Project Title: Pismo State Beach – Oceano Campground and Maintenance Yard Sewer System

Project Location – Specific: Pismo State Beach

Project Location – City: Oceano

Project Location – County: San Luis Obispo

Description of Nature, Purpose, and Beneficiaries of Project:

This purpose of the project will be to protect ground and surface water from potential contamination. The spot repairs will accomplish a considerable improvement in system performance and limit system discharge into the surrounding environment. With the removal of blockages, it will help reduce buildup of debris in the bottom of the pipe and accumulation of materials on the pipe walls by allowing for an increased flow through the mainline. The manhole rehabilitation will likely improve overall system integrity and reduce exfiltration of system contents into the surrounding environment. Installation of new manhole drop inlets will reduce erosion to the manhole benches and walls, and prolong the life of lining materials. Additional information of the repairs to the sewer line are available through the Contact Person.

Name of Public Agency Approving Project: California Department of Parks and Recreation, Off-Highway Motor Vehicle Recreation Division

Name of Person or Agency Carrying Out Project: Oceano Dunes District

Exempt Status: Categorical Exemptions 15301 – Repairs to existing facilities not expanding existing use.

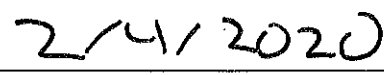

Reasons why project is exempt: The project is exempt because it falls within the CE class listed above. Project activities described above do not have the potential for causing a significant adverse effect on the environment.
