Mr. Marc Lebanoff
Lebanoff Development Group
18301 Irvine Boulevard, #106
Tustin, California 92780

Subject: Phase I Environmental Site Assessment
Slover Avenue
16726 Slover Avenue
Fontana, California 92337
Partner Project No. 20-282338.1

Dear Mr. Lebanoff:

Partner Engineering and Science, Inc. (Partner) is pleased to provide the results of the *Phase I Environmental Site Assessment* (Phase I ESA) report of the abovementioned address (the "subject property"). This assessment was performed in conformance with the scope and limitations as detailed in the ASTM Practice E1527-13 Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.

This assessment included a site reconnaissance as well as research and interviews with representatives of the public, property ownership, site manager, and regulatory agencies. An assessment was made, conclusions stated, and recommendations outlined.

We appreciate the opportunity to provide environmental services to you. If you have any questions concerning this report, or if we can assist you in any other matter, please contact me at (619) 757-1119.

Sincerely,

Mark Lambson

Mark Lambson
Principal

# EXECUTIVE SUMMARY

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in accordance with the scope of work and limitations of ASTM Standard Practice E1527-13, the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) and set forth by Lebanoff Development Group for the property located at 16726 Slover Avenue in Fontana, San Bernardino County, California (the "subject property"). The Phase I Environmental Site Assessment is designed to provide Lebanoff Development Group with an assessment concerning environmental conditions (limited to those issues identified in the report) as they exist at the subject property.

**Property Description**

The subject property is located on the northeast corner intersection of Slover Avenue and Juniper Avenue within a mixed undeveloped and residential area of San Bernardino County. Please refer to the table below for further description of the subject property:

| ***Subject Property Data*** | |
|---|---|
| **Address(es):** | 16726 Slover Avenue, Fontana, California |
| **Property Use:** | Vacant unoccupied (Residential) |
| **Land Acreage (Ac):** | 2.14 Acres |
| **Number of Buildings:** | Two |
| **Number of Floors:** | One |
| **Gross Building Area (SF):** | Approximately 1,600 SF (Total) |
| **Date of Construction:** | Circa 1928 (Per City of Fontana) |
| **Assessor's Parcel Number (APN):** | 0251-203-09-0000 |
| **Type of Construction:** | Wood-Framed |
| **Current Tenants:** | Vacant unoccupied |
| **Site Assessment Performed By:** | Ramiro Vejar of Partner |
| **Site Assessment Conducted On:** | June 3, 2020 |

The subject property is currently developed with one dwelling and one detached garage structure which were observed as boarded up and vacant unoccupied during the site reconnaissance. Two concrete pads were also observed north of the structures. Unpaved areas and areas covered with wood chips were observed throughout. The subject property is to be redeveloped and currently designated as a commercial zone by the City of Fontana.

According to available historical sources, the subject property was formerly undeveloped as early as 1896; developed with the current dwelling and associated historical outbuildings which were surrounded by agricultural orchards between 1928 and circa 1953; undeveloped land surrounding the current dwelling and historical outbuildings from at least 1959 to 1967; and developed with the current dwelling and garage structure occupied for residential use from 1975 to 2017. Tenants on the subject property have included residents (1928-2017).

The immediately surrounding properties consist of residences to the north; unimproved vacant land and residences to the south across Slover Avenue; Capri Mobile Estates to the east; and unimproved vacant land and residences to the west across Juniper Avenue.

Based on information obtained from the State Water Resources Control Board (SWRCB) Geotracker website and topographic map interpretation, the depth to groundwater in the vicinity of the subject property is inferred to be approximately 226 to 330 feet below ground surface (bgs) and groundwater flow is inferred to be toward the southwest.

**Findings**

A *recognized environmental condition (REC)* refers to the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: due to release to the environment; under conditions indicative of a release to the environment; or under conditions that pose a material threat of a future release to the environment. The following was identified during the course of this assessment:

- Partner did not identify any recognized environmental conditions during the course of this assessment.

A *controlled recognized environmental condition (CREC)* refers to a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls. The following was identified during the course of this assessment:

- Partner did not identify any controlled recognized environmental conditions during the course of this assessment.

A *historical recognized environmental condition (HREC)* refers to a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls. The following was identified during the course of this assessment:

- Partner did not identify any historical recognized environmental conditions during the course of this assessment.

An *environmental issue* refers to environmental concerns identified by Partner, which do not qualify as RECs; however, warrant further discussion. The following was identified during the course of this assessment:

- During the site reconnaissance, the subject property was developed with a dwelling and detached garage structure which were boarded up and vacant. According to City of Fontana building records, a septic system was permitted to be filled and abandoned just north of the dwelling. Two concrete pads were observed on the subject property, and the remaining area was unpaved and/or covered with wood chips. The use of these foundations is presumably associated with historical storage sheds at the subject property. Based on the residential use of the property, the former septic system is not expected to represent a significant environmental concern.
- Approximately one dozen used automotive oil filters were observed on the ground surface in an unpaved area northeast of the garage structure. The oil filters were partially buried beneath the wood chips. The exact source of these materials is unknown. Based on the historical use of the

subject property for residential occupancy, it is unknown if the oil filters were illegally dumped or accumulated during historical private property use. The used oil filters should be recycled at a used oil or household hazardous waste collection center. Although the potential to encounter additional dumped materials cannot be definitively ruled out, the materials observed during the site reconnaissance appear to represent a de minimis condition based on the minor quantity observed and the absence of stained soil or evidence of significant release.

- The subject property was historically used for agricultural purposes from as early as 1938 until at least 1953. Typical agricultural chemicals used from the 1940s through the 1950s included organochlorine pesticides (OCPs) such as DDT, methoxychlor, dieldrin, chlordane, and benzene hexachloride. It is unknown if environmentally persistent pesticides and/or herbicides were historically applied to the crops grown on the subject property. No specific areas of concern related to agricultural chemical storage and usage at the subject property have been identified during the course of this assessment. The subject property does not appear to have been excavated or redeveloped since the agricultural use; therefore, the potential exists that these chemicals are still present within the surficial soils. During grading activities, the soils are typically disturbed, shifted, and redistributed. Also, it is common that engineered fill material is placed over underlying soils as part of the development activities. These additional variables serve to reduce the potential for exposure to residual agricultural chemicals (if any). Based on these reasons and the proposed redevelopment for commercial use, Partner concludes that the possible former use of agricultural chemicals is not expected to represent a significant environmental concern at this time.
- Due to the age of the subject property buildings (circa 1927 and 1975), there is a potential that asbestos-containing materials (ACMs) and/or lead-based paint are present. Partner was not granted access to the building interiors as they were abandoned and boarded up; therefore, a visual assessment of suspect asbestos containing materials (ACMs) and painted surfaces could not be completed in the interior areas. Prior to the disturbance of any suspect ACM or LBP at the subject property, a comprehensive survey, designed to determine if the suspect materials are regulated, is recommended. If such materials are identified and need to be disturbed, repaired or removed, a licensed abatement contractor should be consulted.

