**Present Land Use/Zoning/General Plan Designation:**

Low-Density Residential, Agricultural Cropland

**Project Description:** (please use a separate page if necessary)

The Project involves construction of a new drinking water transmission pipeline from the Locke community to the Walnut Grove community. The pipeline would be approximately 4,150 feet in length and would extend from the Sacramento County Water Agency yard in Walnut Grove to a connection point in the Locke Water Works Company distribution system. A pump station will be installed at the Locke Water Works Company connection point. The existing Locke Water Works Company distribution system would continue to be used and the old well would be disconnected from the potable water system.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".  
If you have already sent your document to the agency please denote that with an "S".
