Summary Form for Electronic Document Submittal

2020070069

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: City of Santa Barbara Community Wildfire Protection Plan	
_ead Agency: City of Santa Barbara	
Contact Name: Amber Anderson	
Email:santabarbaraca.gov	Phone Number: <u>805-564-5720</u>
Project Location: City of Santa Barbara // County of Santa Barbara	
City	County
Project Description (Proposed actions, location, and/or consequences).	
The City of Santa Barbara Fire Department (SBFD) is proposing to imple Wildfire Protection Plan (CWPP) to protect lives, property, and natural resproposed CWPP updates the City's 2004 Wildland Fire Plan accounting for environment and work completed under that 2004 Wildland Fire Plan. The policies, and actions that represent a compilation of existing and newly pland standards, funding, fire rehabilitation, evacuation, fire protection, vegeducation.	sources threatened by wildland fire. The for changes in the City of Santa Barbara's fire e proposed CWPP includes various goals, roposed policies and actions related to codes

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The CWPP Draft PEIR identifies that the project would result in no impact or a less than significant impact in the following environmental impact categories: land use and planning, population and housing, transporation, public services and utilities. With the incorporation of mitigation measures identified in the Draft PEIR, the potentially significant impacts of the project in the following categories would be reduced below a level of significance: cultural resources, geology and soils, hazards and hazardous materials, hydrology and water quality, noise, tribal cultural resources, and wildfire. The Draft PEIR identifies that the project would have cumulatively significant and unavoidable impact even with the incorporation of mitigation measures in the following environmental impact categories: aesthetics, air quality, and biological resources. Agriculture and forestry resources, energy and mineral resources were dismissed by the CWPP initial study from further consideration in the PEIR.

Pursuant to CEQA Guidelines Section 15123(b)(2), a lead agency is required to identify known areas of controversy associated with the project covered in an EIR, including those raised by agencies and the public during the scoping process. Multiple stakeholders commented on concern about potential insurance increases due to being located within CWPP High Fire Hazard Area. The Planning Commission also expressed concern limitations on housing. As noted above, population and housing is considered in this PEIR as a result of these areas of controversy.	l
Provide a list of the responsible or trustee agencies for the project.	
California Department of Forestry and Fire Protection, California Department of Fish and Wildfire.	

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by