**Conclusions, Opinions and Recommendations**

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 of 16726 Slover Avenue in Fontana, San Bernardino County, California (the "subject property"). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of recognized environmental conditions in connection with the subject property; however, environmental issues were identified. Based on the conclusions of this assessment, Partner recommends the following:

- The observed used oil filters should be recycled at a used oil or household hazardous waste collection center. The minor debris observed on the ground surface during the site

reconnaissance appears to represent a de minimis condition. However, if previously unknown impacted soil or dumped materials are encountered during future redevelopment activities, it should be handled and disposed of in accordance with applicable regulations, which may require sampling.

- If redevelopment of the subject property is planned for residential use, sampling related to the former agricultural use is recommended.
- Prior to the disturbance of any suspect ACM or LBP at the subject property, a comprehensive survey, designed to determine if the suspect materials are regulated, is recommended. If such materials are identified and need to be disturbed, repaired or removed, a licensed abatement contractor should be consulted. If the current structures are to be occupied in the future, an Operations and Maintenance (O&M) Program may be implemented in order to manage suspect ACMs and/or LBP in place at the subject property until removal is dictated by renovation, demolition, or deteriorating material condition.

# 1.0 INTRODUCTION

Partner Engineering and Science, Inc. (Partner) has performed a Phase I Environmental Site Assessment (ESA) in conformance with the scope and limitations of ASTM Standard Practice E1527-13 and the Environmental Protection Agency Standards and Practices for All Appropriate Inquiries (AAI) (40 CFR Part 312) for the property located at 16726 Slover Avenue in Fontana, San Bernardino County, California (the "subject property"). Any exceptions to, or deletions from, this scope of work are described in the report.

## 1.1 Purpose

The purpose of this ESA is to identify existing or potential Recognized Environmental Conditions (as defined by ASTM Standard E1527-13) affecting the subject property that: 1) constitute or result in a material violation or a potential material violation of any applicable environmental law; 2) impose any material constraints on the operation of the subject property or require a material change in the use thereof; 3) require clean-up, remedial action or other response with respect to Hazardous Substances or Petroleum Products on or affecting the subject property under any applicable environmental law; 4) may affect the value of the subject property; and 5) may require specific actions to be performed with regard to such conditions and circumstances. The information contained in the ESA Report will be used by Client to: 1) evaluate its legal and financial liabilities for transactions related to foreclosure, purchase, sale, loan origination, loan workout or seller financing; 2) evaluate the subject property's overall development potential, the associated market value and the impact of applicable laws that restrict financial and other types of assistance for the future development of the subject property; and/or 3) determine whether specific actions are required to be performed prior to the foreclosure, purchase, sale, loan origination, loan workout or seller financing of the subject property.

This ESA was performed to permit the *User* to satisfy one of the requirements to qualify for the innocent landowner, contiguous property owner, or bona fide prospective purchaser limitations on scope of Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C. §9601) liability (hereinafter, the "*landowner liability protections*," or "*LLPs*"). ASTM Standard E1527-13 constitutes "*all appropriate inquiry* into the previous ownership and uses of the *property* consistent with good commercial or customary practice" as defined at 42 U.S.C. §9601(35)(B).

## 1.2 Scope of Work

The scope of work for this ESA is in accordance with the requirements of ASTM Standard E1527-13. This assessment included: 1) a property and adjacent site reconnaissance; 2) interviews with key personnel; 3) a review of historical sources; 4) a review of regulatory agency records; and 5) a review of a regulatory database report provided by a third-party vendor. Partner contacted local agencies, such as environmental health departments, fire departments and building departments in order to determine any current and/or former hazardous substances usage, storage and/or releases of hazardous substances on the subject property. Additionally, Partner researched information on the presence of activity and use limitations (AULs) at these agencies. As defined by ASTM E1527-13, AULs are the legal or physical restrictions or limitations on the use of, or access to, a site or facility: 1) to reduce or eliminate potential exposure to hazardous substances or petroleum products in the soil or groundwater on the subject property; or 2) to prevent activities that could interfere with the effectiveness of a response action, in

order to ensure maintenance of a condition of no significant risk to public health or the environment. These legal or physical restrictions, which may include institutional and/or engineering controls (IC/ECs), are intended to prevent adverse impacts to individuals or populations that may be exposed to hazardous substances and petroleum products in the soil or groundwater on the property.

If requested by Client, this report may also include the identification, discussion of, and/or limited sampling of asbestos-containing materials (ACMs), lead-based paint (LBP), mold, and/or radon.

## 1.3 Limitations

Partner warrants that the findings and conclusions contained herein were accomplished in accordance with the methodologies set forth in the Scope of Work. These methodologies are described as representing good commercial and customary practice for conducting an ESA of a property for the purpose of identifying recognized environmental conditions. There is a possibility that even with the proper application of these methodologies there may exist on the subject property conditions that could not be identified within the scope of the assessment or which were not reasonably identifiable from the available information. Partner believes that the information obtained from the record review and the interviews concerning the subject property is reliable. However, Partner cannot and does not warrant or guarantee that the information provided by these other sources is accurate or complete. The conclusions and findings set forth in this report are strictly limited in time and scope to the date of the evaluations. The conclusions presented in the report are based solely on the services described therein, and not on scientific tasks or procedures beyond the scope of agreed-upon services or the time and budgeting restraints imposed by the Client. No other warranties are implied or expressed.

Some of the information provided in this report is based upon personal interviews, and research of available documents, records, and maps held by the appropriate government and private agencies. This report is subject to the limitations of historical documentation, availability, and accuracy of pertinent records, and the personal recollections of those persons contacted.

This practice does not address requirements of any state or local laws or of any federal laws other than the all appropriate inquiry provisions of the LLPs. Further, this report does not intend to address all of the safety concerns, if any, associated with the subject property.

Environmental concerns, which are beyond the scope of a Phase I ESA as defined by ASTM include the following: ACMs, LBP, radon, and lead in drinking water. These issues may affect environmental risk at the subject property and may warrant discussion and/or assessment; however, are considered non-scope issues. If specifically requested by the Client, these non-scope issues are discussed in Section 6.3.

