Notice of Intent to Adopt a Negative Declaration for Replacement Dedicated-Purpose Pool Pump Motors and Dedicated-Purpose Pool Pumps Appliance Efficiency Rulemaking

Docket No. 19-AAER-02

Project Description and Location

The California Energy Commission (CEC) is proposing statewide regulations to incorporate efficiency standards for replacement dedicated-purpose pool pump motors (RDPPPM). These products are not covered by federal appliance efficiency standards. The required new efficiency standards apply to newly manufactured products sold or offered for sale in California. CEC is also proposing to incorporate existing Federal Appliance Efficiency regulations into California regulation for dedicated-purpose pool pumps (DPPP).

The proposed regulations apply to RDPPPM and DPPP, manufactured on or after July 19, 2021. These requirements are motor capability standards for RDPPPM and pump capability standard for DPPP and do not mandate any particular technology or component. Manufacturers will need to meet minimum motor efficiency standards and prescriptive motor speed control requirements.

Address at which the Proposed Negative Declaration and All Documents Referenced Therein May be Viewed

The Proposed Negative Declaration and Initial Study, as well as all documents referenced therein, for the RDPPPM motors and DPPP appliance efficiency rulemaking are available from the [CEC's website](http://www.energy.ca.gov) at <https://efiling.energy.ca.gov/Lists/DocketLog.aspx?docketnumber=19-AAER-02>. The documents may also be viewed in person at the CEC at 1516 Ninth Street, Sacramento, California, 95814.

The CEC will accept written comments on the proposed negative declaration beginning on March 6, 2020 and ending on **April 6, 2020**. The CEC will hold a public hearing on the proposed project at the following date, time, and location. *The record for this hearing will be kept open until every person has had an opportunity to provide comment. A person may provide comment in person, online or by phone.*
