32161 Avenida Los Amigos
San Juan Capistrano, CA 92675

Re: Ball Western Apartments Project in the City of Anaheim – Notification per
Senate Bill 18 (SB 18)

Dear Matias Belardes:

The City of Anaheim has initiated the preparation of an Initial Study pursuant to California Environmental Quality Act (CEQA) for the Ball Road Apartment Project located on 0.36 acres at 3175 West Ball Road in the City of Anaheim, Orange County (see enclosed map of the project site).

The Applicant proposes an 11-unit, 3-story apartment building consisting of a parking garage on the ground floor with 28 parking spaces, and two residential stories above. There would be all two-bedroom units (876 to 914 square feet). Vehicular ingress to the parking garage would be from a one-way driveway off Ball Road, and egress from a one-way driveway onto Western Avenue. Project amenities include an interior common court area and a recreation room.

The site was formerly an E-Z Serve Station. Three gasoline and one waste oil underground storage tanks (USTs) were removed from the property in 1988, and it was found to have leaked petroleum hydrocarbon contamination into the soil. Remediation activities were performed on the site as detailed in the Case Closure Summary. The case was closed in 2012, with the requirement that a vapor human health risk assessment be performed if there is a change in land use to a residential or more restrictive use than the Commercial-General designation. A vapor human health risk assessment was completed in 2017.

This project would require a General Plan Amendment, zoning reclassification, and conditional use permit approvals.

As part of the City's responsibilities pursuant to Senate Bill 18 and Government Code 65352.3, local Native American tribes must be notified of any General Plan Amendment request for the purpose of offering a consultation to protect any cultural resources that may exist in the planning area. Your tribe is on the Native American Heritage Commission (NAHC)'s list of tribes to be notified for Orange County.

Your tribal group is invited to contact the City of Anaheim and participate in SB 18 consultation with the City regarding the proposed project. If your tribal group wishes to consult with the City about any cultural resources located in the project area, please contact me within the next 90 days. Apart from a cultural resource consultation, please also contact me if you would like to be notified of public hearings for the proposed project.

If you have any questions or need additional information, please contact me at 714-765-5238 or irincon@anaheim.net.

Sincerely,

A handwritten signature in black ink, consisting of a stylized 'I' and 'R' with a horizontal line extending to the right.

Valley Center, CA 92082

Re: Ball Western Apartments Project in the City of Anaheim – Notification per
Senate Bill 18 (SB 18)

Dear Allen E. Lawson:

The City of Anaheim has initiated the preparation of an Initial Study pursuant to California Environmental Quality Act (CEQA) for the Ball Road Apartment Project located on 0.36 acres at 3175 West Ball Road in the City of Anaheim, Orange County (see enclosed map of the project site).

The Applicant proposes an 11-unit, 3-story apartment building consisting of a parking garage on the ground floor with 28 parking spaces, and two residential stories above. There would be all two-bedroom units (876 to 914 square feet). Vehicular ingress to the parking garage would be from a one-way driveway off Ball Road, and egress from a one-way driveway onto Western Avenue. Project amenities include an interior common court area and a recreation room.

The site was formerly an E-Z Serve Station. Three gasoline and one waste oil underground storage tanks (USTs) were removed from the property in 1988, and it was found to have leaked petroleum hydrocarbon contamination into the soil. Remediation activities were performed on the site as detailed in the Case Closure Summary. The case was closed in 2012, with the requirement that a vapor human health risk assessment be performed if there is a change in land use to a residential or more restrictive use than the Commercial-General designation. A vapor human health risk assessment was completed in 2017.

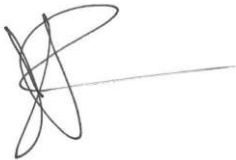

This project would require a General Plan Amendment, zoning reclassification, and conditional use permit approvals.

As part of the City's responsibilities pursuant to Senate Bill 18 and Government Code 65352.3, local Native American tribes must be notified of any General Plan Amendment request for the purpose of offering a consultation to protect any cultural resources that may exist in the planning area. Your tribe is on the Native American Heritage Commission (NAHC)'s list of tribes to be notified for Orange County.

Your tribal group is invited to contact the City of Anaheim and participate in SB 18 consultation with the City regarding the proposed project. If your tribal group wishes to consult with the City about any cultural resources located in the project area, please contact me within the next 90 days. Apart from a cultural resource consultation, please also contact me if you would like to be notified of public hearings for the proposed project.