## 1.4 User Reliance

Lebanoff Development Group engaged Partner to perform this assessment in accordance with an agreement governing the nature, scope and purpose of the work as well as other matters critical to the engagement. All reports, both verbal and written, are for the sole use and benefit of Lebanoff Development Group. Either verbally or in writing, third parties may come into possession of this report or all or part of the information generated as a result of this work. In the absence of a written agreement with Partner granting such rights, no third parties shall have rights of recourse or recovery whatsoever under any course of action against Partner, its officers, employees, vendors, successors or assigns. Any

such unauthorized user shall be responsible to protect, indemnify and hold Partner, Client and their respective officers, employees, vendors, successors and assigns harmless from any and all claims, damages, losses, liabilities, expenses (including reasonable attorneys' fees) and costs attributable to such Use. Unauthorized use of this report shall constitute acceptance of and commitment to these responsibilities, which shall be irrevocable and shall apply regardless of the cause of action or legal theory pled or asserted. Additional legal penalties may apply.

## 1.5 Limiting Conditions

The findings and conclusions contain all of the limitations inherent in these methodologies that are referred to in ASTM E1527-13.

Specific limitations and exceptions to this ESA are more specifically set forth below:

- Interviews with past owners, operators and occupants were not reasonably ascertainable and thus constitute a data gap. Based on information obtained from other historical sources (as discussed in Section 3.0), this data gap is not expected to alter the findings of this assessment.
- Partner requested information relative to deed restrictions and environmental liens, and/or a title search, from the Report User. This information was not provided at the time of the assessment.
- Partner's view of the ground during the site assessment was obstructed due to excessive accumulation of wood chips. Based on information obtained from other historical sources, this limitation is not expected to alter the overall findings of this assessment.
- The onsite residential structure is abandoned and boarded up; therefore, Partner was not granted access to the interior of the structure. Based on its former use (residential), this access limitation is unlikely to change the findings of this assessment.

# 2.0 SITE DESCRIPTION

## 2.1 Site Location and Legal Description

The subject property at 16726 Slover Avenue in Fontana, California is located on the northeast corner intersection of Juniper Avenue and Slover Avenue. According to the San Bernardino County Assessor, the subject property is legally described as *S T L AND W CO S B L W 2.69 AC S 10.25 AC LOT 744 EX STR*, and ownership is currently vested in LEBBEA LLC since 2017.

Please refer to Figure 1: Site Location Map, Figure 2: Site Plan, Figure 3: Topographic Map, and Appendix A: Site Photographs for the location and site characteristics of the subject property.

## 2.2 Current Property Use

The subject property is currently developed with one dwelling and one detached garage structure which were observed as boarded up and vacant unoccupied during the site reconnaissance. Two concrete pads were also observed north of the structures. Unpaved areas and areas covered with wood chips were observed throughout. The subject property is to be redeveloped and currently situated in a commercial zone by the City of Fontana.

The subject property is designated for commercial development by the City of Fontana.

The subject property was not identified in the regulatory database report of Section 4.2.

## 2.3 Current Use of Adjacent Properties

The subject property is located within a mixed undeveloped and residential area of San Bernardino County. During the vicinity reconnaissance, Partner observed the following land use on properties in the immediate vicinity of the subject property:

***Immediately Surrounding Properties***

**North:** A residence (10447 Juniper Avenue)
**South:** Slover Avenue followed by unimproved vacant land and a residence (10512 Juniper Avenue)
**East:** Capri Mobile Estates (16860 Slover Avenue)
**West:** Juniper Avenue followed by unimproved vacant land and a residence (10462 Juniper Avenue)

No adjacent properties were identified in the regulatory database report of Section 4.2.

## 2.4 Physical Setting Sources

### *2.4.1 Topography*

The United States Geological Survey (USGS) *Fontana, California* Quadrangle 7.5-minute series topographic map was reviewed for this ESA. According to the contour lines on the topographic map, the subject property is located at approximately 1,085 to 1,095-feet above mean sea level (MSL). The contour lines in the area of the subject property indicate the area is sloping gently toward the southwest. Improvements, with the exception of roadways and landmark features, are not depicted on the 2018 map.

A copy of the most recent topographic map is included as Figure 3 of this report.

### 2.4.2 Hydrology

According to topographic map interpretation, the direction of groundwater flow in the vicinity of the subject property is inferred to be toward the southwest. The nearest surface water in the vicinity of the subject property is the Declez Channel located approximately 1.25-miles southwest of the subject property. No settling ponds, lagoons, surface impoundments, wetlands or natural catch basins were observed at the subject property during this assessment.

According to available information, a public water system operated by the Fontana Water Company (FWC) serves the subject property vicinity. According to available information obtained from the FWC website, shallow groundwater beneath the subject property is not utilized for domestic purposes. The sources of public water for the City of Fontana are 60% groundwater, 6% local surface water, and 34% imported water from the State Water Project.

According to a previous subsurface investigation conducted on a nearby property (16880 Slover Avenue and Closed Case #083603645T/99112), the depth of groundwater in the vicinity of the subject property is inferred to be approximately 226 to 330 feet bgs.

### 2.4.3 Geology/Soils

The subject property is situated within the Peninsular ranges of the geomorphic province of the State of California. The Peninsular range is a series of ranges separated by northwest trending valleys and traversed by several major active faults. The Whittier-Elsinore, San Jacinto, Newport-Inglewood, and San Andreas faults are major active fault systems located in the vicinity of the subject property. Major tectonic activity associated with these and other faults within this regional tectonic framework are typically right-lateral strike-slip movements. The Peninsular ranges extend into lower California, are bound to the east by the Colorado River, and extend into the Los Angeles Basin and the island group surrounding the continental shelf.

Based on information obtained from the USDA Natural Resources Conservation Service Web Soil Survey online database, the subject property is mapped as Tujunga loamy sand (TuB). The Tujunga series consists of very deep and somewhat excessively drained soils that formed in linear and tread alluvial vans derived from granite. The typical TuB profile is loamy sand at 0 to 60 inches on slopes ranging between 0 and 5 percent.

### 2.4.4 Flood Zone Information

Partner performed a review of the Flood Insurance Rate Map, published by the Federal Emergency Management Agency. According to Community Panel Number 06071C8654H, dated August 28, 2008, the subject property appears to be located in Zone X, an area located outside of the 100-year and 500-year flood plains.

A copy of the reviewed flood map is included in Appendix B of this report.

