the past release to be a recognized environmental condition at the time the Phase I ESA is conducted, the condition shall be included in the conclusions section of the report as a recognized environmental condition”.

A *de minimis* condition is defined pursuant to ASTM E 1527-13 as,

“a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies. Conditions determined to be *de minimis* conditions are not recognized environmental conditions nor controlled recognized environmental conditions”.

Scope of Services

The scope of services conducted during this study is outlined below:

- Performed a reconnaissance of the subject property to identify obvious indicators of the existence of hazardous materials.
- Observed adjacent or nearby properties from public thoroughfares in an attempt to see if such properties are likely to use, store, generate, or dispose of hazardous materials.
- Obtained and reviewed an environmental records database search to obtain information about the potential for hazardous materials to exist at the subject property or at properties located in the vicinity of the subject property.
- Reviewed files for the subject property and immediately adjacent properties as identified in the database report, as applicable.
- Reviewed the current U.S. Geological Survey (USGS) topographic map to obtain information about the subject property and regional topography and uses of the subject property and surrounding sites.
- Reviewed additional pertinent record sources (e.g., California Division of Oil and Gas records, online databases of hazardous substance release sites), as necessary, to identify the presence of RECs at the subject property.
- Reviewed reasonably ascertainable historical resources (e.g., aerial photographs, topographic maps, fire insurance maps, city directories) to assess the historical land use of the subject property and adjacent properties.
- Provided a user interview questionnaire to a representative of the client, the user of the Phase I ESA.
- Provided a property owner interview questionnaire to the property owner or a designated subject property representative identified to Rincon by the client.
- Conducted interviews with other property representatives (e.g., key site manager, occupants), as applicable.
- Reviewed available client-provided information (e.g., previous environmental reports, title documentation).

Significant Assumptions, Limitations, Deviations, Exceptions, Special Terms, and Conditions

This work is intended to adhere to good commercial, customary, and generally accepted environmental investigation practices for similar investigations conducted at this time and in this geographic area. No guarantee or warranties, expressed or implied are provided. The findings and opinions conveyed in this report are based on findings derived from a site reconnaissance, review of an environmental database report, specified regulatory records and historical sources, and comments made by interviewees. This report is not intended as a comprehensive site characterization and should not be construed as such. Standard data sources relied upon during the completion of Phase I ESAs may vary with regard to accuracy and completeness. Although Rincon believes the data sources are reasonably reliable, Rincon cannot and does not guarantee the authenticity or reliability of the data sources it has used. Additionally, pursuant to our contract, the data sources reviewed included only those that are practically reviewable without the need for extraordinary research.

Rincon has not found evidence that hazardous materials or petroleum products exist at the subject property at levels likely to warrant mitigation. Rincon does not under any circumstances warrant or guarantee that not finding evidence of hazardous materials or petroleum products means that hazardous materials or petroleum products do not exist on the subject property. Additional research, including surface or subsurface sampling and analysis, can reduce the client's risks, but no techniques commonly employed can eliminate these risks altogether.

In addition, pursuant to ASTM E 1527-13 practice, our scope of services did not include any inquiries with respect to asbestos containing building materials, biological agents, cultural and historic resources, ecological resources, endangered species, health and safety, indoor air quality unrelated to release of hazardous substances or petroleum products into the environment, industrial hygiene, lead-based paint, lead in drinking water, mold, radon, regulatory compliance, wetlands, or high voltage power lines.

User Reliance

Housing Authority of the County of Santa Barbara has requested this assessment and will use the information for the purposes of redeveloping the subject property. This Phase I ESA was prepared for use solely and exclusively by the Housing Authority of the County of Santa Barbara. No other use or disclosure is intended or authorized by Rincon. Also, this report is issued with the understanding that it is to be used only in its entirety. No other person or entity may rely upon the report without the express written consent of Rincon, other than entities fulfilling HACSB stated purposes.

Site Description

Location

The subject property is an approximately 9-acre site located along Escalante Street, south of 11th Street in Guadalupe, California (Figure 2, Site Map). The property is identified as Assessor's Parcel Numbers (APNs) 115-230-003 and 115-230-004.

Subject Property and Vicinity General Characteristics

The subject property is currently in use as Escalante Meadows residential duplex housing (formerly a portion of Guadalupe Ranch Acres).

The subject property is located in an area that is primarily comprised residential, agricultural and educational land uses. Properties in the vicinity of the subject property include Mary Buren Elementary School, residential homes, wetlands and agricultural land. The current adjacent land uses are described in Table 1 and depicted on Figure 3, Adjacent Land Use Map.

Table 1 Current Uses of Adjacent Properties

Area	Use
Northeastern Properties	11 th St followed by agricultural land
Southeastern Properties	Wetlands and rural residential single-family homes
Southwestern Properties	Wetlands followed by agricultural land
Northwestern Properties	Mary Buren Elementary School

Descriptions of Structures, Roads, Other Improvements on the Site

During the site reconnaissance, single-story duplex housing units, a community center/office, a playground, a basketball court and a maintenance shop were observed.

A wooden fence and cinder block wall was noted around the perimeter of the subject property.

Access to the subject property is available from Escalante Street.

The following utility providers service the subject property:

- Electrical Service – PG&E
- Natural Gas – Southern California Gas Co.
- Water Service – City of Guadalupe
- Sewer – City of Guadalupe

User Provided Information

As described in ASTM E 1527-13 Section 6, HACSB was interviewed for actual knowledge pertaining to the subject property to help identify recognized environmental conditions. Larry Deese, Senior Project Manager of HACSB, completed the User Questionnaire on April 8, 2019 as provided by ASTM Appendix X3. A copy of the completed questionnaire is included as Appendix A.

Based on our review of the completed questionnaire, Mr. Deese reviewed the following sources of information and there is not any information regarding the following:

- Recorded land title records (or judicial records, where appropriate) that identify any environmental liens filed or recorded against the subject property
- Recorded land title records (or judicial records, where appropriate) that identify any activity and land use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the subject property under federal, tribal, state or local law
- Title Report that identifies information pertaining to environmental cleanup liens or AULs for the subject property

Based on our review of the completed questionnaire, Mr. Deese is unaware of information regarding the following:

- Specialized knowledge or experience related to the subject property or nearby properties
- Reduction in value for the subject property relative to any known environmental issues
- Commonly known or reasonably ascertainable information about the subject property that would help the environmental professional to identify conditions indicative of releases or threatened releases
- Obvious indicators that point to the presence or likely presence of releases at the subject property
- Pending, threatened, or past litigation relevant to hazardous substances or petroleum products, in, on, or from the subject property
- Pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the subject property
- Notice from any government entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products

Additionally, Mr. Deese is not aware of a reduction in value for the subject property relative to any known environmental issues.

Records Review

Physical Setting Sources

Topography

The current USGS topographic map (Guadalupe Quadrangle, 2012) indicates that the subject property is situated at an elevation of about 90 feet above mean sea level with topography gently sloping down to the west. The adjacent topography consists of similarly flat land gently sloping down to the west.

Geology and Hydrogeology

The site is located in the Santa Maria River Valley. The valley is bounded to the north by the northwest trending San Raphael Mountains and to the south by the west trending Solomon and Casmalia Hills.

Site Geology

According to the Dibblee Geological Foundation, Point Sal & Guadalupe Quadrangles, 1989, the subject property is underlain by Quaternary surficial sediments of valley and floodplain alluvium.

Regional Groundwater Occurrence and Quality

The subject property is located within the Santa Maria groundwater basin.

