**Notice of Intent to Adopt  
Draft Mitigated Negative Declaration  
For the  
East Bluffs Stabilization Project**

Pursuant to the California Environmental Quality Act the University of California (UC) Santa Barbara has prepared an Initial Study/Mitigated Negative Declaration (IS/MND) for the proposed East Bluffs Stabilization Project.

To address significant bluff erosion adjacent to Lagoon Road and across from Anacapa Hall, the Santa Barbara campus proposes to construct a structural tie-back wall recessed into the face of an existing bluff on the east side of the campus. The project entails drilling a series of slightly angled holes into the bluff face to provide anchors for a framework which will support an approximately 50x50' shotcrete wall on the surface of the bluff in order to slow the erosion of the bluff and protect Lagoon Rd. and the vital infrastructure underneath it.

The East Bluffs Stabilization Project IS/MND is available for public review at <https://www.facilities.ucsb.edu/departments/campus-planning-design/current-projects> under Current Projects, Main Campus, or upon request at the UC Santa Barbara Office of Campus Planning and Design. The document is also available at the UC Santa Barbara Library-Government Information Center, Santa Barbara Public Library, and the Goleta Valley Public Library.

Public review and opportunity to comment on the content of the Project Draft IS/MND is provided during a 30-day period from Thursday March 5, 2020 through Monday April 6, 2020 by 5:00 pm. Email comments to [alissa.hummer@planning.ucsb.edu](mailto:alissa.hummer@planning.ucsb.edu) or send written comments postmarked no later than 5:00 pm April 6:
