

Note: This map is intended for general land use planning only. Information on this map is not sufficient to serve as a substitute for detailed geological investigations of individual sites. All faults may not be shown. The width and location of faults is approximate and should not be used in lieu of site-specific investigations, evaluation and design.

SEISMIC HAZARD ZONES

- Alquist-Priolo Earthquake Fault
- Fault; not zoned under the Alquist-Priolo Act
- ▨ Alquist-Priolo Earthquake Fault Zone
- Earthquake-Induced Slope Instability**
- Rock Falls
- Rock Slides
- Soil Falls
- Soil Slides
- Soil Slumps
- Liquefaction Susceptibility**
- Low - Areas underlain by coarse-grained Holocene age sediments, groundwater depth > 100' or unknown
- Very Low - Areas underlain by coarse-grained Pleistocene age sediments, groundwater depth > 100' or unknown
- Town Limits