During the preparation of this Phase I ESA, we reviewed the California State Water Resources Control Board's (SWRCB's) online GeoTracker database to determine groundwater flow direction in the vicinity for the site:

- Groundwater monitoring reports for a nearby Mary Buren School located at 1050 Peralta St (adjacent to the west-northwest of the subject property) indicate that groundwater is reported to be approximately 12.46 feet below grade and flows primarily to the southwest.

Standard Environmental Record Sources

EDR was contracted to provide a database search of public lists of sites that generate, store, treat or dispose of hazardous materials or sites for which a release or incident has occurred. The EDR search was conducted for the subject property and included data from surrounding sites within specified radii of the property. A copy of the EDR report, which specifies the ASTM search distance for each public list, is included as Appendix B. As shown on the attached EDR report, federal, state and county lists were reviewed as part of the research effort. Please refer to Appendix B for a complete listing of sites reported by EDR and a description of the databases reviewed.

The Map Findings Summary, included in the EDR report, provides a summary of the databases searched, the number of reported facilities within the search radii, and whether the facility is

located onsite or adjacent to the subject property. The following information is based on our review of the Map Findings Summary and the information contained in the EDR report.

Subject Property

The subject property was listed on the following databases:

- HAZNET database as HSG Authority/ County of Santa Barbara at 1050 Escalante St

Regulatory agency files reviewed for the subject property are discussed in the Additional Environmental Record Sources section of this report.

Offsite Properties

Offsite properties listed by EDR fall under two general categories of databases: those reporting unauthorized releases of hazardous substances (e.g., LUST, National Priority List [a.k.a. Superfund sites], and corrective action facilities), and databases of businesses permitted to use hazardous materials or generate hazardous wastes, for which an unauthorized release has not been reported to a regulatory agency.

Rincon reviewed the EDR Radius Map and select detailed listings to evaluate their potential to impact the subject property, based on the following factors:

- Reported distance of the facility from the subject property
- The nature of the database on which the facility is listed, and/or whether the facility was listed on a database reporting unauthorized releases of hazardous materials, petroleum products, or hazardous wastes
- Reported case type (e.g., soil only, failed UST test only)
- Reported substance released (e.g., chlorinated solvents, gasoline, metals)
- Reported regulatory agency status (e.g., case closed, “no further action”)
- Location of the facility with respect to the reported groundwater flow direction (discussed in the Geology and Hydrogeology section of this report)

Facilities/properties that were interpreted by Rincon to be of potential environmental concern to the subject property, based on one or more of the factors listed above, are summarized in Table 2. In accordance with ASTM, contamination migration pathways in soil, groundwater, and soil vapor were considered in our analysis of offsite properties of potential environmental concern.

Table 2 EDR Listing Summary of Select Sites Within One-Eighth Mile of the Subject Site

Site Name	EDR Site ID	Site Address	Distance from Subject Property (miles)	Database Reference
Subject Property				
Housing Authority/County of Santa Barbara	A1-A4	1050 Escalante St	Subject Property	CA HAZNET
Adjacent Properties				
Mary Buren School	5	1050 Peralta St	Adjacent Property – west-northwest	LUST, HIST CORTESE, CERS

Site Name	EDR Site ID	Site Address	Distance from Subject Property (miles)	Database Reference
Cross Gradient Properties				
Guadalupe-Peralta Street Dump	6	Peralta St., N of 11 th St	Approximately 500 feet to the northwest	SWF/LF
Nearby Properties				
Wetlands Project	7	4500 9 th Street	Approximately 860 feet to the west	US BROWNFIELDS

Regulatory agency information reviewed for the listings in the table above are summarized in the Additional Environmental Record Sources section of this report.

Orphan Listings

EDR reported one orphan or unmapped site listings, which EDR is unable to plot due to insufficient address information. Based on Rincon's review of the limited address information or site descriptions for the orphan listings, the listing is not expected to impact the subject property.

Additional Environmental Record Sources

Review of Agency Files

As a follow-up to the database search, Rincon reviewed regulatory information for facilities within the specified search radii that were interpreted to have the potential to impact the subject property, based on one or more factors previously discussed (e.g., distance, open case status, upgradient location, soil vapor migration).

The following is a summary of our review of regulatory information obtained from review of online sources (e.g., SWRCB GeoTracker database, DTSC EnviroStor database) and/or files requested from the applicable regulatory agency, as described below.

Subject Property

The subject property was listed in the HAZNET database searched by EDR. According to EDR, the HAZNET listing indicates the subject property generates small quantities of hazardous waste that includes inorganic solid waste, organic solids and liquids with pH less than or equal to 2. Based on the nature of the listing (offsite disposal of hazardous waste), this is not expected to impact the subject property.

Adjacent Properties

One adjacent property was listed in databases searched by EDR.

- **Mary Buren School – 1050 Peralta St:** This school property is located adjacent to the west-northwest of the subject property and is listed on the LUST, HIST CORTESE, and CERS databases searched by EDR. The LUST case was opened following an unauthorized release from an underground storage tank system on the site. According to a UST Case Closure Summary

prepared by Santa Barbara County Public Health Department (SBCEH), dated April 2015 and provided by GeoTracker,

"Soil impacts were identified during the removal of the 550-gallon gasoline underground storage tank used to fuel buses in June 1988. Free product was removed from the site from monitoring wells MW-2 and MW-3 between 1988 and 1994. In addition to the tank removal and free product bailing, remedial actions have consisted of: excavation (~11 feet below ground surface) with treatment via passive aeration and passive bioremediation onsite, and in-situ treatments using oxygen releasing compound and oxygen diffusing units into groundwater. In July 2010, benzene was the only chemical of potential concern detected above water quality objectives, at MW-3. Benzene was detected at 5.0 µg/L in MW-3, with a water quality objective based on the maximum contaminant level (MCL) of 1 µg/l. Soil impacts are present below a depth of approximately 10 feet, in the uppermost portion of the saturated zone of the first encountered groundwater, with an estimated in place volume of 650 cubic yards. The residual constituents are expected to attenuate below water quality goals within reasonable time and without migrating beyond their current extent. Based upon site data, this site meets the State Water Resources Control Board's Low Threat Underground Storage Tank Case Closure Policy Criteria."

According to GeoTracker, this site is listed as, "Completed- Case Closed as of 5/13/2015". Based on the case closed status, the former location of the tank over 400 feet west of the subject property, and groundwater flow direction (away from the subject property); this adjacent release site is not expected to impact the subject property.

Cross Gradient Property

One cross gradient property was listed in databases searched by EDR.

- **Guadalupe-Peralta Street Dump- Peralta St., N of 11th St:** This cross gradient property is located approximately 500 ft to the northwest of the subject property and is listed on the SWF/LF database searched by EDR. These listings indicate Active, Closed and Inactive Landfills or solid waste disposal facilities. Based on our review of online records for this site found on the Cal Recycle website, the solid waste disposal site is currently closed. An inspection conducted in on 8/30/2018 resulted in a violation which states, *"several debris piles were observed on site, including the following: a pile of discarded farm equipment (rusted scrap metal and tires) and a pile of broken concrete (inert rubble) was observed this date on the surface of the former disposal site and does not meet the requirements for final cover."* Based on the closed operational status, the distance from the subject property and the groundwater flow direction (cross gradient from the subject property); this dump site is not expected to impact the subject property.

Nearby Property

One nearby property was listed in databases searched by EDR.

