Client Information:
REDA Acquisitions and Clarion Partners Acquisitions, LLC
4100 MacArthur Boulevard, Suite 120
Newport Beach, California 92660
Telephone: (949) 954-3087

Reconnaissance Date: August 19 and 21, 2019
Site Assessor: Victoria Rojo
Senior Reviewer: Gwen Reed
Environmental Professional: Victoria Rojo

We declare that, to the best of our professional knowledge and belief, we meet the definition of Environmental Professional as defined in § 312.10 part of 40 CFR 312. We have the specific qualifications based on education, training and experience to assess a property of the nature, history and setting of the subject property. We have developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

Victoria Rojo, Senior Scientist
Site Assessor / Environmental Professional

Gwen C. Reed

Gwen Reed, Program Manager
Senior Reviewer / Environmental Professional

1.2 Findings and Conclusions Summary

ATC Group Services LLC (ATC) has performed this Phase I Environmental Site Assessment (ESA) of the property in conformance with the scope and limitations of American Society for Testing and Materials (ASTM) Standard Practice E1527-13. Any exceptions to, or deletions from, this practice are described in Section 2.0 of this report. This assessment has revealed no evidence of *recognized environmental conditions* in connection with the property. The table below provides a summary of report findings and conclusions.

FINDINGS AND CONCLUSIONS SUMMARY							
Report Section		**Further Action?**	**De minimis Condition**	**REC and/or CREC**	**Historical REC**	**ASTM Non-Scope Condition**	**Description**
4.0	**User Provided Information**	No					
5.1.1	**Federal Database Findings**	No					
5.1.2	**State and Tribal Database Findings**	No					
5.1.3	**Local Environmental Record Sources**	**Yes**					See Note 1 below
5.3	**Historical Records Sources**	No					See Note 2 below
6.2	**Hazardous Substance Use, Storage and Disposal**	No	X				See Note 3 below
6.3	**Underground Storage Tanks**	No					
6.4	**Aboveground Storage Tanks**	No					
6.5	**Other Petroleum Products**	No					
6.6	**Polychlorinated Biphenyls (PCBs)**	No					
6.7	**Unidentified Substance Containers**	No					
6.8	**Nonhazardous Solid Waste**	No					
6.9	**Wastewater**	No					
6.10	**Waste Pits, Ponds and Lagoons**	No					
6.11	**Sumps**	No					
6.12	**Septic Systems**	**Yes**					See Note 1 below
6.13	**Stormwater Management System**	No					
6.14	**Wells**	No					See Note 4 below
7.0	**Subsurface Vapor Migration**	No					See Note 5 below
8.0	**Interviews**	No					
9.1	**Asbestos-Containing Material (ACM)**	**Yes**					See Note 6 below
9.2	**Radon**	No					
9.3	**Lead in Drinking Water**	No					

FINDINGS AND CONCLUSIONS SUMMARY							
Report Section		Further Action?	De minimis Condition	REC and/or CREC	Historical REC	ASTM Non-Scope Condition	Description
9.4	**Lead-Based Paint (LBP)**	**Yes**					See Note 7 below
9.5	**Mold Screening**	No					
9.6	**Additional User Requested Services**	No					

Note 1: ATC did not observe evidence of a septic system in, on or at the property. However, documentary evidence was found in building permit records, which indicated that private sewage disposal systems were abandoned and connected to the sewer at five addresses in 2010. Given the former rural setting, other buildings located on the property may have utilized septic systems.

Note 2: The review of aerial photographs identified agricultural land on the property and surrounding areas. Portions of the property were used for agricultural purposes from least 1938 and ceased by 1967 (per aerial photographs) suggesting the possible presence of environmentally persistent pesticides and herbicides on the property. Except in areas where activities such as storage or mixing of pesticides has resulted in higher soil concentrations, the former application of pesticides for agricultural purposes generally does not require a remedial response in most jurisdictions and is not considered to represent a *recognized environmental condition.*

Note 3: Evidence of maintenance activities was observed at 11259 Juniper Avenue, which is currently occupied by a residence and Mendoza Paving, but are reportedly no longer conducted onsite. However, it appears that some sort of repair work takes place under an awning-covered area. Containers of hydraulic and motor oil, gas cans, compressed gas cylinders of acetylene and oxygen, propane, oils spot primer, and miscellaneous parts and equipment were observed. Heavy equipment and small piles of soil and asphalt debris were also observed in the storage yard. Minor staining was observed under the awning-covered area and on the surface of the storage yard, which consists of both paved and unpaved surfaces. This staining is considered a *de minimis* condition, based on observed condition (localized, size, or located on pavement in good condition). Heavy dark staining was observed within a curbed containment area, which stores a large 250-gallon tote and buckets of hydraulic oil. The staining appeared to be contained and the concrete in good condition; therefore, this staining is also considered a *de minimis* condition.

Liquid fertilizer is utilized at 16820 Jurupa Avenue, which is currently occupied by Delta Nursery. Approximately 15 one-quart plastic bottles of empty liquid fertilizer and one trash receptacle used to dilute the fertilizer with water was observed. No signs of a release or spill were observed. Oil changes are conducted in a shed-type structure and take place on bare soil. Associated maintenance fluids were stored in the shed. Housekeeping was poor and some small localized staining was observed on the soil. The staining was approximately one square-foot in size and is considered a *de minimis* condition.

Note 4: ATC did not observe evidence of wells in, on or at the property. However, based on the historical use as generally rural residential, the potential for past or present water wells on-site exists. The possible presence of wells is not considered to represent an environmental concern.

Note 5: ATC reviewed potential sources of COCs from the facilities reported on the EDR database report. The following properties were identified as potential concerns:

Chevron (11285 Sierra Avenue) - located approximately 465 feet east of the property, beyond Sierra Avenue. This site is located cross to upgradient of the property. A customer reportedly had a hole in their gas tank, which resulted in the release of gasoline to the concrete and approximately one gallon to a nearby drain. The release was contained and cleaned up by Clean Harbors, which vacuumed the product from the drain. No other releases were identified for this site.

Palm Cleaners/Spiffy Dry Cleaners Inc. (11251 Sierra Avenue, #2A) - located approximately 875 feet east of the property, beyond Sierra Avenue. This site is located cross to upgradient of the property and is identified as a dry cleaning and laundry service facility that utilizes petroleum solvent dry cleaning equipment. No violations or releases were reported for this facility.

Based on distance, depth to groundwater (in excess of 200 feet below ground surface), the crossgradient component of the location of these sites relative to the property, and the lack of reported releases or violations, none of the sites identified in the AOC are considered to represent a VEC or a REC.

Note 6: ATC conducted a non-comprehensive visual review of suspect ACMs at the property. Suspect ACMs observed at the property included roofing materials and stucco. Suspect ACM in the interiors of the property buildings included wallboard and ceramic tile and were observed to be in good condition. Based on the age of the property improvements (some residences were constructed as early as 1953, per the aerial photographs), it is possible that ACMs are present.

Note 7: Suspect LBP was observed on the property at the time of the site visit. Based on the age of the property improvements (some residences were constructed as early as 1953, per the aerial photographs), it is possible that LBP is present.

Data gaps may have been encountered during the performance of this Phase I ESA and are discussed within the section of the report where they were encountered. However, according to ASTM Standard Practice E1527-13, data gaps are only significant if "other information and/or professional experience raise reasonable concerns involving the data gap." The following is a summary of *significant data gaps* identified in this report.

Site access was limited to properties operating businesses and the following addresses: 11259 Juniper Avenue (Mendoza Paving), 16716 Jurupa Avenue (residence), 16798 Jurupa Avenue (former horse stables), and 16820 Jurupa Avenue (Delta Nursery). The remaining properties were observed from the fence lines along Juniper and Jurupa Avenues. Commercial business were reportedly limited to the properties accessed by ATC. However, it is possible that chemical storage is also present in other areas that were not accessed. The access limitations encountered on the day of the site visit are considered significant given that areas of possible contamination may not have been identified.

SIGNIFICANT DATA GAP SUMMARY		
Report Section		**Description**
3.5	**Current Uses of Adjoining Properties**	No *significant data gap* identified.
4.2	**Environmental Liens or Activity and Use Limitations (AULs)**	No *significant data gap* identified.
5.1	**Standard Environmental Records**	No *significant data gap* identified.
5.2	**Physical Setting Sources**	No *significant data gap* identified.
5.3	**Historical Records Sources**	No *significant data gap* identified.
6.1	**Methodology and Limiting Conditions**	The access limitations encountered on the day of the site visit are considered significant given that areas of possible contamination may not have been identified.
7.0	**Interviews**	No *significant data gap* identified.

1.4 Recommendations

Based on information collected from the Phase I ESA, ATC offers the following recommendations for further action:

- If stained or odorous soil is encountered during grading and excavation, it should be segregated and stockpiled for profiling and disposal, if necessary.
- Properly dispose of hazardous materials, if any, that are left behind by current occupants.
- ATC recommends conducting LBP and ACM surveys prior to redevelopment.
- If septic systems are discovered during future redevelopment of the property, they should be removed in accordance with applicable regulations.
- If water wells are discovered during future redevelopment of the property, they should be removed in accordance with applicable regulations.

2.0 INTRODUCTION

2.1 Purpose

The purpose of this Phase I ESA was to identify *recognized environmental conditions* in connection with the property at the time of the site reconnaissance. The scope of work for this Phase I ESA may also include certain potential environmental conditions beyond the scope of ASTM Standard Practice E1527-13 as listed below. This report documents the findings, opinions and conclusions of the Phase I ESA.

2.2 Scope

This Phase I ESA was conducted in general accordance with the ASTM Standard Practice E1527-13, consistent with a level of care and skill ordinarily practiced by the environmental consulting profession currently providing similar services under similar circumstances. Significant additions, deletions or exceptions to ASTM Standard Practice E1527-13 are noted below or in the corresponding sections of this report. The scope of this assessment included an evaluation of the following:

- Physical setting characteristics of the property through a review of referenced sources such as topographic maps and geologic, soils and hydrologic reports.

- Usage of the property, adjoining properties and surrounding area through a review of referenced historical sources such as land title records, fire insurance maps, city directories, aerial photographs, prior reports and interviews.

- Observations and interviews regarding current property usage and conditions including the use, treatment, storage, disposal or generation of hazardous substances, petroleum products, hazardous wastes, nonhazardous solid wastes and wastewater.

- Usage of adjoining and surrounding area properties and the likely impact of known or suspected releases of hazardous substances or petroleum products from those properties in, on or at the property.

- Information in referenced environmental agency databases and local environmental records, within the specified approximate minimum search distance from the property.

- Potential for subsurface vapor migration in, on or at the property as described in Section 7.0.

The scope of the assessment also included consideration of the following potential environmental issues or conditions that are beyond the scope of ASTM Standard Practice E1527-13:

- The scope of work for the Mold Screening was intended to be consistent with ASTM E 2418-06: Standard Guide for Readily Observable Mold and Conditions Conducive to Mold in Commercial Buildings: Baseline Survey Process. The scope of work, including potential deviations from the Standard Guide, is described as follows. The interview was limited to at least one knowledgeable person from property management or engineering staff. The document review was limited to only those relevant documents made readily available to ATC in a timely manner. The physical observations were limited to certain Heating, Ventilation and Air Conditioning (HVAC) system areas and other readily accessible building areas likely to become subject to water damage, plumbing leaks, and flooding. Unless noted otherwise herein, ATC observed the HVAC equipment room(s) and accessible mechanical rooms and, in buildings with package units in the ceiling, at least one unit per floor. In addition, unless noted otherwise, ATC observed accessible areas of the basement (or lowest level), the top floor, the roof (including any penthouse areas) and at least one mid-level floor (if applicable). For multi-story buildings, the total number of floors observed (inclusive of those already mentioned) was intended to be up to 10% of the total number of floors

(if readily accessible). For hotel and multi-family buildings, ATC targeted the lowest and highest levels and roof as described above and up to 10% of units, including one per floor if readily accessible. The Mold Screening did not include destructive methods of observation. No sampling or laboratory analyses were conducted. The Mold Screening service as described herein was limited in scope and by the time and cost considerations typically associated with performing a Phase I ESA. No method can guarantee that a hazard will be discovered if evidence of the hazard is not encountered within the performance of the Mold Screening as authorized and that opinions and conclusions must, out of necessity, be extrapolated from limited information and discrete, non-continuous data points. Unidentified mold or other microbial conditions may exist on the property.

