**EL CAMINO
REAL ROADWAY
RENEWAL**

“

I'm glad to see this scoping work underway and think you have some great ideas in the works.

“

For walking, I would recommend sidewalk separation from road.

“

I applaud the work on this project.

“

I support placing utilities underground for their aesthetics and to improve fire and storm resilience.

“

“

“

Scoping Out the Alternatives

The Caltrans team has new information to share about the **EL CAMINO REAL ROADWAY RENEWAL PROJECT**. We've taken some time to carefully consider the many thoughtful comments received from the community in recent months, and we now would like to open our virtual doors once again to get your feedback on a variety of alternatives being considered for this project. We will provide a series of short video presentations, a poster gallery, and a public forum feature that will allow you to view what your neighbors have to say about El Camino Real.

Your feedback is critical to our process!

We hope you'll visit us at our virtual public forum **between November 16 and December 17, 2020**, to join the conversation about this important project.