# 3.0 HISTORICAL INFORMATION

Partner obtained historical use information about the subject property from a variety of sources. A chronological listing of the historical data found is summarized in the table below:

| ***Historical Use Information*** | | |
|---|---|---|
| **Period/Date** | **Source** | **Description/Use** |
| 1896-1901 | Topographic Maps | Undeveloped/Native land |
| 1928-1953 | Aerial Photographs, Topographic Maps, Building Department | Agricultural with a dwelling and associated outbuildings |
| 1959-1967 | Aerial Photographs, Topographic Maps | Developed with the current dwelling and historical outbuildings |
| 1975-2017 | Aerial Photographs, Building Records, City Directories, Onsite Observations | Developed with the current dwelling and garage structure and historical outbuildings for residential use |
| 2019-Present | Onsite Observations | Developed with the current dwelling and garage structure, vacant/ unoccupied |

According to available historical sources, the subject property was formerly undeveloped as early as 1896; developed with the current dwelling and associated historical outbuildings which were surrounded by agricultural orchards between 1928 and circa 1953; undeveloped land surrounding the current dwelling and historical outbuildings from at least 1959 to 1967; and developed with the current dwelling and garage structure occupied for residential use from 1975 to 2017. Tenants on the subject property have included residents (1928-2017).

The subject property was historically used for agricultural purposes from as early as 1938 until at least 1953. Typical agricultural chemicals used from the 1940s through the 1950s included organochlorine pesticides (OCPs) such as DDT, methoxychlor, dieldrin, chlordane, and benzene hexachloride. It is unknown if environmentally persistent pesticides and/or herbicides were historically applied to the crops grown on the subject property. No specific areas of concern related to agricultural chemical storage and usage at the subject property have been identified during the course of this assessment. The subject property does not appear to have been excavated or redeveloped since the agricultural use; therefore, the potential exists that these chemicals are still present within the surficial soils. During grading activities, the soils are typically disturbed, shifted, and redistributed. Also, it is common that engineered fill material is placed over underlying soils as part of the development activities. These additional variables serve to reduce the potential for exposure to residual agricultural chemicals (if any). Based on these reasons and the proposed redevelopment for commercial use, Partner concludes that the possible former use of agricultural chemicals is not expected to represent a significant environmental concern at this time.

## 3.1 Aerial Photograph Review

Partner obtained available aerial photographs of the subject property and surrounding area from EDR on May 29, 2020. The following was observed on the subject property and adjacent properties during the aerial photograph review:

| ***Date: 1938*** | ***Scale: 1"=500'*** |
|---|---|
| **Subject Property:** | Agricultural with orchards and developed with the current dwelling |
| **North:** | Agricultural with orchards |
| **South:** | Agricultural with row crops and a dwelling across Slover Avenue |
| **East:** | Agricultural with orchards |
| **West:** | Agricultural with orchards and a dwelling across Juniper Avenue |

| ***Date: 1948, 1953*** | ***Scale: 1"=500'*** |
|---|---|
| **Subject Property:** | Agricultural with orchards and developed with the current dwelling and historical outbuildings |
| **North:** | No significant changes visible |
| **South:** | Agricultural with orchards and a dwelling across Slover Avenue |
| **East:** | No significant changes visible |
| **West:** | Developed with a dwelling and associated farm structures outbuildings |

| ***Date: 1959, 1967*** | ***Scale: 1"=500'*** |
|---|---|
| **Subject Property:** | Developed with the current dwelling and two historical outbuildings |
| **North:** | Developed residential with dwellings |
| **South:** | No significant changes visible |
| **East:** | No significant changes visible |
| **West:** | Developed residential with dwellings |

| ***Date: 1975, 1985, 1990*** | ***Scale: 1"=500'*** |
|---|---|
| **Subject Property:** | No significant changes visible |
| **North:** | No significant changes visible |
| **South:** | No significant changes visible |
| **East:** | Developed with the current mobile home park |
| **West:** | No significant changes visible |

| ***Date: 1994*** | ***Scale: 1"=500'*** |
|---|---|
| **Subject Property:** | No significant changes visible |
| **North:** | No significant changes visible |
| **South:** | Unimproved vacant land and a residence across Slover Avenue |
| **East:** | No significant changes visible |
| **West:** | No significant changes visible |

| ***Date: 2006, 2009*** | ***Scale: 1"=500'*** |
|---|---|
| **Subject Property:** | No significant changes visible |
| **North:** | No significant changes visible |
| **South:** | Graded vacant land across Slover Avenue |
| **East:** | No significant changes visible |
| **West:** | No significant changes visible |

| ***Date: 2012, 2016*** | ***Scale: 1"=500'*** |
|---|---|
| **Subject Property:** | No significant changes visible |
| **North:** | No significant changes visible |
| **South:** | Unimproved vacant land across Slover Avenue |
| **East:** | No significant changes visible |

| *Date: 2012, 2016* | *Scale: 1"=500'* |
|---|---|

**West:** Unimproved vacant land and the current dwellings across Juniper Avenue

Copies of select aerial photographs are included in Appendix B of this report.

## 3.2 Fire Insurance Maps

Partner reviewed the collection of Sanborn Fire insurance maps from EDR on May 29, 2020. Sanborn map coverage was not available for the subject property.

## 3.3 City Directories

Partner reviewed historical city directories obtained from EDR on May 29, 2020 for past names and businesses that were listed for the subject property and adjacent properties. The findings are presented in the following table:

***City Directory Search for 16726 Slover Avenue (Subject Property)***

| Year(s) | Occupant Listed |
|---|---|
| 1999 | Crystal Cobb |
| 2003 | Robert Bryan |
| 2004 | Robert Bryan |
| 2008 | Robert Bryan |
| 2009 | Crystal Cobb |
| 2014 | Robert Bryan |
| 2017 | Robert Bryan |

Based on the city directory review, no environmentally sensitive listings were identified for the subject property address(es).

