EL CAMINO REAL ROADWAY RENEWAL

Project Description

The California Department of Transportation (Caltrans) proposes to rehabilitate the roadway, address drainage problems, and upgrade existing curb ramps and sidewalks to current Americans with Disabilities Act (ADA) standards from post-mile (PM) 12.3 to PM 15.9 on State Route (SR) 82 in the cities of San Mateo, Burlingame, Millbrae, and the Town of Hillsborough in San Mateo County.

The proposed improvements include replacing 3.5 miles of existing roadway pavement structural section, replacing existing drainage inlets and pipe culverts, replacing 5.5-miles of existing sidewalk, reconstructing or installing up to 188 curb ramps, upgrading pedestrian push button assemblies by installing Accessible Pedestrian Signal (APS) systems and countdown pedestrian signal (CPS) systems, and refreshing crosswalks with high visibility pavement markings.

Project Location

The project is located in San Mateo County along El Camino Real (SR 82) from East Santa Inez Avenue to Millbrae Avenue in the jurisdictions of San Mateo, Hillsborough, Burlingame and Millbrae.

Potential Environmental effects

Based on preliminary surveys and information, Caltrans identified the following main subject areas for analysis in the EIR. The scope of environmental analysis could be modified based on input from this Notice of Preparation and project scoping.

- Aesthetics
- Biological Resources
- Cultural Resources
- Hydrology/Water Quality
- Land Use/Planning
- Tribal Cultural Resources
- Utilities/Service Systems
- Mandatory Findings of Significance
- Construction-related air quality, noise, and greenhouse gas emissions

Based on the environmental setting and project type, the following topics are not anticipated to be included in the EIR:

- Agriculture and Forestry Resources
- Long-Term Air Quality
- Long-Term Greenhouse Gas Emissions
- Hazards & Hazardous Materials
- Mineral Resources
- Long-Term Noise
- Population/Housing
- Public Services
- Recreation
- Transportation
- Wildfire