- **Wetlands Project- 4500 9th Street:** This site is located approximately 860 feet to the west of the subject property and is listed on the US BROWNFIELDS database searched by EDR. These listings indicate the expansion, redevelopment or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. According to EDR, a grant was provided by the US EPA to fund a Phase II Environmental Assessment in 2001. No further information was reported by EDR. Based on the distance from the subject property and the groundwater flow direction (downgradient and away

from the subject property); this wetlands site is not expected to impact the subject property.

Known or Suspect Contaminated Release Sites with Potential Vapor Migration

The EDR report was reviewed to identify nearby known or suspect contaminated sites that have the potential for contaminated vapor originating from the nearby site to be migrating beneath the subject property. Based on the ASTM E 2600-15, *Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions*, the following minimum search distances were initially used to determine if contaminated soil vapors from a nearby known or suspect contaminated site have the potential to be migrating beneath the subject property:

- 1/10 mile (528 feet) for petroleum hydrocarbons
- 1/3 mile (1,760 feet) for other contaminants of concern (COCs)

If upgradient known or suspect contaminated sites are located within the above referenced distances from the subject property, online resources are reviewed to determine the extent of the contaminated plume at those sites. The following describes search distances for contaminated plumes of petroleum hydrocarbons and other COCs.

Petroleum Hydrocarbons

Based on our review of the EDR report information as indicated above, there are no onsite, adjacent, or upgradient known or suspect petroleum hydrocarbon-impacted soil or groundwater plumes located within 30 feet of the subject property.

Other COCs

Based on our review of the EDR report, there are no adjacent or upgradient known or suspect contaminated soil or groundwater plumes located within 100 feet of the subject property.

Review of State of California Division of Oil and Gas Records

A review of the Department of Conservation, Division of Oil, Gas & Geothermal Resources Online Mapping System indicates that no oil wells are located on the subject property or adjacent properties, or within one-quarter mile of the subject property.

Review of National Pipeline Mapping System Records

In addition, a review of the National Pipeline Mapping System (NPMS) online Public Map Viewer¹ indicates that no gas transmission pipelines or hazardous liquid pipelines are located on the subject property or adjacent properties.

¹ <https://www.npms.phmsa.dot.gov/PublicViewer/>

Historical Use Information on the Property and the Adjoining Properties

The historical records review completed for this Phase I ESA includes aerial photographs, topographic maps, and city directories, as detailed in the following sections. Copies of the historical resources reviewed are included in Appendix C. Table 3 provides a summary of the historical use information available for the subject property.

Review of Historical Aerial Photographs

Aerial photographs from EDR's aerial photograph collection were obtained and reviewed. In addition, a current aerial from Google Earth was also reviewed.

Review of Historical Topographic Maps

Historical topographic maps from EDR's map collection were obtained and reviewed.

Review of City Directory Listings

EDR was contracted to provide copies of city directory listings for the subject property.

Review of Fire Insurance Maps

EDR was contracted to provide copies of fire insurance maps (i.e. Sanborns) for the subject property. As indicated in the attached report, fire insurance maps were not available for the subject property or adjacent properties.

Review of City of Guadalupe Building Permit Records

Building permit records for the subject property were not reviewed.

Other Historical Sources

Based on the historical information obtained, no additional historical sources were reviewed.

Summary of Historical Uses

Subject Property

Based on our review of the documents listed above and summarized in Table 3 below, it appears that the subject property was vacant in 1939. In 1943 the subject property is mostly vacant with a small structure located in the eastern corner. From 1949 to 1954 portions of the subject property are in agricultural use. From 1954 to present day the subject property is developed with the existing duplex housing along Escalante Street. In addition, the southern portions of the subject property have been occupied by wetlands. City directories and fire insurance maps were not provided by EDR for the subject property and adjacent properties.

Table 3 Historical Use of the Subject Property

Year	Use	Source
Subject Property		
1905	The subject property is depicted as vacant with wetlands to the south.	Topographic Map (TM) – Guadalupe Quadrangle
1939	The subject property appears to be vacant with wetlands in the southern portion.	Aerial Photograph (AP) - EDR
1943	Similar to 1939 AP with the addition of a structure in the eastern corner of the subject property.	AP
1947	The subject property is depicted with one structure in the eastern corner of the property.	TM
1949	The subject property appears to be in agricultural use.	AP
1954	The subject property is developed with a road and cul-de-sac with eight surrounding structures. The remaining portions of the subject property are in agricultural use.	AP
1959	The subject property is depicted with fifteen structures. In addition, Escalante Road appears to be developed on the subject property.	TM,
1960	The subject property appears to have a total of 18 structures along Escalante Road. The remaining portions of the property to the south-southeast appear to be vegetated.	AP
1974	The subject property is depicted with a total of 27 structures along Escalante Road.	TM
1978	The subject property appears to be developed with 28 structures. The southern corner of the subject property is occupied by wetlands.	AP
1980	“Housing Authority”	CD- Haines Criss-Cross Directory
1981	Similar to 1978 AP. The southern corner of the property appears to contain a rectangular concrete foundation.	AP

2016	Similar to 2012 AP.	AP

North-Northeastern Adjacent Property (11th/Simas Crossroad Lane)

Based on our review of the documents listed above, it appears that the north-northeastern adjacent property was in agricultural use from 1939 through present day.

Southeastern-southwestern Adjacent Property (4370 11th Street)

Based on our review of the documents listed above, it appears that the southeastern-southwestern adjacent properties were mostly vacant with portions occupied by wetlands from 1939 to at least 1943. From 1949 to 1954, portions of the property appear to be in agricultural use. From 1960 to 2012 the property appears to be vacant. In 2016, one structure is developed fronting 11th Street.

Northwestern Adjacent Property (1050 Peralta Street)

Based on our review of the documents listed above, it appears that the northwestern adjacent property was mostly vacant containing four small structures and a rectangular foundation from 1939 to 1943. In 1949 various structures are developed along the western portion and what appears to be grass fields in the northern portion of the property. From 1954 to 1960, the northern portion of the property appears to be occupied by two baseball fields. In 1978, the existing school building is developed in the northern corner of the property. From 1981 to present day the northwestern adjacent property is developed with various school structures that exist today.

Gaps in Historical Sources

Several gaps of greater than five years were identified in the historical records reviewed, as shown in Table 3. These gaps are considered insignificant because the subject property use appears to be similar prior to and following the gaps.

Interviews

Rincon Consultants performed interviews regarding the subject property and surrounding areas. The purpose of the interviews was to discuss current and historical conditions and to obtain information indicating the presence of recognized environmental conditions in connection with the subject property.

Interview with Owner

An interview questionnaire was provided to the property owner, HACSB. Larry Deese, Senior Project Manager of HACSB completed the Owner Questionnaire on April 5, 2019. A copy of the completed questionnaire is included in Appendix A. The following information is based on our review of the completed questionnaire with the property owner.

Mr. Deese indicated the following:

- The structures on the subject property were built in three phases as follows:
 - Phase 1- Built in approximately 1950 to 1951
 - Phase 2- Built in approximately 1957
 - Phase 3- Built in approximately 1966
- HACSB obtained ownership of the phase 1 portion of the subject property in 1950 and the phase 2 & 3 portions of the subject property in 1956.
- The former subject property was believed to be the Gularte Property.
- The subject property is currently used as 52 residential apartments (duplexes) managed by HACSB.
- The subject property was formerly farmland according to the Cultural Resources Assessment.
- The northern adjacent property is currently and formerly used for agricultural purposes.
- The eastern adjacent property is currently a single-family dwelling that has been under construction for several years.
- The eastern and western adjacent properties former use is unknown.
- The southern adjacent property is currently and formerly natural wetlands.
- The western adjacent property is currently Mary Buren Elementary School.
- There are no hazardous materials or petroleum products stored or used on the subject property according to Mr. Deese's knowledge.
- There are no records from the past regarding pesticides and herbicides used on the subject property. HACSB's policy is to use licensed contractors who use pesticides and herbicides in a residential context.