***City Directory Search for Adjacent Properties***

| Year(s) | Occupant Listed |
|---|---|
| 1965 | James Peters Gracecamp (10512 Juniper Avenue) |
| 1990 | Jesse Page (10512 Juniper Avenue) |
| 1991 | Jesse Page (10512 Juniper Avenue) |
| 1994 | Jesse Page (10512 Juniper Avenue) |
| 1996 | Jesse Page (10512 Juniper Avenue) |
| 1999 | Francisco Barreto (10447 Juniper Avenue), Heriberto Duarte, Guillermina Estevez, Jesus Nieto (10462 Juniper Avenue), Jesse Page (10512 Juniper Avenue) |
| 2002 | Agraz E (10462 Juniper Avenue), Jesse Page (10512 Juniper Avenue) |
| 2003 | Francisco Barreto (10447 Juniper Avenue), Agraz Ester (10462 Juniper Avenue), Jesse Page (10512 Juniper Avenue) |
| 2004 | Francisco Barreto (10447 Juniper Avenue), Maria Garcia, Oscar Obando (10462 Juniper Avenue), Pam Volk, Jesse Page (10512 Juniper Avenue) |
| 2008 | Francisco Barreto (10447 Juniper Avenue), Estevez Guillermina (10462 Juniper Avenue), Borden Bizzelle Jesse Page (10512 Juniper Avenue) |
| 2009 | Francisco Barreto (10447 Juniper Avenue), Cynthia Herrera, Heriberto Duarte, M Gomez, Jesus Nieto (10462 Juniper Avenue), Pam Volk, Jesse Page (10512 Juniper Avenue) |
| 2014 | Francisco Barreto (10447 Juniper Avenue), Simon Melchor, Guillermina Estevez, Cynthia Herrera (10462 Juniper Avenue), Jesse Page (10512 Juniper Avenue) |
| 2017 | Francisco Barreto (10447 Juniper Avenue), Fabiola Perez (10462 Juniper Avenue), Jesse Page (10512 Juniper Avenue) |

Based on the city directory review, no environmentally sensitive listings were identified for the adjacent property addresses.

Copies of reviewed city directories are included in Appendix B of this report.

### 3.4 Historical Topographic Maps

Partner reviewed historical topographic maps obtained from EDR on May 29, 2020. The following was observed on the subject property and adjacent properties during the topographic map review:

| ***Date: 1896*** | |
|---|---|
| **Subject Property:** | Undeveloped |
| **North:** | Undeveloped |
| **South:** | Undeveloped across a road |
| **East:** | Undeveloped |
| **West:** | Undeveloped |

| ***Date: 1942*** | |
|---|---|
| **Subject Property:** | Depicted with a structure |
| **North:** | Depicted with a structure |
| **South:** | Depicted with a structure across Slover Avenue |
| **East:** | Undeveloped |
| **West:** | Depicted with a structure and agricultural across Juniper Avenue |

| ***Date: 1943*** | |
|---|---|
| **Subject Property:** | No significant changes depicted |
| **North:** | Undeveloped followed by a structure beyond that |
| **South:** | No significant changes depicted |
| **East:** | Undeveloped followed by a structure beyond that |
| **West:** | Depicted with three structures across Juniper Avenue |

| ***Date: 1953, 1954*** | |
|---|---|
| **Subject Property:** | Depicted with a structure and agricultural developed land |
| **North:** | Depicted with a structure and agricultural developed land |
| **South:** | Depicted with a structure and agricultural developed land across Slover Avenue |
| **East:** | Depicted with agricultural developed land |
| **West:** | Depicted with a structure and agricultural developed land across Juniper Avenue |

| ***Date: 1967*** | |
|---|---|
| **Subject Property:** | Depicted with a structure |
| **North:** | Depicted with a structure |
| **South:** | No significant changes depicted |
| **East:** | No significant changes depicted |
| **West:** | Depicted with structures across Juniper Avenue |

| ***Date: 1973*** | |
|---|---|
| **Subject Property:** | No significant changes depicted |
| **North:** | No significant changes depicted |
| **South:** | No significant changes depicted |
| **East:** | Depicted with the current mobile home trailer park |
| **West:** | Depicted with structures across Juniper Avenue |

| ***Date: 1975*** | |
|---|---|
| **Subject Property:** | No significant changes depicted |
| **North:** | No significant changes depicted |
| **South:** | Undeveloped and shaded, indicating a developed area across Slover Avenue |
| **East:** | No significant changes depicted |
| **West:** | Shaded, indicating a developed area across Juniper Avenue |

| ***Date: 1980*** | |
|---|---|
| **Subject Property:** | No significant changes depicted |
| **North:** | No significant changes depicted |
| **South:** | Depicted with a structure and agricultural developed land across Slover Avenue |
| **East:** | No significant changes depicted |
| **West:** | Depicted with structures across Juniper Avenue |

Copies of reviewed topographic maps are included in Appendix B of this report.

# 4.0 REGULATORY RECORDS REVIEW

## 4.1 Regulatory Agencies

### *4.1.1 State Department*

| *Regulatory Agency Data* | |
|---|---|
| **Name of Agency:** | California Environmental Protection Agency (Cal/EPA) |
| **Point of Contact:** | Online (https://siteportal.calepa.ca.gov/nsite/map/results) |
| **Agency Address:** | 1001 I Street, Sacramento, California |
| **Agency Phone Number:** | (916) 255-1136 |
| **Date of Contact:** | May 28, 2020 |
| **Method of Communication:** | Online Database |
| **Summary of Communication:** | No records regarding hazardous substance use, storage or releases, or the presence of USTs and AULs on the subject property were on file with the Cal/EPA.<br><br>The SBCFD is CUPA for the subject property area, as further discussed in section 4.1.2. |

### *4.1.2 Fire Department - Certified Unified Program Agencies (CUPA)*

| *Regulatory Agency Data* | |
|---|---|
| **Name of Agency:** | San Bernardino County Fire Department Hazardous Materials Division (SBCFD) |
| **Point of Contact:** | Maria Molina |
| **Agency Address:** | 620 South E Street, San Bernardino, California 92415 |
| **Agency Phone Number:** | (909) 386-8401 |
| **Date of Contact:** | May 28, 2020 and May 29, 2020 |
| **Method of Communication:** | Email, Telephone |
| **Summary of Communication:** | No records regarding hazardous substance use, storage or releases, or the presence of USTs and AULs on the subject property were on file with the SBCFD |

### *4.1.3 Air Pollution Control Agency*

| *Regulatory Agency Data* | |
|---|---|
| **Name of Agency:** | South Coast Air Quality Management District (SCAQMD) |
| **Point of Contact:** | http://www3.aqmd.gov/webappl/fim/prog/search.aspx |
| **Agency Address:** | 21865 Copley Drive, Diamond Bar, California |
| **Agency Phone Number:** | (909) 396-2000 |
| **Date of Contact:** | May 28, 2020 |
| **Method of Communication:** | Online Database |
| **Summary of Communication:** | No Permits to Operate (PTO), Notices of Violation (NOV), or Notices to Comply (NTC) or the presence of AULs, dry cleaning machines, or USTs were on file for the subject property with the AQMD. |

### 4.1.4 Regional Water Quality Agency

| *Regulatory Agency Data* | |
|---|---|
| **Name of Agency:** | State Water Resources Control Board (SWRCB)<br>Santa Ana Regional Water Quality Control Board (RWQCB) |
| **Agency Address:** | 3737 Main Street, Suite 500, Riverside, California<br>http://geotracker.waterboards.ca.gov/ |
| **Agency Phone Number:** | (951) 782-4130 |
| **Date of Contact:** | May 28, 2020 |
| **Method of Communication:** | Online Database |
| **Summary of Communication:** | No records regarding hazardous substance use, storage or releases, or the presence of USTs and AULs on the subject property were on file with the RWQCB. |

