

# Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Mistletoe Elementary School ProjectLead Agency: Enterprise Elementary School DistrictContact Name: Brian Winstead, SuperintendentEmail: bwinstead@eesd.net Phone Number: (530) 224-4100Project Location: 1225 Mistletoe Lane and 1186 and 1220 Del Monte Street, Redding, Shasta County  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

The Proposed Project is for the construction of a gymnasium, operations and maintenance building, an athletic field, bus parking area and a new drive aisle between the existing Mistletoe Elementary School driveway and Del Monte Street (which are currently not connected). This new drive aisle will allow for better site circulation during drop-off and pick-up times for the school students. The Project site is approximately 5 acres in size and is located at 1225 Mistletoe Lane and 1186 and 1220 Del Monte Street, Redding (APNs 067-350-038, 067-120-038, and 067-120-040).

Environmental consequences are explained below.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

## 1. Aesthetics:

The Project could cause light glare due to use of reflective surfaces for the Project. AES-1 would mitigate impacts due to glare to be less than significant.

## 2. Biological Resources:

The project may significantly impact special-status plant species, special-status and Migratory Bird Treaty Act-protected birds, special-status mammals (pallid bat and western red bat), an intermittent drainage and riparian vegetation, and 0.565 acre of potential Waters of the U.S. Mitigation measures BIO-1, BIO-2, BIO-3, BIO-4, and BIO-5 would reduce these potentially significant impacts to be less than significant.

## 3. Cultural & Tribal Cultural Resources:

- Discovery of cultural or human resources is possible during construction. CUL-1 would reduce this potential impact to be less than significant.

## 4. Geology & Soils:

- The Project has potential to impact paleontological or other geologically sensitive resources during construction. GEO-1 would mitigate this impact to be less than significant.

## 5. Hazardous Materials:

- The site must undergo a PEA to determine presence of HazMat. HAZ-1 will mitigate the potential impact.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy exist for the Proposed Project.

Provide a list of the responsible or trustee agencies for the project.

- Caltrans, District 2
- Fish and Game, Region 1
- Department of Education
- Regional Water Quality Control Board, District 5