- Visual observation of suspect asbestos-containing materials (ACM), consisting of providing an opinion on the condition of suspect ACM on the property based upon visual observation during the site reconnaissance. No sampling of suspect ACM was conducted.

- Radon document review, consisting of the review of published radon data with regard to the potential for elevated levels of radon gas in the surrounding area of the property. No radon sampling was conducted.

- Lead in drinking water data review, consisting of contacting the water supplier for information regarding whether or not the potable water provided to the property meets the drinking water standards for lead.

- Visual observation of suspect Lead-based paint (LBP), consisting of providing an opinion on the potential for suspect LBP based on the construction date of buildings on the property and visual observation of the condition of suspect LBP.

- Wetlands document review, consisting of a review of a current National Wetlands Inventory map of the surrounding area to note if the property is identified as having a wetland.

- Flood plain document review, consisting of a review of a reasonably ascertainable flood plain map of the surrounding area to note if the property is identified as being located within a flood plain.

- A Tier 1 Vapor Encroachment Screen (VES) in general accordance with ASTM Standard Practice E 2600-10: *Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions*.

- Regulatory Agency File and Records Review, consisting of conducting a file review (i.e., via Freedom of Information Act (FOIA) request or alternative method/source) for the property and/or one adjoining property at one regulatory agency, as warranted by the findings of the ESA.

2.3 Significant Assumption

The assumptions in this report were not considered as having significant impact on the determination of *recognized environmental conditions* associated with the property.

2.4 Limitations and Exceptions

ATC Group Services LLC has prepared this Phase I ESA report using reasonable efforts to identify *recognized environmental conditions* associated with hazardous substances or petroleum products in, on or at the property. Findings contained within this report are based on information collected from observations made on the day(s) of the site reconnaissance and from reasonably ascertainable information obtained from certain public agencies and other referenced sources.

The ASTM Standard Practice E1527-13 recognizes inherent limitations for Phase I ESAs, including, but not limited to:

- *Uncertainty Not Eliminated* – A Phase I ESA cannot completely eliminate uncertainty regarding the potential for *recognized environmental conditions* in connection with any property.

- *Not Exhaustive* – A Phase I ESA is not an exhaustive investigation of the property and environmental conditions on such property.

- *Past Uses of the Property* – Phase I requirements only require review of standard historical sources at five year intervals. Therefore, past uses of property at less than five-year intervals may not be discovered.

Users of this report may refer to ASTM Standard Practice E1527-13 for further information regarding these and other limitations. This report is not definitive and should not be assumed a complete and/or specific definition of all conditions above or below grade. Current subsurface conditions may differ from the conditions determined by surface observations, interviews and reviews of historical sources. The most reliable method of evaluating subsurface conditions is through intrusive techniques, which are beyond the scope of this report. Information in this report is not intended to be used as a construction document and should not be used for demolition, renovation, or other property construction purposes. Any use of this report by any party, beyond the scope and intent of the original parties, shall be at the sole risk and expense of such user.

ATC makes no representation or warranty that the past or current operations at the property are, or have been, in compliance with all applicable federal, state and local laws, regulations and codes. This report does not warrant against future operations or conditions, nor does it warrant against operations or conditions present of a type or at a location not investigated. Regardless of the findings stated in this report, ATC is not responsible for consequences or conditions arising from facts not fully disclosed to ATC during the assessment.

An independent data research company provided the government agency database referenced in this report. Information on surrounding area properties was requested for approximate minimum search distances and was assumed correct and complete unless obviously contradicted by ATC's observations or other credible referenced sources reviewed during the assessment. ATC shall not be liable for any such database firm's failure to make relevant files or documents properly available, to properly index files, or otherwise to fail to maintain or produce accurate or complete records.

ATC makes no warranty, guarantee or certification regarding the quality, accuracy or reliability of any prior report provided to ATC and discussed in this Phase I ESA report. ATC expressly disclaims any and all liability for any errors or omissions contained in any prior reports provided to ATC and discussed in this Phase I ESA report.

ATC used reasonable efforts to identify evidence of aboveground and underground storage tanks and ancillary equipment on the property during the assessment. "Reasonable efforts" were limited to observation of accessible areas, review of referenced public records and interviews. These reasonable efforts may not identify subsurface equipment or evidence hidden from view by things including, but not limited to, snow cover, paving, construction activities, stored materials and landscaping.

Any estimates of costs or quantities in this report are approximations for commercial real estate transaction due diligence purposes and are based on the findings, opinions and conclusions of this assessment, which are limited by the scope of the assessment, schedule demands, cost constraints, accessibility limitations and other factors associated with performing the Phase I ESA. Subsequent determinations of costs or quantities may vary from the estimates in this report. The estimated costs or quantities in this report are not intended to be used for financial disclosure related to the Financial

Accounting Standards Board (FASB) Statement No. 143, FASB Interpretation No. 47, Sarbanes/Oxley Act or any United States Securities and Exchange Commission reporting obligations, and may not be used for such purposes in any form without the express written permission of ATC.

ATC is not a professional title insurance or land surveyor firm and makes no guarantee, express or implied, that any land title records acquired or reviewed in this report, or any physical descriptions or depictions of the property in this report, represent a comprehensive definition or precise delineation of property ownership or boundaries.

The Environmental Professional Statement in Section 1.1 of this report does not "certify" the findings contained in this report and is not a legal opinion of such *Environmental Professional*. The statement is intended to document ATC's opinion that an individual meeting the qualifications of an Environmental Professional was involved in the performance of the assessment and that the activities performed by, or under the supervision of, the *Environmental Professional* were performed in conformance with the standards and practices set forth in 40 CFR Part 312 per the methodology in ASTM Standard Practice E1527-13 and the scope of work for this assessment.

Per ASTM Standard Practice E1527-13, Section 6, User Responsibilities, the User of this assessment has specific obligations for performing tasks during this assessment that will help identify the possibility of *recognized environmental conditions* in connection with the property. Failure by the User to fully comply with the requirements may affect their ability to use this report to help qualify for *Landowner Liability Protections* (LLPs) under Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). ATC makes no representations or warranties regarding a User's qualification for protection under any federal, state or local laws, rules or regulations.

In accordance with the ASTM Standard Practice E1527-13, this report is presumed to be valid for a six-month period. If the report is older than six months, the following information must be updated in order for the report to be valid: (1) regulatory review, (2) site visit, (3) interviews, (4) specialized knowledge and (5) environmental liens search. Reports older than one year may not meet the ASTM Standard PracticE1527-13 and therefore, the entire report must be updated to reflect current conditions and property-specific information.

Other limitations and exceptions that are specific to the scope of this report may be found in corresponding sections.

2.5 Special Terms and Conditions (User Reliance)

This report is for the use and benefit of, and may be relied upon by REDA Acquisitions and Clarion Partners Acquisitions, LLC and third parties authorized in writing by REDA Acquisitions and Clarion Partners Acquisitions, LLC and ATC, including the lender(s) in connection with a secured financing of the property, and their respective successors and assigns. Any third party agrees by accepting this report that any use or reliance on this report shall be limited by the exceptions and limitations in this report, and with the acknowledgment that actual site conditions may change with time, and that hidden conditions may exist at the property that were not discovered within the authorized scope of the assessment. Any use by or distribution of this report to third parties, without the express written consent of ATC, is at the sole risk and expense of such third party.

ATC makes no other representation to any third party except that it has used the degree of care and skill ordinarily exercised by environmental consultants in the preparation of the report and in the assembling of data and information related thereto. No other warranties are made to any third party, either express or implied. Unless otherwise agreed upon in writing by ATC and a third party, ATC's liability to any third party authorized to use or rely on this report with respect to any acts or omissions shall be limited to a total maximum amount of $100,000.

3.0 SITE DESCRIPTION

3.1 Location and Legal Description

The property consists of ten Assessor Parcel Numbers (APNs), approximately 30.51 acres in area (per client), and is located at the northeastern corner of Juniper Avenue and Jurupa Avenue, in Fontana, San Bernardino County, California 92337. The property is a mix of institutional, commercial, residential, and undeveloped land. Descriptions of the property, listed from north to south and west to east, are as follows:

PROPERTY DESCRIPTIONS		
Address	**APN**	**Occupant/description**
11011 Juniper Avenue	0255-101-14	Private resident/ residence, several outbuildings, and a storage yard
11055 Juniper Avenue	0255-101-21	Private resident/ residence, outbuildings, and a large yard
11097 Juniper Avenue	0255-101-20	Private resident/ residence and outbuildings
11145 Juniper Avenue	0255-101-12	Private resident/ residence and outbuildings, and a large undeveloped lot
11193 Juniper Avenue	0255-101-11	Private resident/ residence, outbuildings, and a large undeveloped lot (partially landscaped)
11219 Juniper Avenue	0255-111-22	Private resident/ residence and a large yard
11229 Juniper Avenue	0255-111-21	Private resident/ residence and a storage yard
11259 Juniper Avenue	0255-111-16	Private resident and a paving company (Mendoza Paving)/ residence, offices, covered maintenance and storage areas, and a yard used to park heavy equipment/trucks.
16716 Jurupa Avenue	0255-111-17	Private resident/ residence and vacant lot
16756 Jurupa Avenue	0255-111-18	Private resident/ residence and large vacant lot
16798 Jurupa Avenue	0255-111-19	Private resident and former horse stables/ residence, and former horse stable structures (north portion used by adjoining nursery).
16820 Jurupa Avenue	0255-111-25	Private resident and a nursery (Delta Nursery)/ residence, storage buildings, greenhouses, outbuildings, and open grounds

A Site Vicinity Map is located in Appendix A, a Site Plan is located in Appendix B and Site Photographs are provided in Appendix C.

3.2 Surrounding Area General Characteristics

The property is located in an area characterized by commercial, residential, and undeveloped uses. Surface topography across the property and in the surrounding area is sloped slightly towards the west-southwest. Specific adjacent property uses are discussed in Section 3.5.

3.3 Current Use of the Property

The property is a mix of commercial, institutional, residential, and undeveloped land.

3.4 Description of Property Improvements

The following table provides general descriptions of the property improvements.

PROPERTY IMPROVEMENTS	
Size of Property (approximate)	30.51 acres (per client)
General Topography of Property	Relatively flat
Adjoining and/or Access/Egress Roads	Juniper Avenue to the west and Jurupa Avenue to the south
Paved or Concrete Areas (including parking)	Paved driveways
Unimproved Areas	Portions of the property are unimproved
Landscaped Areas	Landscaped areas are present around the residences

PROPERTY IMPROVEMENTS	
Surface Water	None observed
Potable Water Source	Fontana Water Company
Sanitary Sewer Utility	City of Fontana
Storm Sewer Utility	City of Fontana
Electrical Utility	Southern California Edison (SCE)
Natural Gas Utility	Southern California Gas Company
Current Occupancy Status	Partially occupied
Unoccupied Buildings/Spaces/Structures	None
Number of Occupied Buildings	Approximately 13 residences and several additional outbuildings (per Google Earth review)
Building Name or General Building Description	Not applicable (N/A)
Number of Floors	All buildings appear to be one-story
Total Square Feet of Space (approximate)	Unknown
Construction Completion Date (year)	Various
Construction Type	Various; most appeared to be wood-framed, slab on grade or trailers
Interior Finishes Description	Interiors of accessed spaces consist of wallboard and ceramic tile.
Exterior Finishes Description	Various
Cooling System Type	Window-mounted air-conditioners and split-systems
Heating System Type	Window-mounted air-conditioners and split-systems
Emergency Power	None observed

3.5 Current Uses of Adjoining Properties

Current uses of the adjoining properties were observed to be as follows:

Northwest - Adjacent to the northwest, beyond Juniper Avenue, is a vacant lot.

North- Adjacent to the north is a vacant lot, beyond that is a post office (16731 Santa Ana Avenue).

Northeast- Adjacent to the northeast is Home Depot (16783 Santa Ana Avenue).

East- Adjacent to the east are residences and undeveloped land (11016 to 11270 Sierra Avenue).

Southeast- Adjacent to the southeast, beyond Jurupa Avenue, is a residential neighborhood.

South- Adjacent to the south, beyond Jurupa Avenue, is a residential neighborhood.

Southwest - Adjacent to the southwest, beyond the intersection of Jurupa and Juniper Avenues, is a residential neighborhood.

West- Adjacent to the west, beyond Juniper Avenue, are residences and undeveloped land (16676 Jurupa Avenue and 11020 to 11262 Juniper Avenue).

Please refer to Section 5.1.1 for information regarding the listing of the adjacent sites on the state and local agency databases researched.