### 4.1.5 Department of Toxic Substances Control

| *Regulatory Agency Data* | |
|---|---|
| **Name of Agency:** | California Department of Toxic Substances Control (DTSC) |
| **Agency Address:** | 5796 Corporate Avenue, Cypress, California<br>http://hwts.dtsc.ca.gov/report_search.cfm?id=5<br>http://www.envirostor.dtsc.ca.gov/public/ |
| **Agency Phone Number:** | (877) 786-9427 |
| **Date of Contact:** | May 28, 2020 |
| **Method of Communication:** | Online Database |
| **Summary of Communication:** | No records regarding hazardous substance use, storage or releases, or the presence of USTs and AULs on the subject property were on file with the DTSC. |

### 4.1.6 Building Department

| *Regulatory Agency Data* | |
|---|---|
| **Name of Agency:** | City of Fontana Building Department (FBD)<br>San Bernardino County Land Use Service Building & Safety (SBC-LUS-BS) |
| **Point of Contact:** | Susana Gallardo<br>Elena Hahn, Land Use Technician |
| **Agency Address:** | 8353 Sierra Avenue, Fontana, California 92335<br>385 North Arrowhead Avenue, San Bernardino, California 92415 |
| **Agency Phone Number:** | (909) 350-6714<br>(909) 387-8311 |
| **Date of Contact:** | May 28, 2020 and June 4, 2020 |
| **Method of Communication:** | Email Public Records Request |
| **Summary of Communication:** | City of Fontana records were available for review, as further discussed in the following table. However, it should be noted that the City of Fontana annexed the subject property parcel in 1978 and permits prior to that were issued by the County of San Bernardino. However, the City of Fontana did state that the subject property building was developed in 1928.<br><br>As of the date of this report, Partner has not received a response |

| *Regulatory Agency Data* | |
|---|---|
| | from the SBC-LUS-BS for inclusion in this report. Public record requests with SBC-LUS-BS are completed between 30 and 45 business days. |

| *Building Records Reviewed for 16726 Slover Avenue (Subject Property)* | | |
|---|---|---|
| **Year(s)** | **Owner/Applicant** | **Description** |
| 1981 | Robert Brian | Permit to fill septic tank |

Copies of pertinent documents are included in Appendix B of this report.

### *4.1.7 Planning Department*

| *Regulatory Agency Data* | |
|---|---|
| **Name of Agency:** | Fontana Planning Department (FPD) |
| **Point of Contact:** | https://www.fontana.org/index.aspx?NID=854 |
| **Agency Address:** | 8353 Sierra Avenue, Fontana, California |
| **Agency Phone Number:** | (909) 350-7640 |
| **Date of Contact:** | May 28, 2020 |
| **Method of Communication:** | Online Database |
| **Summary of Communication:** | According to records reviewed, the subject property is zoned C-G for commercial general development by the City of Fontana. |

### *4.1.8 Oil & Gas Exploration*

| *Regulatory Agency Data* | |
|---|---|
| **Name of Agency:** | California Geologic Energy Management Division (CalGEM)<br>Southern District |
| **Agency Address:** | 3780 Kilroy Airport Way, Suite 400, Long Beach, California 90806<br>http://maps.conservation.ca.gov/doggr/index.html |
| **Agency Phone Number:** | (562) 637-4400 |
| **Date of Contact:** | May 28, 2020 |
| **Method of Communication:** | Online Database |
| **Summary of Communication:** | According to CalGEM, no oil and/or gas wells are located on or adjacent to the subject property. |

### *4.1.9 Assessor's Office*

| *Regulatory Agency Data* | |
|---|---|
| **Name of Agency:** | San Bernardino County Assessor (SBCA) |
| **Agency Address:** | 385 N. Arrowhead Avenue, San Bernardino, CA 92415<br>http://www.sbcounty.gov/assessor/pims |
| **Agency Phone Number:** | (888) 818-8988 |
| **Date of Contact:** | May 28, 2020 |
| **Method of Communication:** | Online Database |
| **Summary of Communication:** | According to records reviewed, the subject property is identified by Assessor Parcel Number (APN) 0251-203-09-0000 and is currently owned by LEBBEA LLC since 2017. The current buildings were constructed circa 1928 and 1975 and total(s) approximately 1,600-SF square feet on a 2.14-acre lot. |

Copies of pertinent documents are included in Appendix B of this report.

## 4.2 Mapped Database Records Search

Information from standard federal, state, county, and city environmental record sources was provided by Environmental Data Resources, Inc. (EDR). Data from governmental agency lists are updated and integrated into one database, which is updated as these data are released. The information contained in this report was compiled from publicly available sources and the locations of the sites are plotted utilizing a geographic information system, which geocodes the site addresses. The accuracy of the geocoded locations is approximately +/-300 feet.

Using the ASTM definition of migration, Partner considers the migration of hazardous substances or petroleum products in any form onto the subject property during the evaluation of each site listed on the radius report, which includes solid, liquid, and vapor.

### *4.2.1 Regulatory Database Summary*

***Radius Report Data***

| Database | Search Radius (mile) | Subject Property | Adjacent Properties | Sites of Concern |
|---|---|---|---|---|
| Federal NPL or Delisted NPL Site | 1.00 | N | N | N |
| Federal CERCLIS Site | 0.50 | N | N | N |
| Federal CERCLIS-NFRAP Site | 0.50 | N | N | N |
| Federal RCRA CORRACTS Facility | 1.00 | N | N | N |
| Federal RCRA TSDF Facility | 0.50 | N | N | N |
| Federal RCRA Generators Site (LQG, SQG, CESQG) | 0.25 | N | N | N |
| Federal IC/EC Registries | 0.50 | N | N | N |
| Federal ERNS Site | Subject Property | N | N/A | N/A |
| State/Tribal Equivalent NPL | 1.00 | N | N | N |
| State/Tribal Equivalent CERCLIS | 1.00 | N | N | N |
| State/Tribal Landfill/Solid Waste Disposal Site | 0.50 | N | N | N |
| State/Tribal Leaking Storage Tank Site | 0.50 | N | N | N |
| State/Tribal Registered Storage Tank Sites (UST/AST) | 0.25 | N | N | N |
| State/Tribal Voluntary Cleanup Sites (VCP) | 0.50 | N | N | N |
| State/Tribal Spills | 0.50 | N | N | N |
| Federal Brownfield Sites | 0.50 | N | N | N |
| State Brownfield Sites | 0.50 | N | N | N |
| EDR MGP | Varies | N | N | N |
| EDR US Hist Auto Station | Varies | N | N | N |
| EDR US Hist Cleaners | Varies | N | N | N |

### *4.2.2 Subject Property Listings*

The subject property is not identified in the regulatory database report.