Mr. Deese also presented the following information regarding storage and waste generation at the subject property.

- Tires and litter were reported to be located on the subject property by maintenance staff and has been removed and sent to a landfill.

Mr. Deese indicated that he is unaware of the presence of industrial drums, storage tanks (above or below ground), fill dirt, pits, ponds, lagoons, sumps, clarifiers, solvent degreasers, stained soil, vent pipes, fill pipes, or access ways, stained surfaces, private wells, non-public water systems, transformers, capacitors, or hydraulic equipment, or records indicating the presence of PCBs.

Mr. Deese indicated that he is not aware of any pending, threatened, or past litigation or administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the property. In addition, he is not aware of any notice from any government entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products.

Interview with Site Manager/Occupant

During the site reconnaissance on December 27, 2018, Johnny Perez, Maintenance Manager for Escalante Meadows, accompanied a Rincon representative around the subject property. Information provided by Mr. Perez is in the site reconnaissance section below.

Interviews with Local Government Officials

Rincon contacted the following agencies for records pertaining to the subject property and adjacent properties:

- Santa Barbara County Environmental Health (SBCEH): SBCEH was contacted on December 17, 2018. As of the date of this report a response has not yet been received.

Interviews with Others

Rincon did not attempt to interview neighboring property owners or others as part of this Phase I ESA.

Site Reconnaissance

Rincon Consultants performed a reconnaissance of the subject property on December 27, 2018 accompanied by Larry Deese, Senior Project Manager of Housing Authority of the County of Santa Barbara and Johnny Peralez, Maintenance Manager of Guadalupe Ranch Acres. The purpose of the reconnaissance was to observe existing subject property conditions and to obtain information indicating the presence of recognized environmental conditions in connection with the property.

Methodology and Limiting Conditions

The site reconnaissance was conducted by:

1. Observing the subject property from public thoroughfares,
2. Observing the adjacent properties from public thoroughfares,
3. Observing the interior of select onsite structures,
4. Observing the exterior of the structures,
5. Backtracking to correlate exterior features with interior features, as necessary, and
6. Observing the subject property from driveways, paved roads, and walking paths.

Current Use of the Property and Adjacent Properties

The subject property is currently in use as Escalante Meadows, a duplex residential facility (formerly a portion of Guadalupe Ranch Acres). Adjacent properties include Mary Buren Elementary School, agricultural land, rural single-family residential and wetlands.

Past Use of the Property and Adjacent Properties

Based on our site reconnaissance, past uses at the subject property and adjacent properties are not readily apparent.

Current or Past Uses in the Surrounding Areas

The subject property is surrounded by residential, educational, and agricultural land uses as detailed in the Site Description section of this report. Past uses of the surrounding area are not readily apparent based on the site reconnaissance.

Geologic, Hydrogeologic, Hydrologic and Topographic Conditions

Geologic, hydrogeologic, hydrologic, and topographic information are as previously stated in the Physical Settings Section of this report.

General Description of Structures

Onsite structures are as described previously in the Site Description section of this report.

Interior and Exterior Observations

Hazardous Substances and Petroleum Products in Connection with Identified Uses

Small quantities of various hazardous substances and petroleum products observed during the site reconnaissance are as follows:

- The maintenance shop area contains small quantities of various cleaners, degreaser, insecticide, paint thinner, spray paint cans, paint buckets, concrete mix, and a portable fuel canister.

Rincon did not observe indications of releases from these containers.

Storage Tanks

During the site reconnaissance, no above- or below-ground storage tanks or evidence of underground storage tanks were observed on the subject property.

Odors

During the site reconnaissance, Rincon did not identify any strong, pungent, or noxious odors.

Drums

During the site reconnaissance, one 20-gallon drum (containing 999 Safety Solvent Degreaser) was observed on the subject property located in the maintenance shop. Rincon did not observe indications of releases from the drum on the subject property.

Hazardous Substances and Petroleum Products Containers Not in Connection with Identified Uses

No hazardous substances or petroleum products not in connection with identified uses were observed at the subject property.

Unidentified Substance Containers

No unidentified substance containers or unidentified containers that might contain hazardous substances were observed during the site reconnaissance.

Indications of Polychlorinated Biphenyls (PCBs)

During the site reconnaissance, Rincon observed two PG&E pole-mounted transformers located along the western interior and eastern interior portion of Escalante St.

There was no indication of a release in the vicinity of the transformers.

Other Conditions of Concern

During the site reconnaissance Rincon did not note any of the following:

- Clarifiers and sumps
- Pits, ponds, and lagoons
- Stressed vegetation
- Wells
- Septic systems/effluent disposal system

Solid Waste/Debris. During the site reconnaissance, miscellaneous solid waste debris were observed on the southwestern adjacent property of Mary Buren Elementary School and the wetlands.

Stained Concrete. During the site reconnaissance, Rincon observed minor surficial staining in parking lot areas along Escalante St. No cracks or other pathways to the subsurface appear to be present within the concrete in the vicinity of the staining. Therefore, the stained concrete is considered de minimis.

Waste Water. During the site reconnaissance, a storm water drain was observed north of the 1005A duplex.

Wetlands. During the site reconnaissance, wetlands were observed south of the subject property and wetlands to the southwest of the subject property. The wetlands are listed on the US BROWNFIELDS database searched by EDR. Further information is described in the Additional Environmental Record Sources section of this report.

Evaluation

Findings

Known or suspect recognized environmental conditions associated with the subject property include the following:

- The former agricultural use of the subject property
- Adjacent closed LUST site

Opinions

- A. **The former agricultural use of the subject property.** Based on the documents reviewed, the subject property was in agricultural use from at least 1949 to 1954. Due to the historic use of the site for agricultural purposes, there is a potential that the property could be affected with pesticides, or other chemicals used routinely in agricultural production. Because the subject property has not been in agricultural use since at least 1954 (greater than 64 years), and due to the earth moving involved during the grading of the subject property during the development of the site, it is likely that the levels of pesticides in the soil (if any) have diminished over time. Therefore, the historical agricultural land use is considered *de minimis*.
- B. **Adjacent closed LUST site.** Based on the documents reviewed, the western adjacent Mary Buren School identified an unauthorized release of gasoline from a 550-gallon underground storage tank in 1988. Remediation actions consisted of: excavation with treatment via passive aeration and passive bioremediation onsite, and in-situ treatments using oxygen releasing compound and oxygen diffusing units into groundwater. According to GeoTracker, this site is listed as, "Completed- Case Closed as of 5/13/2015". Based on the case closed status, the former location of the tank over 400 feet west of the subject property, and groundwater flow direction (away from the subject property); this adjacent release site is not expected to impact the subject property and therefore is considered *de minimis* with respect to the subject property.

Conclusions

Rincon has performed a Phase I ESA in general conformance with the scope and limitations of ASTM E 1527-13 for Escalante Meadows (formerly a portion of Guadalupe Ranch Acres) located in Guadalupe, California. This assessment has revealed no evidence of recognized environmental conditions in connection with the subject property.