4.0 USER PROVIDED INFORMATION

The following section summarizes information (if any) provided by Real Estate Development Associates (User) with regard to the Phase I ESA. Documentation may be found in Appendix D or where referenced in this report.

4.1 Title Records

The User provided no title records information.

4.2 Environmental Liens or Activity and Use Limitations (AULs)

The User provided no information regarding property environmental liens or activity and use limitations (AULs). ATC contracted Environmental Data Resources, Inc. (EDR) of Shelton, Connecticut to perform an environmental lien search for each of the 12 property addresses. According to EDR, no environmental liens or AULs (such as engineering controls, land use restrictions or institutional controls) were identified for the property addresses. A copy of the report is included in Appendix L. The review of the environmental lien and AUL search did not identify past uses indicating *recognized environmental conditions* in connection with the property.

4.3 Specialized Knowledge or Experience of the User

The User provided no specialized knowledge regarding *recognized environmental conditions* associated with the property.

4.4 Significant Valuation Reduction for Environmental Issues

The User provided no information regarding a significant valuation reduction for environmental issues associated with the property.

4.5 Owner, Property Manager and Occupant Information

The User indicated the property is a mix of residences, commercial businesses, and undeveloped parcels. Cody Clayton, Vice President with Jones Lang LaSalle Brokerage, Inc., and Nesha Ritchie and David Nguyen with Lee & Associates, were identified as the brokers for the property.

4.6 Reason for Performing Phase I ESA

According to information provided by the User, this Phase I ESA will be used in connection with a proposed redevelopment to identify *recognized environmental conditions* associated with the property.

4.7 Other User Provided Documents

Per ASTM Standard Practice E1527-13, ATC obtained the documents listed below from the User:

OTHER USER PROVIDED DOCUMENTS		
Title	**Date (if known)**	**Author and/or Source (if known)**
Spreadsheet with property information	Unknown	REDA

5.0 RECORDS REVIEW

5.1 Standard Environmental Records

The regulatory agency database report discussed in this section, provided by Environmental Data Resources Inc. (EDR) of Shelton, Connecticut, was reviewed for information regarding reported use or release of hazardous substances and petroleum products on or near the property. Unless otherwise noted, the information provided by the regulatory agency database report and other sources referenced in this report, were considered sufficient for *recognized environmental condition (REC)*, *controlled recognized environmental condition (CREC)*, *historical recognized environmental condition (HREC)* or *de minimis condition* determinations without conducting supplemental agency file reviews. ATC also reviewed the "unmappable" (also referred to as "orphan") listings within the database report, cross-referencing available address information and facility names. Unmappable sites are listings that could not be plotted with confidence, but are potentially in the general area of the property, based on the partial street address, city, or zip code. Any unmappable site that was identified by ATC as being within the approximate minimum search distance from the property, based on the site reconnaissance and/or cross-referencing to mapped listings is included in the discussion within this section. The complete regulatory agency database report may be found in Appendix E.

The following is a summary of the findings of the database review.

SUMMARY OF FEDERAL, STATE AND TRIBAL DATABASE FINDINGS			
Regulatory Database	**Approx. Minimum Search Distance**	**Property Listed?**	**# Sites Listed**
Federal National Priority List (NPL)	1 mile	No	0
Federal Delisted NPL	½ mile	No	0
Federal Superfund Enterprise Management System (SEMS)	½ mile	No	0
Federal CERCLIS No Further Remedial Action Planned (NFRAP)	½ mile	No	0
Federal Resource Conservation and Recovery Act (RCRA) Corrective Action facilities (CORRACTS)	1 mile	No	0
Federal RCRIS non- CORRACTS Treatment, Storage, and Disposal Facilities (TSDF)	½ mile	No	0
Federal RCRA Generators (Including RCRA NonGen / NLR)	¼ mile	No	11
Federal Institutional Control/Engineering Control Registry (US ENG CONTROLS)	Property	No	0
Federal Emergency Response Notification System (ERNS) list	Property	No	0
Department of Defense (DOD)	1 mile	No	0
Record of Decisions (ROD)	1 mile	No	0
Unexploded Ordinance (UXO)	1 mile	No	0
State and Tribal NPL (RESPONSE)	1 mile	No	0
State and Tribal CERCLIS (ENVIROSTOR)	1 mile	No	10
State and Tribal Landfill or Solid Waste Disposal Sites	½ mile	No	0
State and Tribal Leaking Underground Storage Tanks (LUST)	½ mile	No	0
California Spills, Leaks, and Incident Clean-Ups (CA SLIC)	½ mile	No	0
State and Tribal Registered Aboveground Storage Tanks (AST)	¼ mile	No	0
State and Tribal Registered Underground Storage Tanks (UST)	¼ mile	No	1
Historical UST (HIST UST) list	¼ mile	No	0
California Facility Inventory Database (CA FID UST)	¼ mile	No	0

SUMMARY OF FEDERAL, STATE AND TRIBAL DATABASE FINDINGS			
Regulatory Database	**Approx. Minimum Search Distance**	**Property Listed?**	**# Sites Listed**

Hist Cleaners	¼ mile	No	0
San Bernardino County Permit	¼ mile	No	0

5.1.1 Federal Agency Database Findings

The property was not identified on the federal databases reviewed for this assessment; however, listings with a known or significant potential for release and impact on the property were identified in the federal agency databases searched, as follows. Facilities with state database listings will be discussed herein and a discussion will not be repeated within Section 5.1.2.

Home Depot USA HD 1857
16783 Santa Ana Avenue
South Fontana, California 92337
Databases: RCRA-SQG, HAZNET, San Bernardino Permit, CERS, CERS HAZ WASTE
Approximate Distance from the Property: Adjacent to the northeast
Assumed Groundwater Gradient: Upgradient
Regulatory Data Summary: The State Hazardous Waste Tracking System (HAZNET) contains data that is extracted from copies of hazardous waste manifests received each year by the Department of Toxic Substances Control (DTSC). The current occupant is listed on the HAZNET database for generating waste oil and mixed oil, liquids with pH<=2, other organic solids, off-specification, aged, or surplus organics, for the years 2007 through 2017. The San Bernardino County Permit database lists the facility as active. The permit categories were identified as hazardous materials EPCRA FACILITY, HAZARDOUS MATERIALS 11-30 CHEMICALS, LARGE QUANTITY GENERATOR. The active permits expired December 31, 2018. Home Depot was also identified on the RCRA-SQG database with no violations found. The property is also identified on the California Environmental Reporting System (CERS) database relating to on-site chemical storage, including hazardous materials. A compliance evaluation inspection was conducted by the San Bernardino County Fire Department (SBCFD) in 2016 and a violation was issued for insufficient record keeping. The violation was returned to compliance in November 2016.
Discussion: Based on the lack of reported releases/spills and status of violations (returned to compliance), these listings are not considered to represent an environmental concern to the property.

GLC Fontana III, LLC
11198 Juniper Avenue
Fontana, California 92337
Databases: RCRA Nongen/NLR
Approximate Distance from the Property: Adjacent to the west, beyond Juniper Avenue
Assumed Groundwater Gradient: Crossgradient
Regulatory Data Summary: This occupant was identified has a facility that does not currently generate hazardous waste. No violations were found.

Discussion: Based on the lack of reported releases/spills or violations and current occupancy (vacant lot), this listing is not considered to represent an environmental concern to the property.

Chevron 355916
11285 Sierra Avenue
Fontana, California 92337
Databases: RCRA-LQG, HAZNET, San Bernardino Permit, CERS, CERS HAZ WASTE, CERS TANKS, CHMIRS
Approximate Distance from the Property: Approximately 465 feet east, beyond Sierra Avenue
Assumed Groundwater Gradient: Cross to upgradient
Regulatory Data Summary: The current occupant is listed on the HAZNET database for generating waste oil and mixed oil, liquids with pH<=2, other organic solids, off-specification, aged, or surplus organics, for the years 2007 through 2017. The San Bernardino County Permit database lists the facility as active. The permit categories were identified as hazardous materials HAZMAT HANDLER (UST), WASTE INCIDENTAL (UST), COMPLEX ANNUAL INSPECTION VPH. The active permits expired December 31, 2018. Chevron was also identified on the RCRA-LQG database with no violations found. The property is also identified on CERS database relating to on-site chemical storage, including hazardous materials, and tanks. Compliance evaluation inspections have been conducted by the SBCFD since 2014 and various violations were issued. The violations have been returned to compliance. In 2018, a release involving four gallons of gasoline was reported. A customer had a hole in their gas tank that resulted in the release of gasoline to the concrete and approximately one gallon to a nearby drain. The release was contained and cleaned up by Clean Harbors, which vacuumed the product from the drain.
Discussion: Based on the status of the release (contained) and lack of additional releases or outstanding violations, these listings are not considered to represent an environmental concern to the property.

Based on distance, topography, assumed groundwater gradient or the absence of reported releases, none of the other sites listed in the federal agency databases searched are considered to represent a likely past, present or material threat of release in, on, or at the subject property. Given the physical setting characteristics of the subject property and surrounding area, supplemental agency file reviews were not warranted to verify the database report information.

5.1.2 State and Tribal Database Findings

The property was not identified on the state and tribal databases searched by EDR.

Based on distance, topography, assumed groundwater gradient, current regulatory status, and/or the absence of reported releases, none of the other sites listed in the state or tribal agency databases are considered to represent a likely past, present or material threat of release in, on, or at the property. Given the physical setting characteristics of the property and surrounding area, supplemental agency file reviews were not warranted to verify the database report information.

5.1.3 Local Environmental Records Sources

San Bernardino County Fire Department (SBCFD)

ATC requested a search of available records pertaining to USTs, hazardous materials use and hazardous waste generation for selected APNs from the SBCFD. The APNs were selected based on their potential for records (Delta Nursery at 16820 Jurupa Avenue and Mendoza Paving at 11259 Juniper Avenue). According to a Certified Records Search Findings letter for 16798 and 16820 Jurupa Avenue and 11259 Juniper Avenue, dated August 30, 2019, no records were found. Records of communication are included in Appendix J.

California Environmental Protection Agency, Department of Toxic Substances Control (DTSC)

According to the DTSC EnviroStor website, http://www.envirostor.dtsc.ca.gov/public, no records are available for the property.

Regional Water Quality Control Board (RWQCB)

According to the RWQCB GeoTracker website, http://geotracker.waterboards.ca.gov, no LUST or Spills, Leaks, Investigations or Clean-Ups (SLIC) sites are located on the property. In addition, ATC submitted a records request for the property addresses. The RWQCB responded that there are no records for the property addresses. Records of communication are included in Appendix J.

South Coast Air Quality Management District (SCAQMD)

According to information contained on the SCAQMD website, http://www.aqmd.gov. No records for the property addresses were found.

Department of Planning and Zoning

According to the City of Fontana Zoning map (accessed online), the property, with the exception of 16820 Jurupa Avenue, is zoned R-PC, residential planned community. The 16820 Jurupa Avenue address is zoned C-2, general commercial. No historical zoning information was available. A copy of the zoning map is provided in Appendix L.

Electrical Utility Company

Southern California Edison provides electricity to the property.

Gas Utility Company

Southern California Gas Company provides gas to the property.

Water Utility

Fontana Water Company provides water services to the property. According to the 2018 Consumer Confidence Report, the water purveyor meets all state and federal drinking water standards. The report indicated that complete monitoring for 1,2,3-trichloropropane was not conducted between April and June 2018. However, since then the water company has taken the required samples and the test results, in addition to all previous results were non-detect for 1,2,3-trichloropropane. A copy of the 2018 report is included in Appendix L.

Sewer Utility

The City of Fontana provides sewer services to the property and maintains sewer main lines, as well as service laterals to the property line. It should be noted that the property originally utilized septic tanks until reportedly 2015 when the property was connected to the municipal sewer lines.

5.2 Physical Setting Sources

5.2.1 Topography

The property is located on the United States Geological Survey (USGS) 7.5-Minute Series Topographic Map, *Fontana, California* Quadrangle, dated 2012. Based on ATC's review of this topographic map, the property is located approximately 1,049 feet above mean sea level (MSL). The property and surrounding area has a slight slope to the southwest. A copy of the topographic map is included in Appendix A.

5.2.2 Geology

According to the EDR Radius Map Report, the stratigraphic units underlying the property are Cenozoic era and Quaternary system and series (stratified sequence). EDR obtains its geologic age and stratigraphic unit information from P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale, USGS Digital Data Series DDS - 11 (1994).

