Exempt Status: As the Lead Agency, the Geologic Energy Management Division (CalGEM) has determined that the proposed project is exempt from further environmental review requirements of the California Environmental Quality Act (CEQA), pursuant to the specified exemptions marked in the section below. CalGEM further finds that the proposed project would not result in a significant adverse impact to the environment, or that any of the exceptions to the exemptions apply (14 CCR 15300.2).

<u>CEQA Exceptions to the Exemptions (14 CCR 15300.2)</u>: where project is located (e.g. sensitive environment); Cumulative Impact; Significant Effect due to Unusual Circumstances; Scenic Highways; Hazardous Waste Sites; Historical Resources.

> <u>Reasons Why Project is Exempt:</u>

The basis for CalGEM's determination that the project is exempt from the requirements of CEQA is provided in the brief explanation below.

15261(b) - **Ongoing Project:** The project is statutorily exempt from CEQA under the Ongoing Project exemption (PRC 21169; 14 CCR 15261(b)) because CalGEM identified administrative boundaries of the Cymric oil & gas field that were approved prior to April 5, 1973 (pre-CEQA). CalGEM permit approvals for oil & gas activities within this field occurred before April 5, 1973 and those permit approvals occurring after that date do not involve a greater degree of responsibility or control over the project as a whole than did the prior approvals.

Class 1 – Existing Facility: The project is categorically exempt from CEQA under the "Class 1" (14 CCR §15301) exemption per the CEQA Guidelines and per CalGEM's regulations (14 CCR §1684.1) because the wells will be installed within an existing oil field and involves no expansion of use of the oil field.

Class 4 – Minor Alterations to Land: The project is categorically exempt from CEQA under the "Class 4" (14 CCR 15304) exemption per the CEQA Guidelines because the project involves the minor alteration of the condition of land and/or vegetation within a densely developed oil field and does not require the removal of healthy, mature scenic trees.

Exceptions to Exemptions: CalGEM further finds that there are no exceptions to the otherwise-applicable categorical exemptions (PRC §21084; 14 CCR 15300.2(c)). There is no substantial evidence that there are any "unusual circumstances" associated with the proposed project that create a reasonable possibility that the activity will have a significant effect on the environment, and that there is no significant "cumulative impacts" resulting from successive projects of the same type in the same place. Therefore, this project is not subject to CEQA.