Recommendations

Because we have no evidence indicating that the subject property has been impacted by hazardous materials or petroleum products, no additional assessment is recommended.

Deviations

Deviations from ASTM E 1527-13 practice were not encountered during the completion of this Phase I ESA.

Signatures of Environmental Professionals

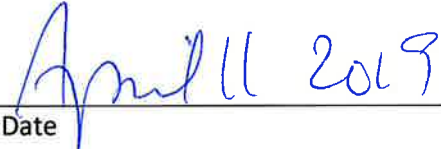

The qualified environmental professionals that are responsible for preparing the report include Walt Hamann and Julie Welch Marshall. Their qualifications are summarized in the following section.

"We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in 312.10 of 40 CFR 312. We have the specific qualifications based on education, training and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312."

Qualifications of Environmental Consultants

The environmental consultants responsible for conducting this Phase I ESA and preparing the report include Walt Hamann, Julie Welch Marshall, and Michelle Carter. Their qualifications are summarized below.

Environmental Professional Qualifications	X2.1.1 (2) (i) - Professional Engineer or Professional Geologist License or Registration, and 3 years of full-time relevant experience	X2.1.1 (2) (ii) - Licensed or certified by the Federal Government, State, Tribe, or U.S. Territory to perform environmental inquiries	X2.1.1 (2) (iii) – Baccalaureate or Higher Degree from and accredited institution of higher education in a discipline of engineering or science and the equivalent of 5 years of full-time relevant experience	X2.1.1 (2) (iii) – Equivalent of 10 years of full-time relevant experience
Walt Hamann	PG, CHG, CEG		MS Geology	30 years
Julie Welch Marshall			BS Environmental Engineering	23 years
Michelle Carter			BS Earth Science	1 year

Walt Hamann, PG, CEG, CHG, is a Principal and Senior Geologist with Rincon Consultants. He holds a Bachelor of Arts degree in geology from the University of California, Santa Barbara and a Master of Science degree in geology from the University of California, Los Angeles. He has over 30 years of experience conducting assessment and remediation projects and has prepared or overseen the preparation of hundreds of Phase I and Phase II Environmental Site Assessments throughout California. Mr. Hamann is a Professional Geologist (#4742), Certified Engineering Geologist (#1635), and Certified Hydrogeologist (#208) with the State of California.

Julie Welch Marshall is a Senior Project Manager with Rincon Consultants. She holds a Bachelor of Science degree in environmental engineering from Rensselaer Polytechnic Institute, Troy, New York, a Hazardous Materials Management Certificate from the University of California, Santa Barbara Extension program, and a Business Management Certificate from the University of California, San Diego Extension program. Ms. Marshall's responsibilities at Rincon include implementation of site assessments and development of site remediation programs within the Environmental Site Assessment and Remediation Group. Ms. Marshall has extensive experience performing Due Diligence Phase I and Phase II Environmental Site Assessments as well as managing Brownfields and various remediation projects. She has 23 years of experience conducting research, assessment and remediation projects in California.

Michelle Carter is an Associate Environmental Scientist with Rincon Consultants. She holds a Bachelor of Science degree in Earth Science with an emphasis in Geology from the University of California, Santa Barbara. Ms. Carter's responsibilities at Rincon include implementation of Phase I

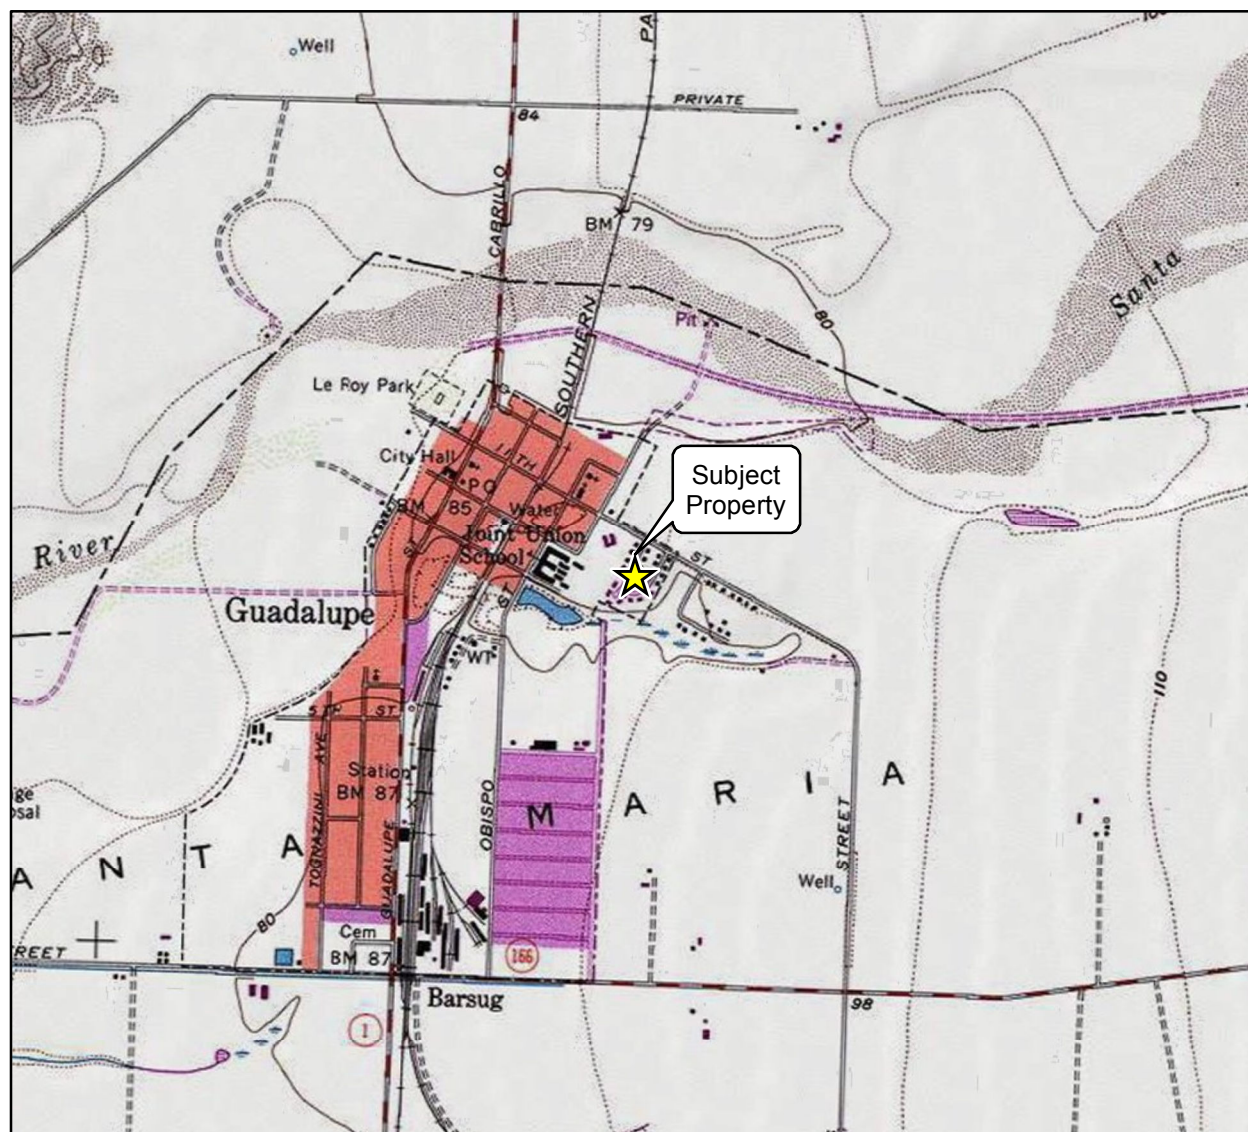

Escalante Meadows (Formerly a Portion of Guadalupe Ranch Acres), Guadalupe, California
Phase I Environmental Site Assessment

Environmental Site Assessment reports for a variety of commercial, rural, and industrial properties. She also has experience conducting Phase II ESA projects including groundwater monitoring/sampling, and soil sampling.