5.2.3 Soils

Soil survey maps for the property vicinity were available for review from the United States Department of Agriculture (USDA) Web Soils Survey website (http://websoilsurvey.nrcs.usda.gov/app/HomePage.htm). According to an interactive map, soils in the vicinity of the property are classified as Delhi fine sand. The Delhi designation refers to soils of high infiltration rates that are somewhat excessively drained with sand and gravel textures. Delhi fine sand soils do not meet the requirements for a hydric soil. A copy of the soils map is included in Appendix L.

5.2.4 Hydrology

According to a Case Closure Summary dated October 21, 2011, contained on the RWQCB GeoTracker website, http://geotracker.waterboards.ca.gov, the depth to groundwater at a nearby LUST site (16880 Slover Avenue), located approximately 3,600 feet to the north-northeast of the property, was expected to be greater than 330 feet below ground surface (bgs). Subsurface investigations at this LUST site were conducted to a depth of 226 feet bgs and groundwater was not encountered.

Regional groundwater flow direction was interpreted based on a review of the Fontana, California USGS Topographic Map and is expected to be in a southwest direction. Therefore, in assessing potential external environmental impact, properties located directly northeast (presumed upgradient) of the property are of primary concern.

Actual groundwater flow direction is often locally influenced by factors such as underground structures, seasonal fluctuations in precipitation, soil and bedrock geology, production wells, local usage demands, dewatering operations and other factors beyond the scope of this study. The actual groundwater flow direction under the property can be accurately determined only by installing groundwater-monitoring wells, which was beyond the scope of work for this project.

5.2.5 Other Physical Setting Sources

Flood Plain Map

ATC reviewed the Federal Emergency Management Agency (FEMA) website for the National Flood Insurance Program, Flood Insurance Rate Map (FIRM), to determine if the property is located within a floodplain. The property is located within zone X, an area of minimal flood hazard. The community/panel number for the FIRM for the property, with the exception of the eastern side of the 16820 Jurupa Avenue address, is 06071C8665H and the effective date is August 28, 2008. The eastern side of the 16820 Jurupa Avenue address is situated on community/panel number 06071C8666H (effective date August 28,

2008). It should be noted that the site located adjacent to the north of the 16820 Jurupa Avenue address is designated as Zone A, an area subject to inundation by the 1% annual chance flood event. A copy of the map is included in Appendix L.

Wetlands Map

According to information obtained from the United States Fish and Wildlife Service (USFWS) National Wetland Inventory (NWI) database, http://www.fws.gov/wetlands/Data/Mapper.html, there are no wetlands on the property. A drainage basin is located adjacent to the north of the 16820 Jurupa Avenue address, which does not appear on the NWI map. A copy of the NWI map is included in Appendix L.

5.3 Historical Records Sources

The following table summarizes the findings of the research presented below pertaining to historical property and surrounding area uses.

Intervals (greater than five years) were encountered during the research of historical use information for the property and surrounding area. However, based on the review of reasonably ascertainable historical sources, these intervals did not have an impact on the *REC* determinations of this assessment and are not significant data gaps.

HISTORICAL USE SUMMARY				
Period	**Identified Historical Uses**		**Source(s)**	**Intervals/Comments**
	Property	**Surrounding Area**		
Prior to 1940	Agricultural Residential Undeveloped	Agricultural Residential Undeveloped	Aerial Photographs Topographic Maps	The earliest record for the property is an 1896 topographic map depicting the property as undeveloped. Data gaps from 1902 to 1937. Use change from undeveloped to agricultural by 1938.
1940 - 1960	Agricultural Residential Undeveloped	Agricultural Residential Undeveloped	Aerial Photographs Topographic Maps City Directories	Data gap between 1960 and 1964. No use change across gap.
1961 - 1980	Residential Undeveloped	Agricultural Residential Undeveloped Commercial	Aerial Photographs Tax Files Topographic Maps City Directories Building Department Records	Data gaps from 1960 to 1965 and 1968 to 1972. Agricultural use appears to have ceased by 1967 (per aerial photographs).
1981 - 2000	Residential Undeveloped	Residential Undeveloped Commercial	Aerial Photographs City Directories Building Department Records	No data gaps. Use of the property included a horse ranch and nursery.
2001 - present	Residential Commercial Undeveloped	Residential Undeveloped Commercial	Aerial Photographs Tax Files Topographic Map City Directories Building Department Records Zoning Records	No data gaps. No concerns. A paving company has been onsite since at least 2005.

5.3.1 Aerial Photographs

ATC reviewed available aerial photographs of the property and surrounding areas from EDR. Available aerial photographs ranged from 1938 to 2016. The following are descriptions and interpretations from the aerial photograph review.

AERIAL PHOTOGRAPH SUMMARY		
Year	**Scale**	**Comments**
1938 and 1948	1 inch = 500 feet	**Property**: The property is occupied by agricultural row crops. Two small rectangular structures are depicted in the central portion of the property along present day Juniper Avenue. **Surrounding Area**: The surrounding area is occupied by agricultural row crops.
1953	1 inch = 500 feet	**Property**: The property appears to mostly occupied by agricultural land. Structures, possibly residences, are depicted along the present day Juniper Avenue. Additional structures are depicted in the southern portion of the property and are likely associated with its agricultural use. **Surrounding Area**: Agricultural land is depicted on the surrounding areas. Paved roads, currently Juniper Avenue and Jurupa Avenue are depicted adjacent to the west and south of the property, respectively.
1959	1 inch = 500 feet	**Property**: The property appears to be primarily agricultural land; however, portions of the southern end of the property appears to have been graded. **Surrounding Area**: Primarily agricultural land is depicted on the surrounding areas. Additional structures, likely residences or buildings associated with agricultural land, are depicted to the east and west.
1967	1 inch = 500 feet	**Property**: The property is no longer be used for agricultural purposes. Structures, which resemble the current residences, and vacant land are depicted onsite. **Surrounding Area**: The northern and southern adjacent sites appear to remain agricultural in use. Residences, commercial buildings, and vacant land are depicted to the east and west.
1975	1 inch = 500 feet	**Property**: The property appears similar to the 1967 aerial photograph. **Surrounding Area**: The surrounding areas appear similar to the 1967 aerial photograph; however, the northern-adjacent site is depicted as undeveloped land (formerly agricultural use).
1985 and 1990	1 inch = 500 feet	**Property**: The property appears to be developed in its current configuration. However, the 16820 Jurupa Avenue nursery is not depicted. **Surrounding Area**: The surrounding areas consist of vacant land and residences.
1994	1 inch = 500 feet	**Property**: The property appears to be developed in its current configuration, with the exception of the 16820 Jurupa Avenue nursery (not depicted) and the presence of a possible nursery at 16756 Jurupa Avenue. **Surrounding Area**: The surrounding areas consist of vacant land and residences.
2006, 2009, 2012, and 2016	1 inch = 500 feet	**Property**: The property appears to be developed in its current configuration. **Surrounding Area**: The surrounding areas appear to be developed in its current configuration.

The review of aerial photographs identified agricultural land on the property and surrounding areas. Portions of the property were used for agricultural purposes from least 1938 and ceased by 1967 (per aerial photographs) suggesting the possible presence of environmentally persistent pesticides and herbicides on the property. Except in areas where activities such as storage or mixing of pesticides has resulted in higher soil concentrations, the former application of pesticides for agricultural purposes generally does not require a remedial response in most jurisdictions and is not considered to represent a *recognized environmental condition.* The aerial photographs are included in Appendix F.

5.3.2 Fire Insurance Maps

A search for fire insurance maps for the property and surrounding area was conducted by EDR. According to EDR, no such maps for the property area were available. A copy of the "unmapped property" report is included in Appendix G.

5.3.3 Property Tax Files

ATC reviewed tax files on the County of San Bernardino Assessor's Office website for historical ownership information pertaining to the property. Historical ownership reports were accessed and are included in Appendix L.

The review of tax files did not identify specific past uses indicating *recognized environmental conditions* in, on, or at the property or surrounding area.

5.3.4 Recorded Land Title Records

The acquisition of recorded land title records was not required by the scope of work for the Phase I ESA.

5.3.5 Historical USGS Topographic Maps

ATC reviewed available historical USGS Topographic Quadrangles provided by EDR for information regarding past uses of the property. The topographic maps were dated 1896, 1898, 1901, 1942, 1943, 1953, 1954, 1967, 1973, 1975, 1980, and 2012.

The 1896, 1898, and 1901 maps depict the property as mostly undeveloped, except for a paved road that runs north south along the eastern side of the property. The surroundings sites are depicted as undeveloped land.

On the 1942 and 1943 maps, two small structures, likely residences, are depicted on the property. Small structures are scattered to the north, east, and west of the property. Paved roads are depicted nearby, including to the west and south (currently Juniper and Jurupa Avenue).

The 1953 and 1954 maps depict the property as agricultural land with at least four small structures (likely residences). The surrounding areas also consist of agricultural land with small structures.

On the 1967 map, the property is developed with small sparse structures (likely residences). The surrounding areas consist of vacant land and small structures (likely residences).

On the 1973, 1975, and 1980 maps, the property is developed with additional small structures (likely residences). The surrounding areas consist of vacant land and possible residences. Rectangular structures are depicted to the east.

The 2012 map does not show specific structures; however, nearby streets are depicted, including Juniper and Jurupa Avenue to the west and south, respectively.

The review of topographic maps did not identify specific past uses indicating *recognized environmental conditions* in, on, or at the property or surrounding area. Documentation is included in Appendix G.

5.3.6 City Directories

Research regarding the availability of historical city directories was conducted by EDR for the years 1955 to 2014. It should be noted that listings on Jurupa Avenue were not provided. The following are descriptions and interpretations from the historical city directory review, with a focus on the property and adjacent addresses. Documentation is included in Appendix G.

CITY DIRECTORY SUMMARY	
Year	**Comments**
1955	**Property**: Juniper Avenue: 11097- Larson Harlan B fur farm; 11219- Mayzsak JE **Surrounding Area**: 11160 Juniper Avenue- Stachura Robt
1965	**Property**: Juniper Avenue: 11097- Kory Stanley S Ella pntr h; 11229- Sclafani Nick H **Surrounding Area**: Juniper Avenue: 11210- Young Rex A Ruth scale car opr Kaiser Steel; 11240- Snodgrass Avis Mrs. R nurse Riv Cou Health Dept Ind h, Ruth Brenda L Mrs. R
1975	**Property**: 11097 Juniper- Jasper Michael A; 11193- Smith Robt J; 11145- Castro Reynaldo; 11219- Mayzsak JE **Surrounding Area**: Juniper Avenue: 11055- Alwerth Dan I; 11228- Maria Gerra; 11240- Sundstrom Jas E
1990	**Property**: 11097 Juniper- Jasper Michael A **Surrounding Area**: Juniper Avenue: 11055- Alwerth Dan I; 11090- Cady JI; 11110- Horton Ken; 11160- Santellan Richard P; 11240- Sundstrum Jas E
1996	**Property**: 11097 Juniper- Jasper Michael A **Surrounding Area**: Juniper Avenue: 11055- Alwerth Dan I; 11090- Cady JI; 11160- Santellan Richard P; 11240- Sundstrum Jas E
2002	**Property**: 11097 Juniper- Jasper Michael A **Surrounding Area**: Juniper Avenue: 11055- Alwerth Dan I; 11090- Cady JI; 11160- Santellan Richard P; 11228- Mester Sam J; 11240- Sundstrum Jas E
2008	**Property**: 11097 Juniper- Nieto Jose, Gutierrez Olga E, Avalos Pedro, Avalos Jose; 11145- Eshelman David; 11219- Eshelman David; 11229- Eshelman David **Surrounding Area**: Juniper Avenue: 11055- Newby Ana; 11090- Brown JI; 11110- Eshelman David, Truckers Express Inc.; 11160- Santellan Richard P; 11198- Eshelman David; 11210- Eshelman David, Rosser Dana; 11228- XXXX; 11240- Sundstrum Jas E
2010	**Property**: 11097 Juniper- Jose Nieto Magana **Surrounding Area**: Juniper Avenue: No listings
2014	**Property**: 11097 Juniper- Jose Nieto Magana **Surrounding Area**: Juniper Avenue: 11210- Franklin Castaneda

The review of city directories did not identify specific past uses indicating *recognized environmental conditions* in, on, or at the property or surrounding area.

5.3.7 Building Department Records

ATC reviewed available historical building department records from the City of Fontana's website, https://www.fontana.org/3123/Historical-Property-Permit-Information, for information regarding past uses of the property. A summary of the records found is provided below.

