Present Land Use/Zoning/General Plan Designation:

GP: Residential - Environmentally Sensitive Area (R-ESA); Zoning: Special Conservation Planning-5 (SCP-5)

Project Description: *(please use a separate page if necessary)*

The Town of Woodside proposes to replace the Portola Road Bridge (Bridge Number 35C0055) with an 81.5-foot long by 30-foot wide two-span prestressed precast concrete bridge. Due to right-of-way constraints, the bridge would be configured with two 10-foot lanes, a 5-foot eastbound sidewalk, an approximately 2-foot wide westbound shoulder, and concrete barriers on both sides. The project is located within the Alambique Creek Town-Designated Stream Corridor, and therefore requires a Conditional Use Permit. The purpose of this project is to rehabilitate or replace the bridge to improve safety and longevity for vehicular and non-vehicular traffic. Eight trees (1 redwood, 3 Douglas fir, and 4 California bays) would be removed to construct the project.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X".
If you have already sent your document to the agency please denote that with an "S".