Appendix A

Interview Documentation

User Questionnaire

Rincon Project 18-06895

Site Name and Full Address: Escalante Meadows, Guadalupe, Santa Barbara County, CA

To qualify for one of the Landowner Liability Protections (LLPs) offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the "Brownfields Amendments"), the user must provide the following information to the environmental professional. Failure to conduct these inquiries could result in a determination that "all appropriate inquiries" is not complete.

We respectfully request that you fill out this form and e-mail it to Michelle Carter at mcarter@rinconconsultants.com within one week from the date of this transmittal.

1. Why is the Phase I ESA required or being performed?	The Housing Authority of the County of Santa Barbara plans to redevelop the property formerly known as Guadalupe Ranch Acres into a new development known as Escalante Meadows.
2. What type of property transaction is planned? (i.e. sale, purchase, exchange)	This document will be used for Regulatory and Financial purposes, including the transfer of ownership.
3. What is the entire site address?	The most generic address is for the Community Center which is 1050 Escalante St., Guadalupe, CA 93434. The APN's are addressed as 003 -1090 Escalante and 004 - 1093 Escalante.
4. What is the Assessor's Parcel Number(s)?	115-230-003 & 115-230-004
5. Are any considerations beyond the requirements of Practice E1527 to be considered? (i.e. lien search, asbestos & lead based paint, radon)	Any and all purposes as appropriate for the redevelopment of the property.
6. Identify all parties who will rely on the Phase I report.	Any and all entities who are involved in the redevelopment of the property.
7. Identify the Site Manager/Contact and how the contact can be reached.	For redevelopment purposes, contact Larry Deese at 805-736-3423, Ext # 4026. The on-site contact is Johnny Perez at 805-268-8147.

User Questionnaire

Rincon Project 18-06895

Site Name and Full Address: Escalante Meadows, Guadalupe, Santa Barbara County, CA

8. Identify the Site Owner and how the owner can be reached.	The Housing Authority of the County of Santa Barbara, Attn: Larry Deese, Senior Project Manager, 805-736-3423, Ext# 4026 or larrydeese@hasbarco.org
9. Do you have copies of any available prior environmental site assessment reports, documents, correspondence, etc., concerning any other knowledge or experience with the property that may be pertinent to the environmental professional (i.e. title report, previous Ph I and II ESAs, Environmental Impact Studies)?	Reports previously prepared by Rincon Consultants and a PTR prepared by First American Title Company.

1. Did a search of *recorded land title records* (or judicial records, where appropriate) identify any environmental liens filed or recorded against the *property*?

Please checkmark the most appropriate response:

- ☐ I *have not* reviewed the records and **do not know** if there are any filed or recorded environmental liens.
- ☒ I *have* reviewed the records, and **No, there aren't any** filed or recorded environmental liens.
- ☐ I *have* reviewed the records, and **Yes, there are** environmental liens. Explain:
-

2. Did a search of *recorded land title records* (or judicial records, where appropriate) identify any activity and land use limitations (AULs), such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state or local law?

Please checkmark the most appropriate response:

- ☐ I *have not* reviewed the records and **do not know** if there are any filed/recorded AULs or any AULs in place at the site.
- ☒ I *have* reviewed the records, and **No, there aren't any** filed/recorded AULs or any AULs in place at the site.
- ☐ I *have* reviewed the records, and **Yes, there are** AULs filed, recorded, and/or in place at the site. Explain:
-

User Questionnaire

Rincon Project 18-06895

Site Name and Full Address: Escalante Meadows, Guadalupe, Santa Barbara County, CA

3. Does the Title Report provide any information pertaining to environmental cleanup liens or activity and use limitations (AULs) for the subject property?

Please checkmark the most appropriate response:

- ☐ I *have not* reviewed the Title Report and **do not know** if it provides environmental cleanup liens or AULs information.
- ☒ I *have* reviewed the Title Report, and **No, it does not** provide environmental cleanup liens or AULs information.
- ☐ I *have* reviewed the Title Report, and **Yes, it does provide** environmental cleanup liens or AULs information. Explain:
-

4. Do you have any specialized knowledge or experience related to the *property* or nearby properties? For example, are you involved in the same line of business as the current or former *occupants* of the *property* or an *adjoining property* so that you would have specialized knowledge of the chemicals and processes used by this type of business?

Please checkmark the most appropriate response:

- ☒ **No**, I *do not* have any specialized knowledge and/or experience related to the property or nearby properties.
- ☐ **Yes**, I *do* have specialized knowledge and/or experience related to the property or nearby properties. Explain:
-

5. As the user of this ESA, based on your knowledge and experience related to the property, are you aware of any information pertaining to a reduction in value for the subject property relative to any known environmental issues?

Please checkmark the most appropriate response:

- ☒ **No**, I *do not* have any information about a reduction in property value relative to environmental issues.
- ☐ **Yes**, I *do* have information about a reduction in property value relative to environmental issues. Explain:
-

6. Does the purchase price being paid for this property reasonably reflect the fair market value of the property?

Please checkmark the most appropriate response:

- ☐ **Yes**, I *do* believe the purchase price being paid for this property reasonably reflects the fair market value of the property. Skip to question #7.
-

User Questionnaire

Rincon Project 18-06895

Site Name and Full Address: Escalante Meadows, Guadalupe, Santa Barbara County, CA

- ☐ **No**, I *do not* believe the purchase price being paid for this property reasonably reflects the fair market value of the property. Proceed to question #6a.

- a. **If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property? (40 CFR 312.29)**

Please checkmark the most appropriate response:

- ☐ **No**, I *have not* considered the idea that known or believed contamination at the site has caused the lower purchase price.
- ☐ **Yes**, I *have* considered the idea that known or believed contamination at the site has caused the lower purchase price. Explain.
-

7. **Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases? For example,**

- a. Do you know the past uses of the property?

- ☒ I *do not* know.
- ☐ I *do* know. Explain:
-

- b. Do you know of specific chemicals are present or once were present at the property?

- ☒ I *do not* know.
- ☐ I *do* know. Explain:
-

- c. Do you know of any spills or other chemical releases that have taken place at the property?

- ☒ I *do not* know.
- ☐ I *do* know. Explain:
-

- d. Do you know of any environmental cleanups have taken place at the property?