11011 Juniper Avenue
- No permits were found.

11055 Juniper Avenue
- No permits were found.

11097 Juniper Avenue
- Two permits were issued for plumbing work (undated).

11145 Juniper Avenue
- No permits were found.

11193 Juniper Avenue
- No permits were found.

11219 Juniper Avenue
- No permits were found.

11229 Juniper Avenue
- September 27, 2010- A permit was issued for three exterior light fixtures.

11259 Juniper Avenue
- October 8, 2007- A permit was issued for a swimming pool.
- October 16, 2007- A permit was issued for a block wall.
- November 15, 2007- A permit was issued for a sewer connection.

16716 Jurupa Avenue
- Undated- Grant deed on-file (no details)
- April 14, 2010- A permit was issued to connect the sewer and abandon an existing private sewage disposal system.

16756 Jurupa Avenue
- Undated- Grant deed on-file (no details)
- April 14, 2010- A permit was issued to connect the sewer and abandon an existing private sewage disposal system.

16798 Jurupa Avenue
- Undated- Grant deed on-file (no details)
- April 14, 2010- A permit was issued to connect the sewer and abandon an existing private sewage disposal system.

16820 Jurupa Avenue
- Undated- Grant deed on-file (no details)
- April 14, 2010- A permit was issued to connect the sewer and abandon an existing private sewage disposal system.

ATC also contacted the San Bernardino County Building Department since the property was formerly situated within the County of San Bernardino's jurisdiction. According to Erika (last name withheld), records searches require a fee and are not readily available.

The review of building permit records did not identify specific past uses indicating *recognized environmental conditions* in, on, or at the property. Septic system components should be removed and properly abandoned.

5.3.8 Zoning/Land Use Records

Historical zoning information was not readily available. According to the City of Fontana Zoning map (accessed online), the property, with the exception of 16820 Jurupa Avenue, is zoned R-PC, residential planned community. The 16820 Jurupa Avenue address is zoned C-2, general commercial. A copy of the zoning map is provided in Appendix L.

5.3.9 Prior Reports

No prior reports were provided.

5.3.10 Other Historical Sources

No other historical sources were reviewed.

6.0 SITE RECONNAISSANCE

The following is a summary of visual and/or physical observations of the property on the day of the site visit. Photographs can be found in Appendix C.

6.1 Methodology and Limiting Conditions

Ms. Victoria Rojo, Senior Scientist with ATC, conducted the site reconnaissance on August 12, 2019 and was escorted by Mr. Fred Paulicano, owner, of 16798 and 16820 Jurupa Avenue and Mr. Rich Pizzica of 16716 Jurupa Avenue. A second site visit was conducted on August 14, 2019 and was accompanied by Ms. Marie (last name withheld), representative with Mendoza Paving at 11259 Juniper Avenue. ATC was unescorted at the remaining property addresses. The site reconnaissance consisted of visual and/or physical observations of: the property and improvements; adjoining sites as viewed from the property; and, the surrounding area based on visual observations made during the trip to and from the property. Unimproved portions of the property (if any) were observed along the perimeter and in a general grid pattern in safely accessible areas, if accessible and possible. ATC was unable to observe the all of the parcels directly, but was able to observe those portions of the property from the street and fence lines of adjacent parcels. In addition, the residences were not accessed, with the exception of 16716 Jurupa Avenue. Small sheds were also present at 16716 Juniper Avenue but were locked and inaccessible at the time of the site visit. The weather at the time of the site reconnaissance was clear and warm. Weather was not a limiting factor.

6.2 Hazardous Substance Use, Storage, and Disposal

ATC reviewed the property for hazardous materials storage and use, as well as indications that such materials may have been spilled or dumped. The following is a summary of the observations made according to address:

11011 Juniper Avenue

- Various scrap material (wood, scrap metal, used tires, and old parked vehicles) were observed on-site. In addition, one 55-gallon drum was observed along the southern boundary.

11259 Juniper Avenue

- The site is occupied by a residence and Mendoza Paving. The rear is used as a storage yard.
- Evidence of maintenance activities were observed but reportedly are no longer conducted onsite.
- Buckets of hydraulic oil and a large 250-gallon tote were observed in a curbed containment area. Heavy dark staining was observed within the containment.
- Although maintenance activities are reportedly no longer conducted onsite, it appears that some sort of repair work takes place under an awning-covered area. Approximately 10 five-gallon containers of hydraulic and motor oil, gas cans, and compressed gas cylinders of acetylene, oxygen, and propane. Minor staining was observed on the concrete in this area.
- An air compressor and ice machine were also observed under the awning. What appeared to be water was leaking from the base of the ice machine. No signs of a release observed near the air compressor.
- Heavy equipment was parked/stored on the paved and bare soil. Minor staining was observed near some of the equipment.
- Small piles of soil and asphalt debris were observed in the storage yard. Minor staining was observed near this area.
- Three five-gallon buckets or oil spot primer, a propane cylinder, and miscellaneous parts and equipment were observed stored on concrete beneath a second awning-covered area. Minor staining was observed on the concrete.

16716 Jurupa Avenue

- Small quantities of commercial cleaning and maintenance products were observed to be stored in original containers in the garage and kitchen.

16798 Jurupa Avenue

- Former use included a former horse ranch. Currently, a portion of the land is utilized as a storage yard for a paving company. No chemical use onsite; however, three large totes and a 55-gallon drum were used to dilute Quick Set. In addition, left over pieces of equipment and some vehicles from the horse ranch were observed.

16820 Jurupa Avenue

- Liquid fertilizer is utilized at this address, which is currently occupied by Delta Nursery. Approximately 15 one-quart plastic bottles of empty liquid fertilizer and one trash receptacle used to dilute the fertilizer with water was observed. No signs of a release or spill were observed.
- Oil changes are conducted in a shed-type structure on bare soil. Associated maintenance fluids were stored in the shed. Housekeeping was poor and some small localized staining was observed on the soil.

Concerning the area used to conduct oil changes at 16820 Jurupa Avenue, if additional odors/staining are discovered during grading/redevelopment activities, we recommend stockpiling, testing, profiling and proper disposal of the soil.

Staining observed at 11259 Juniper Avenue appeared to be mostly minor (localized, limited in size, or located on pavement in good condition) and are considered a *de minimis* condition. The exception was heavy staining observed adjacent to the 250-gallon tote; however, the staining appeared to be contained within a curbed secondary containment.

ATC recommends the proper disposal of hazardous materials, if any, left behind by current occupants.

6.3 Underground Storage Tanks (USTs)

ATC did not observe evidence of USTs on the accessible portions of the property.

6.4 Aboveground Storage Tanks (ASTs)

ATC did not observe evidence of ASTs on the property.

6.5 Other Petroleum Products

ATC did not observe the use, storage or disposal of other petroleum products in, on or at the property.

6.6 Polychlorinated Biphenyls (PCBs)

ATC observed several pole-mounted, utility company owned transformers located along Juniper and Jurupa Avenues. ATC did not observe leaking or staining in connection with these transformers. These transformers appeared to be in relatively new condition. Given the fact that they are the responsibility of the utility company and based on the observed conditions, they do not represent a *recognized environmental condition.*

6.7 Unidentified Substance Containers

ATC did not observe the presence of unidentified substance containers on the property.

6.8 Nonhazardous Solid Waste

Municipal residential-sized trash, recycling, and green waste bins were observed in some of the occupied areas. According to the City of Fontana website, trash and recycling services are provided by Burrtec Waste Industries.

6.9 Wastewater

According to Mr. Paulicano and Mr. Pizzica, their properties are connected to the municipal sewage system. As noted previously in Section 5.3.7, building permit records indicate that private sewage disposal systems were abandoned and the properties were connected to the sewer at five addresses in 2010. Other residences may have associated past or present septic systems.

6.10 Waste Pits, Ponds and Lagoons

No waste pits, ponds, or lagoons were observed.

6.11 Drains and Sumps

ATC did not observe evidence of drains or sumps in, on or at the property.

6.12 Septic Systems

ATC did not observe evidence of a septic system in, on or at the property; however, as noted previously in Section 5.3.7, building permit records indicate that private sewage disposal systems were abandoned and the properties were connected to the sewer at five addresses in 2010. Given its once rural setting, other buildings located on the property may have utilized a septic system.

In general, septic systems represent the greatest concern when present in connection with industrial type property use. Based on the assumed historical use as generally residential, the presence of past or present septic systems is not considered to represent a *recognized environmental condition*. Septic systems should be removed in accordance with applicable regulations.

6.13 Stormwater Management System

Portions of the property consists of unimproved/unpaved surfaces. Stormwater is expected to percolate into the ground, flow overland, or flow toward municipal storm drains along Jurupa and Juniper Avenues. The observed vegetation did not exhibit signs of biological stress.

6.14 Wells

ATC did not observe evidence of wells in, on or at the property. However, based on the historical use as generally rural residential, the potential for past or present water wells on-site exists. If a water wells are discovered during future redevelopment of the property, they should be removed in accordance with applicable regulations.

7.0 SUBSURFACE VAPOR MIGRATION

ATC conducted a Tier 1 vapor encroachment screen (VES) in accordance with ASTM E2600-15 *Standard Guide for Vapor Encroachment Screening on Property Involved in Real Estate Transactions* for potential vapor encroachment conditions (VECs). A VEC is the presence or likely presence of chemicals of concern (COC) vapors in the vadose zone of the property caused by the release of vapors from contaminated soil and/or groundwater either on or near the property. A Tier 2 Non-Invasive Data Collection Screen was performed if prior assessment reports or regulatory documents were readily available.

ATC considered the nature and extent of on-site and nearby sources of potential subsurface vapor migration by evaluating the current and historical usage of the property, the construction type and history, the physical setting, and the potential sources of subsurface vapor migration through the review of regulatory agency database information and/or prior reports to identify contaminated properties.

COC include volatile organic compounds (VOCs), semi-volatile organic compounds (SVOCs), volatile inorganic analytes and petroleum hydrocarbons, in most circumstances. Certain metals and radionuclides can represent VECs based on the known volatility of the constituents, but are uncommon. The vadose zone is the zone between the land surface and the water table within which moisture content is less than saturation (except in the capillary fringe) and pressure is less than atmospheric. Conditions may exist where there could be no vadose zone, such as the case of a building foundation sitting below the water table. In this case, it may be possible for COC vapors to adversely impact the indoor air without migrating through a vadose zone.

The default area of concern (AOC) is the approximate minimum search distance measured from the property boundary to a contaminated site with known or suspected COC contamination of soil and/or groundwater. If COC and/or petroleum hydrocarbon COC are used or stored on the property, or there is an institutional control recorded on the property for these COC, then the property is included in the default AOC.

The default AOC was adjusted accordingly based on review of groundwater flow direction, subsurface characteristics, surficial features, man-made features, known release information, and local knowledge. When groundwater flow direction can be estimated or determined, the crossgradient or downgradient radius distances can be significantly reduced. The adjusted AOC are defined as the following distances from the property boundary:

Tier 1 Screening	Petroleum COC AOC Distance (LNAPL)	Petroleum COC AOC Distance (Non-LNAPL)	Non-Petroleum COC AOC Distance
Upgradient	528 feet	528 feet	1,760 feet
Crossgradient	165 feet	95 feet	365 feet
Downgradient	100 feet	30 feet	100 feet

ATC reviewed potential sources of COCs from the facilities reported on the EDR database report. The following properties were identified as potential concerns:

Chevron (11285 Sierra Avenue) - located approximately 465 feet east of the property, beyond Sierra Avenue. This site is located cross to upgradient of the property. A customer reportedly had a hole in their gas tank, which resulted in the release of gasoline to the concrete and approximately one gallon to a nearby drain. The release was contained and cleaned up by Clean Harbors, which vacuumed the product from the drain. No other releases were identified for this site.

Palm Cleaners/Spiffy Dry Cleaners Inc. (11251 Sierra Avenue, #2A) - located approximately 875 feet east of the property, beyond Sierra Avenue. This site is located cross to upgradient of the property and is

identified as a dry cleaning and laundry service facility that utilizes petroleum solvent dry cleaning equipment. No violations or releases were reported for this facility.

Based on distance, depth to groundwater (in excess of 200 feet bgs), the crossgradient component of the location of these sites, and the lack of reported releases or violations, none of the sites identified in the AOC are considered to represent a VEC or a REC.

