Project Title: Zlatinov Water Diversion Project (Lake or Streambed Alteration Agreement No. 1600-2018-0325-R1)

Project Location: The project is located within the Van Duzen River watershed, approximately 2.35 miles west, southwest of the town of Dinsmore, County of Humboldt, State of California. The project is located in Section 7&8, T01N, R05E, Humboldt Base and Meridian; in the Larabee Valley U.S. Geological Survey 7.5-minute quadrangle; Assessor's Parcel Nos: 210-191-013; latitude/longitude: 40.4803, -123.6490 at the point of diversion (POD).

Project Description: The project is limited to one encroachment (Table 1) for water diversion from a spring that is tributary to the Van Duzen River. Work for the water diversion will include use and maintenance of the water diversion infrastructure. A water impoundment exists at Lat./Long: 40.4803, -123.6495. This feature will be evaluated by CDFW at a future site inspection, and if work is deemed necessary, it may be necessary to notify through a major Amendment or new Notification. The Notification also discloses the use of a well located at Lat/Long 40.4805, -123.6506. CDFW did not evaluate hydraulic connection of the well to surface water, nor was a hydrogeologic evaluation prepared by a licensed geologist provided for CDFW review. No other projects that may be subject to FGC1602 were disclosed. This Agreement does not retroactively permit any stream crossings, water diversions or other encroachments not described in Table 1 below.

Table 1. Project Encroachments with Description

ID	Latitude/Longitude	Description
Point of Diversion	40.4803, -123.6490	During the diversion season, Permittee shall bypass 80% of stream flow. Rate of diversion shall be no more than 3 gallons per minute. Permittee shall implement seasonal diversion minimization and limit total daily diversion to 200 gallons per day from May 15 – October 31.

Public Agency Approving Project: CALIFORNIA DEPARTMENT OF FISH AND WILDLIFE

Person or Public Agency Carrying Out Project: Nasko Zlatinov

Exempt Status:

- Categorical Exemption. Type – Class 1; California Code of Regulations, title 14, section 15301.
Existing Facilities

Reasons why project is exempt: The project operates existing water diversion infrastructure for domestic use, and limits overall diversion. There would be no significant adverse impact on endangered, rare or threatened species or their habitat pursuant to section 15065. There are no hazardous materials at or around the project site that may be disturbed or removed. The project would not constitute an expansion of use.
