Present Land Use: Athletic fields. Zoning: Residential, single-family, 6,000 square feet (RS-6). General Plan Designation: Junior High School (JH).

Project Description: (please use a separate page if necessary)

Designet Incruse Discussed in Desument

The District intends to install field lighting at its athletic fields at Montgomery Middle School. No field lighting is currently installed. The recreational fields are located directly east of the school building, west of the tennis courts, and north of the school parking lot and Granite Hills Drive. Up to 32 light emitting diode (LED) fixtures would be installed atop six (6) new steel poles (70 feet high), erected on the east and west side of the recreation fields. Figure 1, Site Plan, indicates the proposed locations of field light installation.

Construction activities would include trenching to extend electrical to light pole locations, excavation at pole locations, installation of pre-cast concrete bases with integrated grounding at pole locations, assembly of luminaires and installation of luminaires on poles, and installation of poles on pre-cast concrete bases with the use of a boom lift. Construction of the project would take approximately two months to complete (two months is a conservative estimate, and activities would likely require a shorter timeframe to complete). Construction activities are anticipated to occur Monday through Friday, 7:00 a.m. to 3:30 p.m. Equipment to be used during construction would include a trencher, small excavator, small truck, drill rig, boom lift, and small crane. Hand tools would also be used during assembly of luminaires and installation of luminaires on poles.

Once installed, new lighting would facilitate nighttime use of the athletic fields. Nighttime use of fields would occur 7 days per week, and hours of operation would be until 8:30 p.m. Fields would be used by local sports leagues (use of the fields after school hours is primarily by youth soccer leagues) that would be required to receive a facilities use permit from the District. Lights would be turned on at night for organizations that have an approved facilities use permit and approved activities/field use would be required to end at 8:30 p.m. District-controlled timers would be installed and programmed to shut off the lights at 8:45 p.m. daily.