8.0 INTERVIEWS

The following persons were interviewed to obtain information regarding *recognized environmental conditions* in connection with the property. Not included in this listing are those governmental employees that were contacted solely for the purpose of retrieving public information pertaining to the property and who would not be expected to have first-hand knowledge of *recognized environmental conditions* at the property:

INTERVIEW SUMMARY				
Role	**Name**	**Title/Company**	**Years Assoc. With Property**	**Interview Type**
Site Occupant	Fred Paulicano	Owner of 16798 and 16820 Jurupa Avenue	36 Years	In-person interview
Site Occupant	Rich Pizzica	Owner of 16716 Jurupa Avenue	43 Years	In-person interview
Site Occupant	Marie (last name withheld)	Representative of Mendoza Paving (11259 Juniper Avenue	9 Years	In-person interview

Pertinent information from the interviews is discussed in applicable sections of this report with details (including failed attempts to interview) documented on Record of Communication forms in Appendix J.

9.0 OTHER ENVIRONMENTAL CONDITIONS

9.1 Asbestos-Containing Materials (ACM)

ATC conducted a non-comprehensive visual review of suspect ACMs at the property. Suspect ACMs observed at the property included roofing materials and stucco. Suspect ACM in the interiors of the property buildings included wallboard and ceramic tile and were observed to be in good condition. Based on the age of the property improvements (as early as 1953, per aerial photographs), it is possible that ACMs are present. Prior to any demolition and renovation activity, an asbestos survey must be conducted of any suspect materials likely to be disturbed.

9.2 Radon

Radon is a naturally occurring colorless, odorless gas that is a by-product of the decay of radioactive materials potentially present in bedrock and soil. The EPA guidance action level for annual residential exposure to radon is 4.0 picoCuries per liter of air (pCi/L). The guidance action level is not a regulatory requirement for private owners of commercial real estate, but is commonly used for comparison purposes to suggest whether further action at a building may be prudent.

ATC's review of published radon data from EDR's Regulatory Database Report indicates that the property is located in EPA Zone 2. Zone 2 areas have a predicted radon concentration of greater than 2.0 pCi/L and less than 4.0pCi/L. According to EDR's Regulatory Database Report, of the 18 sites tested in San Bernardino County, none of the sites tested returned a result over 4.0 pCi/L. Based on the available statistics, no additional radon investigations are recommended.

9.3 Lead in Drinking Water

Fontana Water Company provides water services to the property. According to the 2018 Consumer Confidence Report, the water purveyor meets all state and federal drinking water standards. The report indicated that complete monitoring for 1,2,3-trichloropropane was not conducted between April and June 2018. However, since then the water company has taken the required samples and the test results, in addition to all previous results were non-detect for 1,2,3-trichloropropane. A copy of the 2018 report is included in Appendix L.

9.4 Lead-Based Paint (LBP)

Suspect LBP was observed on the property at the time of the site visit. Based on the age of the property improvements (as early as 1953, per aerial photographs), it is possible that LBP is present. Prior to any demolition and renovation activity, a LBP survey must be conducted of any suspect materials likely to be disturbed.

9.5 Mold Screening

ATC conducted a screening survey for readily observable mold and conditions conducive to mold on the property. The screening consisted of limited interview, document review and physical observation. ATC's site visit was limited to the interiors of the residence and office.

ATC observed evidence of moisture intrusion during the reconnaissance, as follows.

- The restroom in the office of 11259 Juniper Avenue appeared wet. The water appeared to be coming from the base of the toilet. No visual evidence of mold was observed.

As a best management practice, the water intrusion areas should be replaced/repaired and the water leaks should be repaired to prevent further damage and potential mold growth.

9.6 Additional User Requested Conditions

No additional User requested services were included in the scope of work for this ESA.

11.0 TERMINOLOGY

The following provides definitions and descriptions of certain terms that may be used in this report. Italics indicate terms that are defined by ASTM Standard Practice E1527-13. The Standard Practice should be referenced for further detail (such as the precise wording), related definitions or additional explanation regarding the meaning of terms.

recognized environmental condition(s) (REC) - the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: (1) due to any release to the environment; (2) under conditions indicative of a release to the environment; or (3) under conditions that pose a material threat of a future release to the environment.

material threat - a physically observable or obvious threat which is reasonably likely to lead to a release that, in the opinion of the environmental professional (EP), is threatening and might result in impact to public health or the environment. An example might include an aboveground storage tank system that contains a hazardous substance and which shows evidence of damage such that it may cause or contribute to tank integrity failure with a release of contents to the environment.

de minimis condition – is a condition that generally does not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of the appropriate governmental agencies. An example might include a release of *hazardous substances* or *petroleum products* that could reasonably and foreseeably result in a concentration exceeding the applicable regulatory agency risk-based residential standards or substantial damage to natural resources. The risk of that exposure or damage would represent a threat to human health or the environment. If an enforcement action would be less likely than not, then the condition is considered to be generally not likely the subject of an enforcement action. A condition determined to be *de minimis* is not a *REC* or *controlled recognized environmental condition (CREC)*.

historical recognized environmental condition(s) (HREC) - a past release of any *hazardous substances* or *petroleum products* that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls (for example, property use restrictions, activity and use limitations, institutional controls, or engineering controls). Before calling the past release a *HREC*, the EP must determine whether the past release is a *REC* at the time the assessment is conducted (for example, if there has been a change in the regulatory criteria). If the EP considers the past release to be a *REC* at the time the Phase I ESA is conducted, the condition will be reported in Section 1.2 the Findings and Conclusions Summary table as a *REC*.

controlled recognized environmental condition (CREC) - a *recognized environmental condition* resulting from a past release of *hazardous substances* or *petroleum products* that has been addressed to the satisfaction of the applicable regulatory authority (for example, as evidenced by the issuance of a no further action letter or equivalent, or meeting risk-based criteria established by regulatory authority), with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls (for example, property use restrictions, activity and use limitation, institutional controls, or engineering controls). Per E1527-13, a *CREC* will be reported in the Section 1.2 Findings and Conclusions Summary table as a *CREC* and a *REC*.

migrate/migration - refers to the movement of *hazardous substances* or *petroleum products* in any form, including, for example, solid and liquid at the surface or subsurface, and vapor in the subsurface.

To: Gwen Reed
Subject: [EXTERNAL] REDA Jurupa & Juniper, Fontana Phase I

[External Email] This email originated from outside of the ATC mail system. Please use caution when opening attachments.

Hi Gwen,

Hope all is well. We have another assemblage that we're working on at the NEC of Jurupa & Juniper in Fontana. On one of the properties we have a 60 day due diligence period so I want to get going on a Phase I for the entire assemblage. Below are the key notes for the project. Once you review please provide a proposal for the Report. I don't need ATC to review the Preliminary Title Reports .

Project Name:
Fontana Foothills Commerce Center

Owner (TBD but for now use):
REDA Acquisitions
4450 MacArthur Blvd.
Suite 100
Newport Beach, CA 92660

Properties:

Seller's Name	Property Address	APN	Gross SF	Gross Acres
Betty Jenkins Revocable Trust	11011 Juniper Ave	0255-101-14	209,088	4.80
North First Street Properties / Brandenburg	11055 Juniper Ave	0255-101-21	163,350	3.75
Maria Magana & Jose Nieto	11097 Juniper Ave	0255-101-20	43,560	1.00
MJMK Investments (David Eshleman)	11145 Juniper Ave	0255-101-12	209,088	4.80
MJMK Investments (David Eshleman)	11219 Juniper Ave	0255-111-22	52,272	1.20
MJMK Investments (David Eshleman)	11229 Juniper Ave	0255-111-21	41,917	0.96
MJMK Investments (David Eshleman)	16756 Jurupa Ave	0255-111-18	125,671	2.885
Emilio & Maria Uranga	11193 Juniper Ave	0255-101-11	208,217	4.78
Evaristo Mendoza	11259 Juniper Ave	0255-111-16	42,406	0.97
Rich & Barb Pizzica	16716 Jurupa Ave	0255-111-17	37,177	0.85
Fred & Rose Paulicano	16798 Jurupa Ave	0255-111-19	125,148	2.873
		Subtotal	**+/- 1,257,893**	**28.88**

Access:
By 6/17 we should have 5 of the 8 Seller's under contract which will allow us access to those sites. We will want a full report so we can either look over the fence at the remaining properties or we can ask the brokers to ask for access. We'll have a better idea once I know when you've scheduled the walk.

Give me a call if you have any questions or if I missed anything.

Thanks,

Chad Manista
Vice President

EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

SURROUNDING SITES: SEARCH RESULTS

Surrounding sites were identified in the following databases.

EXECUTIVE SUMMARY

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

STANDARD ENVIRONMENTAL RECORDS

Federal RCRA generators list

RCRA-LQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

A review of the RCRA-LQG list, as provided by EDR, and dated 03/25/2019 has revealed that there are 2 RCRA-LQG sites within approximately 0.25 miles of the target property.

Equal/Higher Elevation	Address	Direction / Distance	Map ID	Page
CHEVRON 355916 EPA ID:: CAR000201798	***11285 SIERRA AVE***	***SE 0 - 1/8 (0.117 mi.)***	***A6***	***20***
STATER BROS MARKETS EPA ID:: CAL000340382	11225 SIERRA AVE	ESE 1/8 - 1/4 (0.163 mi.)	D11	63

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

A review of the RCRA-SQG list, as provided by EDR, and dated 03/25/2019 has revealed that there is 1 RCRA-SQG site within approximately 0.25 miles of the target property.

RCRA-CESQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

A review of the RCRA-CESQG list, as provided by EDR, and dated 03/25/2019 has revealed that there is

1 RCRA-CESQG site within approximately 0.25 miles of the target property.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 04/29/2019 has revealed that there are 10 ENVIROSTOR sites within approximately 1 mile of the target property.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Lists of Hazardous waste / Contaminated Sites

SCH: This category contains proposed and existing school sites that are being evaluated by DTSC for possible hazardous materials contamination. In some cases, these properties may be listed in the CalSites category. depending on the level of threat to public health and safety or the. environment they pose.

A review of the SCH list, as provided by EDR, and dated 04/29/2019 has revealed that there is 1 SCH site within approximately 0.25 miles of the target property.

EXECUTIVE SUMMARY

DRYCLEANERS: A list of drycleaner related facilities that have EPA ID numbers. These are facilities with certain SIC codes: power laundries, family and commercial; garment pressing and cleaners' agents; linen supply; coin-operated laundries and cleaning; drycleaning plants except rugs; carpet and upholster cleaning; industrial launderers; laundry and garment services.

A review of the DRYCLEANERS list, as provided by EDR, has revealed that there are 4 DRYCLEANERS sites within approximately 0.25 miles of the target property.

Description:	RP states: Customer had a hole in the gas tank resulting in the release of 3 gallons of gasoline to the concrete and approximately 1 gallon into a nearby drain which is a catch basin that has filters in it. RP does not believe the drain leads to any waterways. The release is contained and no longer releasing. Clean Harbors conducted clean up includes vacuuming the release out of the drain. Release was fully recovered.

