## Project Description:

The Project includes the installation and operation of three agricultural supply wells that will serve as a backup water supply during times of drought. Each well will be constructed in a 26-inch borehole to an approximate depth of 300 feet using 16-inch diameter steel casing and screen. Each well will be completed with a small concrete pad at the surface and fitted with electrical line-shaft turbine pump. Electrical service will be extended to each well location, and a fenced enclosure, measuring