- ☒ I *do not* know.
- ☐ I *do* know. Explain:
-

User Questionnaire

Rincon Project 18-06895

Site Name and Full Address: Escalante Meadows, Guadalupe, Santa Barbara County, CA

8. Based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of releases at the property?

Please checkmark the most appropriate response:

- ☒ **No**, I do not know and/or do not have any experience with any obvious indicators that point to the presence or likely presence of contamination at the property.
- ☐ **Yes**, I do know of and/or do have experience with obvious indicators that point to the presence or likely presence of contamination at the property. Explain:
-

9. Are you aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products, in, on, or from the site?

- ☒ **No**, I am not aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products, in, on, or from the site.
- ☐ **Yes**, I am aware of pending, threatened, or past litigation relevant to hazardous substances or petroleum products, in, on, or from the site. Explain:
-

10. Are you aware of any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the site?

- ☒ **No**, I am not aware of any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the site.
- ☐ **Yes**, I am aware of pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum products in, on, or from the site. Explain:
-

11. Are you aware of any notice from any government entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products?

- ☒ **No**, I am not aware of any notice from any government entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products.
- ☐ **Yes**, I am aware of a notice, or notices, from a government entity (or multiple government entities) regarding a possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products. Explain:
-

3e	Previous Use of Eastern Adjoining Properties <i>(please check all that apply)</i> <input type="checkbox"/> Commercial (retail, offices, etc.) <input type="checkbox"/> Residential (single family or apartments) <input type="checkbox"/> Industrial (manufacturing, warehousing, processing) <input type="checkbox"/> Other- Please Describe	<i>(please include a brief description of previous operations)</i> unknown

4)	Who is the current owner of the property?	The Housing Authority of the County of Santa Barbara
-----------	--	--

5)	When did current ownership begin?	Phase 1-Approx 1950, Phase 2&3-Approx 1956
-----------	--	--

Property Owner Interview QuestionnaireRincon Project **18-06895****Site Name and Full Address:** Escalante Meadows, Guadalupe, Santa Barbara County, California

6)	What is the age of the on-site facility?	Phase 1-Built approx 1950-51; Phase 2-Built Approx 1957; Phase 3- Built Approx 1966
----	---	---

7)	Who is the previous owner of the property?	Believed to be Gularte Property, but cannot confirm specific owner.
----	---	---

8)	Please indicate the property's current	
	electrical service provider -	PG & E
	water service provider -	City of Guadalupe
	natural gas service provider -	Southern California Gas
	sewer service provider -	City of Guadalupe
	solid waste hauler -	Unknown

9)	To the best of your knowledge, has your facility previously or does your facility currently store or use any of the following in individual containers larger than 5 gallons in volume or 50 gallons in the aggregate? (if Yes or Unknown, include how many, type, and size)	
	<input type="checkbox"/> Damaged or discarded automotive or industrial batteries	none to my knowledge
	<input type="checkbox"/> Paints	none to my knowledge
	<input type="checkbox"/> Oils or solvents	none to my knowledge
	<input type="checkbox"/> Motor vehicle fuel	none to my knowledge
	<input type="checkbox"/> Pesticides or herbicides	none to my knowledge
	<input type="checkbox"/> Other chemicals or hazardous substances	none to my knowledge

10)	Please indicate any wastes generated at the facility.		
	Hazardous waste:	Quantity:	Disposal Method:

Property Owner Interview Questionnaire

Rincon Project **18-06895**

Site Name and Full Address: Escalante Meadows, Guadalupe, Santa Barbara County, California

11)	Are there currently or to the best of your knowledge have there been previously, any industrial drums (typically 55 gallon) or sacks of chemicals located on the property or at the facility?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input type="checkbox"/> No	With a broad subject such as "sacks of chemicals" and using the word "previously" we cannot confirm; however there are none "currently".
	<input checked="" type="checkbox"/> Unknown	
12)	Are there currently or to the best of your knowledge have there been previously, any evidence of fill dirt having been brought onto the property that originated from a contaminated site or that is of an unknown origin?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	No evidence, but cannot confirm
	<input type="checkbox"/> Unknown	
13)	Are there currently or to the best of your knowledge have there been previously, any pits, ponds or lagoons located on the property in connection with waste treatment or waste disposal?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	No evidence, but cannot confirm
	<input type="checkbox"/> Unknown	
14)	Are there currently or to the best of your knowledge have there been previously, any sumps, clarifiers, or solvent degreasers on the property?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	No evidence, but cannot confirm
	<input type="checkbox"/> Unknown	
15)	Are there currently or to the best of your knowledge have there been previously, any stained soil on the property?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	No evidence, but cannot confirm
	<input type="checkbox"/> Unknown	
16)	Are there currently or to the best of your knowledge have there been previously, any storage tanks (above or below ground) located on the property?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	No evidence, but cannot confirm
	<input type="checkbox"/> Unknown	

Property Owner Interview QuestionnaireRincon Project **18-06895****Site Name and Full Address:** Escalante Meadows, Guadalupe, Santa Barbara County, California

17)	Are there currently or to the best of your knowledge have there been previously, any vent pipes, fill pipes, or access ways (etc.) indicating a fill pipe protruding from the ground on the property or adjacent to any structure located on the property?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	No evidence, but cannot confirm
	<input type="checkbox"/> Unknown	
18)	If the property is served by a private well or non-public water system, have contaminants been identified in the well or system that exceed guidelines applicable to the water system or has the well been designated as contaminated by any government agency?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input type="checkbox"/> No	Served by public system
	<input type="checkbox"/> Unknown	
19)	Are there currently or to the best of your knowledge have there been previously, any flooring, drains, or walls located within the facility that are stained by substances other than water, or are emitting foul odors?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	No evidence, but cannot confirm
	<input type="checkbox"/> Unknown	
20)	To the best of your knowledge has your facility previously or does your facility currently, discharge wastewater on or adjacent to the property other than storm water into a sanitary sewer system?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	No evidence, but cannot confirm
	<input type="checkbox"/> Unknown	
21)	Have any of the following ever been dumped above grade, buried and/or burned on the property? (please check all that apply and describe if possible)	
	<input type="checkbox"/> Hazardous substances	
	<input type="checkbox"/> Petroleum products	
	<input type="checkbox"/> Unidentified waste materials	
	<input checked="" type="checkbox"/> Tires	As reported by maintenance staff- Removed and sent to landfill
	<input type="checkbox"/> Automotive or industrial batteries	
	<input checked="" type="checkbox"/> Other waste materials (please describe)	Litter-As reported by maintenance staff- Removed and sent to landfill

Site Name and Full Address: Escalante Meadows, Guadalupe, Santa Barbara County, California

22)	Are there currently or to the best of your knowledge have there been previously, a transformer, capacitor or any hydraulic equipment on the property?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	No evidence, but cannot confirm
	<input type="checkbox"/> Unknown	
23)	Are there currently or to the best of your knowledge have there been previously any records indicating the presence of PCBs?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	No evidence, but cannot confirm
	<input type="checkbox"/> Unknown	
24)	Are there currently or to the best of your knowledge have there been previously any records indicating the presence of pesticides or herbicides?	
	<input checked="" type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input type="checkbox"/> No	Our policy is to use licensed contractors who use pesticides and herbicides in a residential context. There are no records from the past regarding these substances.
	<input type="checkbox"/> Unknown	
25)	Do you have any knowledge of environmental liens that may have been recorded against the property or governmental notification relating to past or recurrent violations of environmental laws with respect to the property or any facility located on the property?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	Nothing is indicated on the Preliminary Title Search, as well
	<input type="checkbox"/> Unknown	
26)	Do you have any knowledge of activity and use limitations (AULs) such as engineering controls, deed restrictions, land use restrictions, or institutional controls that may have been recorded against the property?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	Nothing is indicated on the Preliminary Title Search, as well
	<input type="checkbox"/> Unknown	
27)	Have you been informed of the past or current existence of hazardous substances, petroleum products, or environmental violations with respect to the property or any facility located on the property?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	
	<input type="checkbox"/> Unknown	