Classification: Conditionally Exempt Small Quantity Generator

Hazardous Waste Summary:

. Waste code: 122
. Waste name: Alkaline solution without metals (pH > 12.5)

. Waste code: 131
. Waste name: Aqueous solution (2 < pH < 12.5) containing reactive anions (azide, bromate, chlorate, cyanide, fluoride, hypochlorite, nitrite, perchlorate, and sulfide anions)

. Waste code: 181
. Waste name: Other inorganic solid waste

. Waste code: 214
. Waste name: Unspecified solvent mixture

. Waste code: 311
. Waste name: Pharmaceutical waste

. Waste code: D001
. Waste name: IGNITABLE WASTE

. Waste code: D002
. Waste name: CORROSIVE WASTE

. Waste code: D007
. Waste name: CHROMIUM

. Waste code: D009
. Waste name: MERCURY

. Waste code: D010
. Waste name: SELENIUM

. Waste code: D024
. Waste name: M-CRESOL

. Waste code: P001
. Waste name: 2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3% (OR) WARFARIN, &

WALGREENS #10768 (Continued) **1016954544**

SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%

. Waste code: P075
. Waste name: NICOTINE, & SALTS (OR) PYRIDINE, 3-(1-METHYL-2-PYRROLIDINYL)-,(S)-, & SALTS

. Waste code: U034
. Waste name: ACETALDEHYDE, TRICHLORO- (OR) CHLORAL

. Waste code: U165
. Waste name: NAPHTHALENE

Biennial Reports:

Last Biennial Reporting Year: 2017

Annual Waste Handled:

Waste code: D001
Waste name: IGNITABLE HAZARDOUS WASTES ARE THOSE WASTES WHICH HAVE A FLASHPOINT OF LESS THAN 140 DEGREES FAHRENHEIT AS DETERMINED BY A PENSKY-MARTENS CLOSED CUP FLASH POINT TESTER. ANOTHER METHOD OF DETERMINING THE FLASH POINT OF A WASTE IS TO REVIEW THE MATERIAL SAFETY DATA SHEET, WHICH CAN BE OBTAINED FROM THE MANUFACTURER OR DISTRIBUTOR OF THE MATERIAL. LACQUER THINNER IS AN EXAMPLE OF A COMMONLY USED SOLVENT WHICH WOULD BE CONSIDERED AS IGNITABLE HAZARDOUS WASTE.
Amount (Lbs): 174

Waste code: D002
Waste name: A WASTE WHICH HAS A PH OF LESS THAN 2 OR GREATER THAN 12.5 IS CONSIDERED TO BE A CORROSIVE HAZARDOUS WASTE. SODIUM HYDROXIDE, A CAUSTIC SOLUTION WITH A HIGH PH, IS OFTEN USED BY INDUSTRIES TO CLEAN OR DEGREASE PARTS. HYDROCHLORIC ACID, A SOLUTION WITH A LOW PH, IS USED BY MANY INDUSTRIES TO CLEAN METAL PARTS PRIOR TO PAINTING. WHEN THESE CAUSTIC OR ACID SOLUTIONS BECOME CONTAMINATED AND MUST BE DISPOSED, THE WASTE WOULD BE A CORROSIVE HAZARDOUS WASTE.
Amount (Lbs): 117

Waste code: D007
Waste name: CHROMIUM
Amount (Lbs): 9

Waste code: D009
Waste name: MERCURY
Amount (Lbs): 6

Waste code: D010
Waste name: SELENIUM
Amount (Lbs): 9

Waste code: D024
Waste name: M-CRESOL
Amount (Lbs): 2

Waste code: P001
Waste name: 2H-1-BENZOPYRAN-2-ONE, 4-HYDROXY-3-(3-OXO-1-PHENYLBUTYL)-, & SALTS, WHEN PRESENT AT CONCENTRATIONS GREATER THAN 0.3%
Amount (Lbs): 5

WALGREENS #10768 (Continued) **1016954544**

Waste code: P075
Waste name: NICOTINE, & SALTS

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

Number of Days to Update: Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

STANDARD ENVIRONMENTAL RECORDS

Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/11/2019

Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

Date of Government Version: 10/15/1991

Federal Delisted NPL site list

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

Federal CERCLIS list

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 04/03/2019

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Federal CERCLIS NFRAP site list

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

State- and tribal - equivalent CERCLIS

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

ADDITIONAL ENVIRONMENTAL RECORDS

Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites
Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

SSTS: Section 7 Tracking Systems

Section 7 of the Federal Insecticide, Fungicide and Rodenticide Act, as amended (92 Stat. 829) requires all registered pesticide-producing establishments to submit a report to the Environmental Protection Agency by March 1st each year. Each establishment must report the types and amounts of pesticides, active ingredients and devices being produced, and those having been produced and sold or distributed in the past year.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing
A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WASTEWATER PITS: Oil Wastewater Pits Listing
Water officials discovered that oil producers have been dumping chemical-laden wastewater into hundreds of unlined pits that are operating without proper permits. Inspections completed by the Central Valley Regional Water Quality Control Board revealed the existence of previously unidentified waste sites. The water boards review found that more than one-third of the region's active disposal pits are operating without permission.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

EDR HIGH RISK HISTORICAL RECORDS

EDR Exclusive Records

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations
EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

LOS ANGELES CO LF METHANE: Methane Producing Landfills

This data was created on April 30, 2012 to represent known disposal sites in Los Angeles County that may produce and emanate methane gas. The shapefile contains disposal sites within Los Angeles County that once accepted degradable refuse material. Information used to create this data was extracted from a landfill survey performed by County Engineers (Major Waste System Map, 1973) as well as historical records from CalRecycle, Regional Water Quality Control Board, and Los Angeles County Department of Public Health

OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

AHA Hospitals:

Target Property Map:	5619058 FONTANA, CA
Version Date:	2012

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW DIRECTION INFORMATION

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

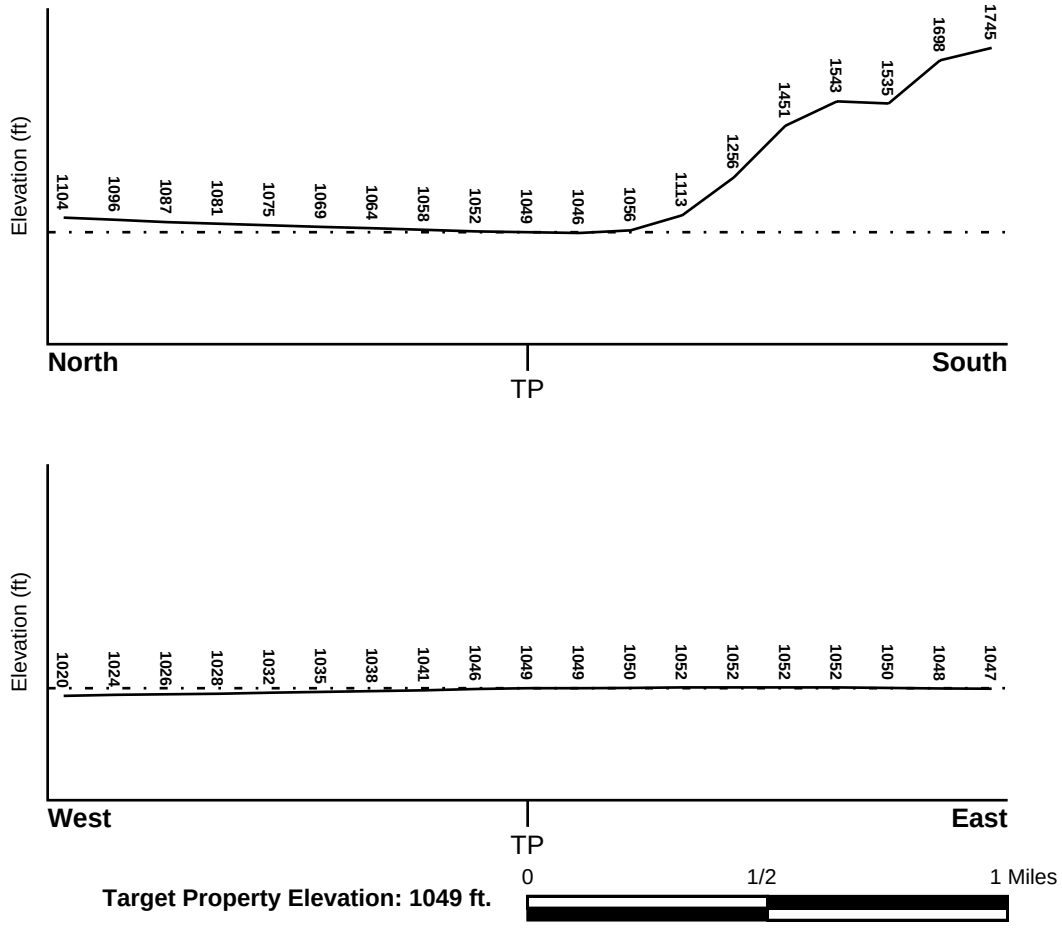
TOPOGRAPHIC INFORMATION

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General West

SURROUNDING TOPOGRAPHY: ELEVATION PROFILES



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

HYDROGEOLOGIC INFORMATION

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Site-Specific Hydrogeological Data*:

Search Radius:	1.25 miles
Status:	Not found

AQUIFLOW®

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

GROUNDWATER FLOW VELOCITY INFORMATION

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: DELHI

Soil Surface Texture: fine sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

Soil Layer Information							
	Boundary			Classification		Saturated hydraulic conductivity micro m/sec	Soil Reaction (pH)
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		
1	0 inches	18 inches	fine sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1
2	18 inches	59 inches	sand	Granular materials (35 pct. or less passing No. 200), Silty, or Clayey Gravel and Sand.	COARSE-GRAINED SOILS, Sands, Sands with fines, Silty Sand.	Max: 141 Min: 42	Max: 7.8 Min: 6.1

LOCAL / REGIONAL WATER AGENCY RECORDS

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

HYDROGEOLOGIC INFORMATION

AQUIFLOW^{R} Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations
Source: Department of Conservation
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

PHYSICAL SETTING SOURCE RECORDS SEARCHED

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

OTHER

Airport Landing Facilities: Private and public use landing facilities
Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater
Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

EDR Topographic Map Library has been searched by EDR and maps covering the target property location as provided by ATC Group Services LLC were identified for the years listed below. EDR's Historical Topo Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topo Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the late 1800s.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by ATC Group Services LLC were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

Certified Sanborn Results:

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through 2014. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

RE: FILE REVIEW

Dear Ms. Lucas:

Please commence a records search for any files that may exist for the following address(es) / site(s):

Juniper Avenue, Fontana, CA:
11011
11055
11097
11145
11193
11219
11229
11259

Jurupa Avenue, Fontan, CA
16716
16756
16798
16820

Please let us know as soon as possible when the search has been completed. Thank you for your prompt attention to this matter. Please feel free to call me if any questions should arise.

Sincerely,

Victoria Rojo

REQUEST FOR A CERTIFIED HAZARDOUS MATERIALS RECORDS SEARCH FINDING REPORT

The main focus of a REQUEST FOR A CERTIFIED HAZARDOUS MATERIALS RECORDS SEARCH FINDING REPORT is to determine whether there exists in San Bernardino County Fire Protection District (SBCFPD) any record relating to contamination or reports of spills at a particular site. A Certified Hazardous Materials Records Search Finding Report should reveal whether there are any facilities at the site that are subject to current or past regulatory activity by SBCFPD, such as underground storage tanks, hazardous material handlers, hazardous waste generators, and CalARP facilities, as well as any reports of spills, incidents, complaints, or cleanup activity, which can be a useful tool in providing a history of compliance or non-compliance.

Once SBCFPD has completed its records search, a Certified Hazardous Materials Records Search Finding Report will be prepared and issued. Such report will detail all SBCFPD records associated with a particular site by type, date, location, and status (where applicable). All files identified in a Certified Hazardous Materials Records Search Finding Report can be made available for copies and/or review upon request.

If the completed records search reveals no SBCFPD record of hazardous material activity at the site, a Certified Hazardous Materials Records Search Finding Report will be issued, noting that "no records" were identified.

Please provide a specific site address or location description. If a situs address does not exist or cannot be found, list another type of location identifier such as Assessor Parcel Number (preferable), cross streets or intersections (e.g., NWC 5th Ave. & Main St.), and/or legal description. If possible, please attach a map to this request form.

** IMPORTANT –THIS PAGE MUST BE SIGNED PRIOR TO SUBMITTAL **

DISCLAIMER: While all attempts are made to provide accurate, current, and reliable information, San Bernardino County Fire Protection District *(further referred to as SBDFPD)* recognizes the possibility of human error. Therefore, SBCFPD, its officers, employees, agents and volunteers, make no representations as to the accuracy, completeness or suitability of a Certified Hazardous Materials Records Search Finding Report and provides a Certified Hazardous Materials Records Search Finding Report "as is," with no warranties, express or implied, including the implied warranty of fitness for a particular purpose. In no event shall SBCFPD be liable for any damages of any nature whatsoever, arising out of the issuance of a Certified Hazardous Materials Records Search Finding Report. SBCFPD therefore assumes no liability for damages incurred directly or indirectly as a result of any errors, omissions or discrepancies in a Certified Hazardous Materials Records Search Finding Report.

RELEASE AND INDEMNIFICATION: In consideration for the issuance of a Certified Hazardous Materials Records Search Finding Report, I hereby release and forever discharge SBCFPD, its officers, employees, agents and volunteers from any and all claims, actions, losses, damages and/or liability in connection with SBCFPD's issuance of a Certified Hazardous Materials Records Search Finding Report, including, but not limited to, claims that may arise due to the active or passive negligence of SBCFPD, its officers, employees, agents and volunteers.

I am familiar with the provisions of California Civil Code Section 1542, which provides as follows:

"A general release does not extend to claims which the creditor does not know or suspect to exist in his or her favor at the time of executing the release, which if known by him or her must have materially affected his or her settlement with the debtor."

I hereby expressly waive any and all rights that I may have there under. I understand and acknowledge the significance and consequence of this specific waiver of California Civil Code Section 1542 and assume full responsibility for any injuries, damages, losses or liabilities that I may hereafter discover as possibly resulting from SBCFPD's issuance of a Certified Hazardous Materials Records Search Finding Report.