### *4.2.3 Adjacent Property Listings*

The adjacent properties are not identified in the regulatory database report.

### 4.2.4 Sites of Concern Listings

No sites of concern are identified in the regulatory database report.

### 4.2.5 Orphan Listings

No orphan listings of concern are identified in the regulatory database report.

A copy of the regulatory database report is included in Appendix C of this report.

# 5.0 USER PROVIDED INFORMATION AND INTERVIEWS

In order to qualify for one of the *Landowner Liability Protections (LLPs)* offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (the *Brownfields Amendments*), the *User* must conduct the following inquiries required by 40 CFR 312.25, 312.28, 312.29, 312.30, and 312.31. The *User* should provide the following information to the *environmental professional*. Failure to provide this information could result in a determination that *all appropriate inquiries* is not complete. The *User* is asked to provide information or knowledge of the following:

- Review Title and Judicial Records for Environmental Liens and AULs
- Specialized Knowledge or Experience of the User
- Actual Knowledge of the User
- Reason for Significantly Lower Purchase Price
- Commonly Known or *Reasonably Ascertainable* information
- Degree of Obviousness
- Reason for Preparation of this Phase I ESA

Fulfillment of these user responsibilities is key to qualification for the identified defenses to CERCLA liability. Partner requested our Client to provide information to satisfy User Responsibilities as identified in Section 6 of the ASTM guidance.

Pursuant to ASTM E1527-13, Partner requested the following site information from Lebanoff Development Group (User of this report).

| ***User Responsibilities*** | | | | |
|---|---|---|---|---|
| **Item** | **Provided By User** | **Not Provided By User** | **Discussed Below** | **Does Not Apply** |
| AAI User Questionnaire | | | **X** | |
| Title Records, Environmental Liens, and AULs | | | **X** | |
| Specialized Knowledge | | | **X** | |
| Actual Knowledge | | | **X** | |
| Valuation Reduction for Environmental Issues | | | **X** | |
| Identification of Key Site Manager | **Section 5.1.3** | | | |
| Reason for Performing Phase I ESA | **Section 1.1** | | | |
| Prior Environmental Reports | | **X** | | |
| Other | | | | **X** |

## 5.1 Interviews

### *5.1.1 Interview with Owner*

Mr. Marc Lebanoff, subject property owner, was not aware of any pending, threatened, or past litigation relevant to hazardous substances or petroleum products in, on, or from the subject property; any pending, threatened, or past administrative proceedings relevant to hazardous substances or petroleum

products in, on, or from the subject property; or any notices from a governmental entity regarding any possible violation of environmental laws or possible liability relating to hazardous substances or petroleum products.

According to Mr. Lebanoff, the subject property was purchased in March 2016 and was historically occupied for single family residential use. Mr. Lebanoff further stated that there are no USTs, ASTs, clarifiers, oil/water separators, groundwater monitoring wells, or hazardous substance use/storage/generation on the subject property to the best of his knowledge.

#### *5.1.2 Interview with Report User*

Please refer to Sections 5.1.1 and 5.2 for information requested from the Report User.

#### *5.1.3 Interview with Key Site Manager*

A key site manager was not provided.

#### *5.1.4 Interviews with Past Owners, Operators and Occupants*

Interviews with past owners, operators and occupants were not reasonably ascertainable and thus constitute a data gap.

#### *5.1.5 Interview with Others*

As the subject property is not an abandoned property as defined in ASTM 1527-13, interview with others were not performed.

### 5.2 User Provided Information

#### *5.2.1 Title Records, Environmental Liens, and AULs*

Partner was not provided with title records or environmental lien and AUL information for review as part of this assessment.

#### *5.2.2 Specialized Knowledge*

The User did not have specialized knowledge of environmental conditions associated with the subject property at the time of the assessment.

#### *5.2.3 Actual Knowledge of the User*

The User was not aware of environmental liens and/or AULs encumbering the subject property or in connection with the subject property at the time of the assessment.

#### *5.2.4 Valuation Reduction for Environmental Issues*

The User was not aware of any reductions in property value due to environmental issues.

#### *5.2.5 Commonly Known or Reasonably Ascertainable Information*

The User did not provide information that is commonly known or *reasonably ascertainable* within the local community about the subject property at the time of the assessment.

### *5.2.6 Previous Reports and Other Provided Documentation*

No previous reports or other pertinent documentation was provided to Partner for review during the course of this assessment.

# 6.0 SITE RECONNAISSANCE

The weather at the time of the site visit was sunny and clear. Refer to Section 1.5 for limitations encountered during the field reconnaissance and Sections 2.1 and 2.2 for subject property operations. The table below provides the site assessment details:

| *Site Assessment Data* | |
|---|---|
| **Site Assessment Performed By:** | Ramiro Vejar |
| **Site Assessment Conducted On:** | June 3, 2020 |

The table below provides the subject property personnel interviewed during the field reconnaissance:

| *Site Visit Personnel for 16726 Slover Avenue (Subject Property)* | | | |
|---|---|---|---|
| **Name** | **Title/Role** | **Contact Number** | **Site Walk* Yes/No** |
| Marc Lebanoff | Owner | (702) 336-0636 | No |

Partner was not accompanied during the field reconnaissance activities.

Potential environmental concerns were identified during the onsite reconnaissance as further discussed in Sections 6.1 and 6.2.

## 6.1 General Site Characteristics

### *6.1.1 Solid Waste Disposal*

Solid waste is not currently generated at the subject property. An unpaved area northeast of the garage structure was observed with approximately one dozen used automotive oil filters. The oil filters were partially buried beneath the wood chips. The exact source of these materials is unknown. No additional evidence of illegal dumping of solid waste was observed during the Partner site reconnaissance.

### *6.1.2 Sewage Discharge and Disposal*

Sanitary discharges are not currently generated on the subject property. The City of Fontana services the subject property vicinity. No wastewater treatment facilities or septic systems were observed on the subject property. A septic system was closed and filled at the subject property with City of Fontana oversight in 1981.

### *6.1.3 Surface Water Drainage*

Storm water is removed from the subject property primarily by direct infiltration into unpaved areas and sheet flow action to the southwest towards the adjacent properties and into the public right of way. The subject property vicinity is connected to a municipal owned and maintained sewer system.

