Present Land Use/Zoning/General Plan Designation:

AG-80 and OS

Project Description: (please use a separate page if necessary)

The proposed project consists of retrofitting maintenance structures at three separate pumping plants along the East Levee of the Sutter Bypass in Sutter County. Construction work would occur in two phases. Proposed project activities include: Geotechnical investigations to support the final design (preconstruction), Demolition of the abandoned control buildings at Pumping Plant Nos. 1 and 2 to allow access to the gravity drainpipe inlets (Phase 1), Extension of the gravity pipes, replacement of the damaged trash rack systems of the gravity, drain pipes, weir/stop log structures, and an automated screw gate system at all three pumping plants (Phase 1), Levee reconstruction and partial filling of the old sump basin at Pumping Plant No. 3 (Phase 1) and construction of new weir/stop log structures at the inlet of each pumping plant to enable future inspection and maintenance of the pumping plant trash racks and inlet basins (Phase 2).

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X". If you have already sent your document to the agency please denote that with an "S".