If you have any questions or need additional information, please contact me at 714-765-5238 or irincon@anaheim.net.

Sincerely,

Re: SB 18 Consultation (Government Code Section 65352.3) Ball Western Apartments Project

Dear Ignacio Rincon,

Please find this letter as a written request for consultation regarding the above-mentioned project pursuant to Senate Bill 18 (SB 18) Government Code Section 65352.3. Your project lies within our ancestral tribal territory, meaning descending from, a higher degree of kinship than traditional or cultural affiliation. Your project is located within a sensitive area and may cause a substantial adverse change in the significance of our tribal cultural resources. Most often, a records search for our tribal cultural resources will result in a "no records found" for the project area. The Native American Heritage Commission, ethnographers, historians, and professional archaeologists can only provide limited information that has been previously documented about California Native Tribes. This is the reason the Native American Heritage Commission (NAHC) will always refer the lead agency to the respective Native American Tribe of the area because the NAHC is only aware of general information and are not the experts on each California Tribe. Our Elder Committee & tribal historians are the experts for our Tribe and are able to provide a more complete history (both written and oral) regarding the location of historic villages, trade routes, cemeteries and sacred/religious sites in the project area. Therefore, to avoid adverse effects to our tribal cultural resources, we would like to consult with you and your staff to provide you with a more complete understanding of the prehistoric use(s) of the project area and the potential risks for causing a substantial adverse change to the significance of our tribal cultural resources.

Consultation appointments are available on Wednesdays and Thursdays at our offices at 901 N. Citrus Ave. Covina, CA 91722 or over the phone. Please call toll free 1-844-390-0787 or email gabrielenoindians@yahoo.com to schedule an appointment.

Hello Andy

Mr. Salas has agreed to the mitigations for this project, therefore the AB52 and SB18 consultation will be concluded.

Thank you

Sincerely,

Brandy Salas

The region where Gabrieleno culture thrived for more than eight centuries encompassed most of Los Angeles County, more than half of Orange County and portions of Riverside and San Bernardino counties.

It was the labor of the Gabrieleno who built the missions, ranchos and the pueblos of Los Angeles. They were trained in the trades, and they did the construction and maintenance, as well as the farming and managing of herds of livestock.

“The Gabrieleno are the ones who did all this work, and they really are the foundation of the early economy of the Los Angeles area “. “That’s a contribution that Los Angeles has not recognized--the fact that in its early decades, without the Gabrieleno, the community simply would not have survived.”

Thank you Brandy,

Will you then please confirm, so we have on record that the mitigation measures are approved and applicable for AB52 and SB18 consultation?

Good morning Brandy,

I hope you had a wonderful weekend.

Please see the attached mitigation measure language.

Thank you,

California's current directive to stay at home, except for essential exceptions, is in effect until further notice. Anaheim City Hall and other City facilities are currently closed to the public. The City is following the State's directive and will continue to provide updates on the public reopening of City Hall, libraries, community centers and other places as they come available. During this closure, Anaheim staff will continue to provide service to our residents and businesses. Please click [here](#) or visit <https://www.anaheim.net/5464/City-Hall-Services-During-Coronavirus> for City Hall services in this unique time.

Hi Brandy,

I just sent an email regarding consultation for “The Invitation” project – similarly for this one... the City has previous mitigation measures written out on file, from previous projects that could apply to this particular project as well. I can provide you the language via email and we can communicate back and forth until we reach something sufficient – this could also count as a formal consultation. Again, let me know what you think.

Thank you,

Andy T. Uk

Brandy, I just want to clarify, the other email was in regards to a different project. For this project, can you give me an availability? Since, I asked for a scheduled consultation for June 4th at 1 PM for the "Invitation" project. Would you be able to schedule a consultation for "Ball Western Apartments" on the same day, but different time?

Hi Brandy,

I am now managing the CEQA process for this project that has been on-going before my venture here with the City, so forgive me if I miss some details. Upon reviewing the documentation I have, it is unclear whether or not the City has consulted, let alone scheduled a consultation regarding this project with your tribe. It is clear however, that you have expressed interest in conducting a consultation with the City and this particular project, at least for SB 18. Please see the attached document that was sent to the City previously. AB 52 consultation letters were never sent, as far as I am aware of. Those letters will be sent out in the very near future.

Since you've already requested consultation for SB 18 and I assume you will want to consult for AB 52, I would like to follow up with you and your tribe to schedule a consultation time/date for this proposed project, regarding both SB 18 and AB 52.

Thank you,

Andy T. Uk
