Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Cove Borrow Pit	
Lead Agency: San Bernardino County	
Contact Name: Steven Valdez	
Email: Steven.Valdez@lus.sbcounty.gov	Phone Number: 909-387-4421
Project Location: Lucerne Valley	San Bernardino
City	County
Project Description (Proposed actions, location, and/or conseque	ences).
San Bernardino County, DPW is submitting an application for a Plan for the Cove Borrow Pit. The purpose of this application is a 100-year period to provide general fill material for various DPV DPW is proposing to mine 14.7 acres on the mostly undisturbed annually remove up to 1,000 cy. The reclaimed end use of the P maintenance and storage yard.	to permit Cove Borrow Pit on approximately 36 acres for V Sites for annual maintenance and/or emergencies. I hillside slopes in the southwest portions of the site to

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The proposed project does not have the potential to significantly adversely affect humans, either directly or indirectly, once mitigation measures are implemented. Mitigation Measures are necessary for Biological Resources, Cultural Resources, Geologic Resources, and Tribal Cultural Resources. The project would require survey of project area as mitigation for the golden eagle, desert tortoise, burrow owl and nesting birds to ensure biological resources are not impacted. The project would require archaeological and paleontological monitoring if cultural resources and/or paleontological resources are encountered. Mitigation is also in place to ensure in the event human remains are discovered, County of San Bernardino Coroner will be notified. The Coroner will contact the Native American Heritage Commission (NAHC) in the event that remains are determined to be human and of Native American origin. Additionally, the project would require all ground disturbance to be limited to the southwest of the project area to ensure impacts to Geological Resources are less than significant. The project would require Project-Specific consultations conducted with the NAHC and various Tribal entities in association with AB52, SB18, and/or any other legal guidelines relating to Native American consultations if Tribal Cultural Resources are encountered during ground-disturbing activities. Mitigation is also in place to ensure in the event Native American human remains are discovered, appropriate Native American tribes would be notified.