In further consideration for SBCFPD's issuance of a Certified Hazardous Materials Records Search Finding Report, I hereby agree, for myself, my heirs, administrators, executors and assigns, that I shall indemnify, defend (with counsel approved by County) and hold harmless SBCFPD, its officers, employees, agents and volunteers from any and all claims, demands, actions or suits arising out of or in connection with SBCFPD's issuance of a Certified Hazardous Materials Records Search Finding Report brought by any third party.

* * *

I have read the above terms and conditions, including the paragraphs entitled "DISCLAIMER" and "RELEASE AND INDEMNIFICATION", and by my signature below, I affirm that I understand these terms and conditions and accept them as part of my REQUEST FOR A CERTIFIED HAZARDOUS MATERIALS RECORDS SEARCH FINDING REPORT.

I hereby request a Certified Hazardous Materials Records Search Finding Report for the location described on Page 1 of this application.

- ☐ **I am including payment of the initial fee of $136.00, for the first hour of research, by check or money order, payable to San Bernardino County Fire Protection District, or by credit card payment taken over the phone. I understand that research exceeding one hour will be billed at the rate of $136.00 for each additional hour spent by SBCFPD in completing this request.**
- ☐ **I have faxed or emailed this request and will forward payment along with the original request form within 48 hours.**

* PLS CALL ME - I WILL PAY WITH CREDIT CARD

I hereby expressly waive any and all rights that I may have there under. I understand and acknowledge the significance and consequence of this specific waiver of California Civil Code Section 1542 and assume full responsibility for any injuries, damages, losses or liabilities that I may hereafter discover as possibly resulting from SBCFPD's issuance of a Certified Hazardous Materials Records Search Finding Report.

In further consideration for SBCFPD's issuance of a Certified Hazardous Materials Records Search Finding Report, I hereby agree, for myself, my heirs, administrators, executors and assigns, that I shall indemnify, defend (with counsel approved by County) and hold harmless SBCFPD, its officers, employees, agents and volunteers from any and all claims, demands, actions or suits arising out of or in connection with SBCFPD's issuance of a Certified Hazardous Materials Records Search Finding Report brought by any third party.

* * *

I have read the above terms and conditions, including the paragraphs entitled "DISCLAIMER" and "RELEASE AND INDEMNIFICATION", and by my signature below, I affirm that I understand these terms and conditions and accept them as part of my REQUEST FOR A CERTIFIED HAZARDOUS MATERIALS RECORDS SEARCH FINDING REPORT.

I hereby request a Certified Hazardous Materials Records Search Finding Report for the location described on Page 1 of this application.

- ☐ I am including payment of the initial fee of $136.00, for the first hour of research, by check or money order, payable to San Bernardino County Fire Protection District, or by credit card payment taken over the phone. I understand that research exceeding one hour will be billed at the rate of $136.00 for each additional hour spent by SBCFPD in completing this request.
- ☐ I have faxed or emailed this request and will forward payment along with the original request form within 48 hours.

* PLS. CALL ME - I WILL PAY WITH CREDIT CARD

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.

The Undersigned Grantor declares that no documentary transfer tax is due. This conveyance transfers the grantor's interest into his or her revocable living trust, Revenue and Taxation Code Section 11911.

QUITCLAIM DEED

EMILIO P. URANGA and MARIA E. URANGA hereby remise, release and quitclaim to EMILIO P. URANGA, SR. and MARIA E. URANGA as trustees of the EMILIO & MARIA URANGA LIVING TRUST 2000 dated December 20, 2000, all of their right, title and interest in and to the real property in the County of San Bernardino, State of California, described as follows:

The South half of the West half of Farm Lot No. 769, according to map showing subdivision of land belonging to the Semi-Tropic-Land and Water Company, City of Fontana, County of San Bernardino, State of California, as per Map Recorded in Book 11, Page 12 of Maps, in the office of the County Recorder of said County.

ASSESSOR'S PARCEL NUMBER: 0255-101-11
MORE COMMONLY KNOWN AS : 1193 Juniper Avenue, Fontana, California.

The above grantors are husband and wife and it is their intention to confirm this property as community property. This deed is given to accomplish that intent and mutual desire and wish that the above-described property be so vested in their Revocable Living Trust as their community property.

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

EDR Environmental Lien and AUL Search

The EDR Environmental Lien Search Report provides results from a search of available current land title records for environmental cleanup liens and other activity and use limitations, such as engineering controls and institutional controls.

A network of professional, trained researchers, following established procedures, uses client supplied address information to:

- search for parcel information and/or legal description;
- search for ownership information;
- research official land title documents recorded at jurisdictional agencies such as recorders' offices, registries of deeds, county clerks' offices, etc.;
- access a copy of the deed;
- search for environmental encumbering instrument(s) associated with the deed;
- provide a copy of any environmental encumbrance(s) based upon a review of key words in the instrument(s) (title, parties involved, and description); and
- provide a copy of the deed or cite documents reviewed.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

National Flood Hazard Layer FIRMette

FEMA

Legend

SEE FIS REPORT FOR DETAILED LEGEND AND INDEX MAP FOR FIRM PANEL LAYOUT

SPECIAL FLOOD HAZARD AREAS
- Without Base Flood Elevation (BFE) *Zone A, V, A99*
- With BFE or Depth *Zone AE, AO, AH, VE, AR*
- Regulatory Floodway

OTHER AREAS OF FLOOD HAZARD
- 0.2% Annual Chance Flood Hazard, Areas of 1% annual chance flood with average depth less than one foot or with drainage areas of less than one square mile *Zone X*
- Future Conditions 1% Annual Chance Flood Hazard *Zone X*
- Area with Reduced Flood Risk due to Levee. See Notes. *Zone X*
- Area with Flood Risk due to Levee *Zone D*

OTHER AREAS
- NO SCREEN Area of Minimal Flood Hazard *Zone X*
- Effective LOMRs
- Area of Undetermined Flood Hazard *Zone D*

GENERAL STRUCTURES
- Channel, Culvert, or Storm Sewer
- Levee, Dike, or Floodwall

OTHER FEATURES
- 20.2 / 17.5 Cross Sections with 1% Annual Chance Water Surface Elevation
- Coastal Transect
- 513 Base Flood Elevation Line (BFE)
- Limit of Study
- Jurisdiction Boundary
- Coastal Transect Baseline
- Profile Baseline
- Hydrographic Feature

MAP PANELS
- Digital Data Available
- No Digital Data Available
- Unmapped

N

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 8/26/2019 at 3:17:05 PM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:24,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL:
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: San Bernardino County Southwestern Part, California
Survey Area Data: Version 10, Sep 12, 2018

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Apr 1, 2018—Jun 30, 2018

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Legend

Map Unit Symbol	Map Unit Name	Acres in AOI	Percent of AOI

FONTANA WATER COMPANY
-CONSUMER CONFIDENCE REPORT-
-YEAR 2018-

This report contains important information about your drinking water.
If necessary, speak to someone who understands it for translation.
Este informe contiene información muy importante sobre su agua potable.
Si necesario, hable con alquien que lo entienda para que se lo traduzcan.

The sources of water provided to Fontana Water Company's customers were approximately 60% groundwater, 6% local surface water, and 34% water from the State Water Project. Groundwater is produced from the Chino Basin, Rialto Basin, Lytle Basin, and an unnamed basin. Local surface water from Lytle Creek and imported surface water from the State Water Project are treated at Fontana Water Company's Sandhill Water Treatment Plant.

All water samples are collected by state-certified employees of the water company. Samples are analyzed by state-certified independent laboratories and the results are forwarded to the State Water Resources Control Board, Division of Drinking Water. The following report provides detailed information about the quality of the water delivered to customers. The water supplied by Fontana Water Company complies with all state and federal safe drinking water standards and regulations.

DETECTED WATER QUALITY CONSTITUENTS - GROUNDWATER

Primary Standards

Microbiological	*Units*	*PHG (MCLG)*	*MCL*	*Highest Percentage of Positive Samples Collected*		*Sample Year*	*Likely Source of Detected Constituent*

Total Coliform Bacteria	%	(0)	5% **(a)**	0.00%	2018	Naturally present in the environment

Inorganics

Fluoride	ppm	1	2	ND - 0.16	0.08	2018	Erosion of natural deposits; discharge from fertilizer and aluminum factories
Nitrate (as Nitrogen)	ppm	10	10	ND - 0.59	0.38	2018	Runoff and leaching from fertilizer use; leaching from septic tanks and sewage; erosion of natural deposits

Secondary Standards (Aesthetic Standards)

Aluminum	ppb	NS	1,000	ND - 80.00	40.00	2018	Erosion of natural deposits; residue from water treatment plant processes.
Chloride	ppm	NS	500	47.00 - 88.00	67.50	2018	Runoff and leaching from natural deposits; seawater influence
Color	units	NS	15	ND - 10.00	0.27	2018	Naturally-occurring organic materials
Odor-Threshold	units	NS	3	1.00 - 2.00	1.16	2018	Naturally-occurring organic materials
Specific Conductance	µmho/cm	NS	1,600	420.00 - 490.00	455.00	2018	Substances that form ions when in water; seawater influence
Sulfate	ppm	NS	500	28.00 - 31.00	29.50	2018	Runoff and leaching from natural deposits; industrial wastes
Total Dissolved Solids	ppm	NS	1,000	240.00 - 270.00	255.00	2018	Runoff and leaching from natural deposits

Additional Constituents (Unregulated)

Total Hardness (CaCO3)	ppm	NS	NS	95.90 - 124.00	109.95	2018	Unknown
Bicarbonate (HCO3)	ppm	NS	NS	78.00 - 180.00	102.73	2018	Unknown
Bromodichloromethane	ppb	NS	NS	8.40 - 11.00	9.63	2018	Unknown
Bromoform	ppb	NS	NS	2.00 - 11.00	5.77	2018	Unknown
Calcium	ppm	NS	NS	19.40 - 34.20	26.80	2018	Unknown
Chloroform	ppb	NS	NS	3.40 - 18.00	8.15	2018	Unknown
Dibromochloromethane	ppb	NS	NS	5.90 - 15.00	11.07	2018	Unknown
Magnesium	ppm	NS	NS	9.35 - 11.50	10.43	2018	Unknown
pH	units	NS	NS	7.90 - 8.18	8.04	2018	Unknown
Potassium	ppm	NS	NS	2.60 - 2.90	2.75	2018	Unknown
Sodium	ppm	NS	NS	31.00 - 53.00	42.00	2018	Runoff and leaching from natural deposits
Total Organic Carbon	ppm	NS	NS	0.36 - 2.30	1.73	2018	Runoff and leaching from natural deposits

DETECTED WATER QUALITY CONSTITUENTS - SYSTEM WIDE

Disinfectant / Disinfection By-Product

Water Quality Constituent	Units	PHG (MCLG) [MRDLG]	MCL [MRDL]	Range	Average	Sample Year	Likely Source of Detected Constituent
Total Trihalomethanes	ppb	NS	80	ND - 66.00	52.00	2018	By-product of drinking water disinfection
Haloacetic Acids	ppb	NS	60	ND - 19.00	14.00	2018	By-product of drinking water disinfection
Chlorine Residual	ppm	4	4	0.20 - 1.45	0.57	2018	Drinking water disinfectant added for treatment

Lead and Copper Monitoring

Water Quality Constituent	Units	Regulatory Action Level (c)	Sample Year	90th Percentile	Number Of Samples Exceeding The Action Level	Likely Source of Detected Constituent
Lead	ppb	15	2018	ND	0	Internal corrosion of household water plumbing systems; discharges from industrial manufacturers; and erosion of natural deposits
Copper	ppb	1,300	2018	160	0	Internal corrosion of household water plumbing systems; erosion of natural deposits; leaching from wood preservatives

Lead Monitoring for Schools

Water Quality Constituent	Units	Action Level	Sample Year	Range	Average	Number of Schools requested Lead Sampling	Likely Source of Detected Constituent
Lead	ppb	15	2018	ND - 12	0.34	44	Internal corrosion of household water plumbing systems; discharges from industrial manufacturers; and erosion of natural deposits

Pursuant to Title 22 of the California Code of Regulations, Lead and Copper monitoring for the Fontana Water Company system was completed in 2018 with the collection of 50 samples. The next sampling event will commence in September 2021. In 2018 forty-four schools requested lead sampling. Of the forty-four schools sampled three exceeded the action level of 15 ppb . The three schools were resampled two additional times for confirmation of an exceedance. All comfirmation sample results were below the action level, and no further action was required.