Property Owner Interview QuestionnaireRincon Project **18-06895****Site Name and Full Address:** Escalante Meadows, Guadalupe, Santa Barbara County, California

28)	Do you have any knowledge of any environmental site assessments of the property or facility?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	
	<input type="checkbox"/> Unknown	

29)	Do you know of any past, threatened, or pending lawsuits or administrative proceedings concerning a release of any hazardous substances or petroleum products involving the property by any owner or occupant of the property?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	
	<input type="checkbox"/> Unknown	

30)	Are there any site-specific geotechnical or geologic reports available for the subject property?	
	<input type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i>
	<input checked="" type="checkbox"/> No	
	<input type="checkbox"/> Unknown	

31)	Is there a Title Report available for the subject property?	
	<input checked="" type="checkbox"/> Yes	<i>If Yes or Unknown, please describe</i> Prepared by First American
	<input type="checkbox"/> No	
	<input type="checkbox"/> Unknown

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

EXECUTIVE SUMMARY

STANDARD ENVIRONMENTAL RECORDS

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 10/29/2018 has revealed that there are 3 ENVIROSTOR sites within approximately 1 mile of the target property.

State and tribal landfill and/or solid waste disposal site lists

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

A review of the SWF/LF list, as provided by EDR, has revealed that there is 1 SWF/LF site within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

State and tribal leaking storage tank lists

LUST: Leaking Underground Storage Tank (LUST) Sites included in GeoTracker. GeoTracker is the Water Boards data management system for sites that impact, or have the potential to impact, water quality in California, with emphasis on groundwater.

A review of the LUST list, as provided by EDR, has revealed that there are 15 LUST sites within approximately 0.5 miles of the target property.

EXECUTIVE SUMMARY

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: The EPA's listing of Brownfields properties from the Cleanups in My Community program, which provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

A review of the US BROWNFIELDS list, as provided by EDR, and dated 09/18/2018 has revealed that there is 1 US BROWNFIELDS site within approximately 0.5 miles of the target property.

<u>Lower Elevation</u>	<u>Address</u>	<u>Direction / Distance</u>	<u>Map ID</u>	<u>Page</u>

Other Ascertainable Records

CUPA Listings: A listing of sites included in the county's Certified Unified Program Agency database. California's Secretary for Environmental Protection established the unified hazardous materials and hazardous waste regulatory program as required by chapter 6.11 of the California Health and Safety Code. The Unified Program consolidates the administration, permits, inspections, and enforcement activities.

A review of the CUPA Listings list, as provided by EDR, has revealed that there are 5 CUPA Listings sites within approximately 0.25 miles of the target property.

HAZNET: The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000-1,000,000 annually, representing approximately 350,000-500,000 shipments. Data from non-California manifests & continuation sheets are not included at the present time. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, & disposal method. The source is the Department of Toxic Substance Control is the agency. This database begins with calendar year 1993.

A review of the HAZNET list, as provided by EDR, and dated 12/31/2017 has revealed that there are 4 HAZNET sites within approximately 0.001 miles of the target property.

Site History: The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by EHS. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. Please refer to the site-specific documentation submitted to the SWRCB's GeoTracker database for additional information. Complete EHS/FPD file has been uploaded to GeoTracker - Hard copies no longer exist in EHS/FPD files.

provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Longitude: -120.572582909
Status: Open - Remediation
Status Date: 06/12/2014
Case Worker: ESN
RB Case Number: 807
Local Agency: SANTA BARBARA COUNTY LOP
File Location: All Files are on GeoTracker or in the Local Agency Database
Local Case Number: 52010
Potential Media Affect: Aquifer used for drinking water supply, Soil, Soil Vapor
Potential Contaminants of Concern: Kerosene, Gasoline
Site History: The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by FPD. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. Please refer to the site-specific documentation submitted to the SWRCB's GeoTracker database for additional information. COMPLETE LOP FILE HAS BEEN UPLOADED TO GEOTRACKER WEBSITE - HARD COPIES NO LONGER EXIST IN LOP FILES

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly known as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

DEED: Deed Restriction Listing

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

CERS: CalEPA Regulated Site Portal Data

The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

UTM Y (Meters):	3872124.8
Elevation:	88 ft. above sea level

USGS TOPOGRAPHIC MAP

Target Property Map:	5603130 GUADALUPE, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General WNW

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

FEMA FLOOD ZONE

<u>Flood Plain Panel at Target Property</u>	<u>FEMA Source Type</u>
06079C1880F	FEMA FIRM Flood data
<u>Additional Panels in search area:</u>	<u>FEMA Source Type</u>
06079C1885F	FEMA FIRM Flood data

NATIONAL WETLAND INVENTORY

<u>NWI Quad at Target Property</u>	<u>NWI Electronic Data Coverage</u>
GUADALUPE	YES - refer to the Overview Map and Detail Map

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

<u>MAP ID</u>	<u>LOCATION FROM TP</u>	<u>GENERAL DIRECTION GROUNDWATER FLOW</u>
Not Reported		

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Salinas

Soil Surface Texture: loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	20 inches	loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 4 Min: 1.4	Max: 8.4 Min: 7.9
2	20 inches	70 inches	silty clay loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), Lean Clay	Max: 4 Min: 1.4	Max: 8.4 Min: 7.9

Soil Map ID: 2

Soil Component Name: Riverwash

Soil Surface Texture: sand

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high water table, or are shallow to an impervious layer.

Soil Drainage Class: Excessively drained

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Hydric Status: Partially hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 31 inches

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	5 inches	sand	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: Min:
2	5 inches	59 inches	sr to coarse sand to sandy loam	Granular materials (35 pct. or less passing No. 200), Stone Fragments, Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: Min:

Soil Map ID: 3

Soil Component Name: Marina

Soil Surface Texture: sand

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	27 inches	sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 6.5 Min: 5.1
2	27 inches	50 inches	sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 6.5 Min: 5.1
3	50 inches	88 inches	sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 6.5 Min: 5.1

Soil Map ID: 4

Soil Component Name: Sorrento

Soil Surface Texture: sandy loam

Hydrologic Group: Class B - Moderate infiltration rates. Deep and moderately deep, moderately well and well drained soils with moderately coarse textures.

Soil Drainage Class: Well drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: High

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

Soil Layer Information							
Layer	Boundary		Soil Texture Class	Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
	Upper	Lower		AASHTO Group	Unified Soil		
1	0 inches	25 inches	sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 8.4 Min: 7.9
2	25 inches	59 inches	sr to loam to sandy loam	Silt-Clay Materials (more than 35 pct. passing No. 200), Silty Soils.	FINE-GRAINED SOILS, Silts and Clays (liquid limit less than 50%), silt.	Max: 14 Min: 4	Max: 8.4 Min: 7.9

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map

Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.

Source: FEMA

Telephone: 877-336-2627

Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory

Source: Department of Fish and Wildlife

Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^R Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database

Source: Department of Public Health

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations

Source: Department of Conservation

Telephone: 916-323-1779

Oil and Gas well locations in the state.

California Earthquake Fault Lines

Source: California Division of Mines and Geology

The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon

Source: Department of Public Health

Telephone: 916-210-8558

Radon Database for California

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

EPA Radon Zones

Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRRA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by Rincon were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDR's Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

Disclaimer - Copyright and Trademark Notice

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. **NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OR DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT.** Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Report is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Report includes a search of available city directory data at 5 year intervals.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.