The subject property does not appear to be a designated wetland area, based on information obtained from the United States Fish & Wildlife Service; however, a comprehensive wetlands survey would be required in order to formally determine actual wetlands on the subject property. No surface impoundments, wetlands, natural catch basins, settling ponds, or lagoons are located on the subject property. No drywells were identified on the subject property.

### 6.1.4 Source of Heating and Cooling

No heating or cooling equipment were observed on the subject property during the site reconnaissance.

### 6.1.5 Wells and Cisterns

No aboveground evidence of wells or cisterns was observed during the site reconnaissance.

### 6.1.6 Wastewater

Domestic wastewater is not currently generated at the subject property. No industrial process is performed at the subject property.

### 6.1.7 Septic Systems

No surface evidence of septic systems was observed on the subject property. A septic system was closed and filled at the subject property with City of Fontana oversight in 1981.

### 6.1.8 Additional Site Observations

No additional general site characteristics were observed during the site reconnaissance.

## 6.2 Potential Environmental Hazards

### 6.2.1 Hazardous Substances and Petroleum Products Used or Stored at the Site

Partner identified hazardous substances used, stored, and/or generated on the subject property as noted in the following table:

| *Hazardous Substances and/or Petroleum Products Noted Onsite* | | | | |
|---|---|---|---|---|
| **Substance** | **Container Size** | **Location** | **Nature of Use** | **Disposal Method** |
| Used oil filters | Approximately 12 | Northeast Exterior of Garage | Unknown | N/A |

An unpaved area northeast of the garage structure was observed with approximately one dozen used automotive oil filters. The oil filters were partially buried beneath the wood chips. The exact source of these materials is unknown. Based on the historical use of the subject property for residential occupancy, it is unknown if the oil filters were illegally dumped or accumulated during historical private property use.

### 6.2.2 Aboveground & Underground Hazardous Substance or Petroleum Product Storage Tanks (ASTs/USTs)

No evidence of current or former ASTs or USTs was observed during the site reconnaissance.

### 6.2.3 Evidence of Releases

No spills, stains or other indications that a surficial release has occurred at the subject property were observed.

### 6.2.4 Polychlorinated Biphenyls (PCBs)

No potential PCB-containing equipment (transformers, oil-filled switches, hoists, lifts, dock levelers, hydraulic elevators, etc.) was observed on the subject property during Partner's reconnaissance.

### 6.2.5 Strong, Pungent or Noxious Odors

No strong, pungent or noxious odors were evident during the site reconnaissance.

### 6.2.6 Pools of Liquid

No pools of liquid were observed on the subject property during the site reconnaissance.

### 6.2.7 Drains, Sumps and Clarifiers

No drains, sumps, or clarifiers were observed on the subject property during the site reconnaissance.

### 6.2.8 Pits, Ponds and Lagoons

No pits, ponds or lagoons were observed on the subject property.

### 6.2.9 Stressed Vegetation

No stressed vegetation was observed on the subject property.

### 6.2.10 Additional Potential Environmental Hazards

No additional environmental hazards, including landfill activities or radiological hazards, were observed.

## 6.3 Non-ASTM Services

### 6.3.1 Asbestos-Containing Materials (ACMs)

Asbestos is the name given to a number of naturally occurring, fibrous silicate minerals mined for their useful properties such as thermal insulation, chemical and thermal stability, and high tensile strength. The Occupational Safety and Health Administration (OSHA) regulation 29 CFR 1926.1101 requires certain construction materials to be presumed to contain asbestos, for purposes of this regulation. All thermal system insulation (TSI), surfacing material, and asphalt/vinyl flooring that are present in a building that have not been appropriately tested are "presumed asbestos-containing material" (PACM).

The subject property buildings were constructed in 1928 and 1967 and may have asbestos containing materials (ACMs: materials containing >1% asbestiform components determined by the EPA 600/R-93/116 Method using Polarized Light Microscopy) present. The table below outlines suspect ACMs that are generally found in buildings of this age:

| **Suspect ACM** |
|---|
| Drywall and/or Plaster Wall Systems |
| Vinyl Flooring/Tiles |
| Mastic |
| Spray-Applied Acoustical Material |
| Stucco |
| Roofing Materials |

Based on the dates of construction of the subject property buildings, prior to disturbance, Partner recommends a comprehensive asbestos survey of the property to determine the presence, condition, friability and likely future condition of suspect or confirmed ACM. All suspect materials must be handled as ACM according to local, state and federal regulations until the results of sampling and analysis indicate the material is a non-ACM. According to the US EPA, ACM that is intact and in good condition can, in

general, be managed safely in-place under an Operations and Maintenance (O&M) Program until removal is dictated by renovation, demolition, or deteriorating material condition.

### 6.3.2 Lead-Based Paint (LBP)

Lead is a highly toxic metal that affects virtually every system of the body. LBP is defined as any paint, varnish, stain, or other applied coating that has 1 mg/cm$^2$ (or 5,000 ug/g or 0.5% by weight) or more of lead. Congress passed the Residential Lead-Based Paint Hazard Reduction Act of 1992, also known as "Title X", to protect families from exposure to lead from paint, dust, and soil. Under Section 1017 of Title X, intact LBP on most walls and ceilings is not considered a "hazard," although the condition of the paint should be monitored and maintained to ensure that it does not become deteriorated. Further, Section 1018 of this law directed the Housing and Urban Development (HUD) and the US EPA to require the disclosure of known information on LBP and LBP hazards before the sale or lease of most housing built before 1978.

Based on the age of the subject property buildings (pre-1978), there is a potential that LBP is present. Actual material samples would need to be collected in order to determine if LBP is present.

### 6.3.3 Radon

Radon is a colorless, odorless, naturally occurring, radioactive, inert, gaseous element formed by radioactive decay of radium (Ra) atoms. The US EPA has prepared a map to assist National, State, and local organizations to target their resources and to implement radon-resistant building codes. The map divides the country into three Radon Zones, according to the table below:

| *EPA Radon Zones* | | |
|---|---|---|
| **EPA Zones** | **Average Predicted Radon Levels** | **Potential** |
| Zone 1 | Exceed 4.0 pCi/L | Highest |
| Zone 2 | Between 2.0 and 4.0 pCi/L | Moderate |
| Zone 3 | Less than 2.0 pCi/L | Low |

It is important to note that the EPA has found homes with elevated levels of radon in all three zones, and the US EPA recommends site-specific testing in order to determine radon levels at a specific location. However, the map does give a valuable indication of the propensity of radon gas accumulation in structures.

Radon sampling was not conducted as part of this assessment. Review of the US EPA Map of Radon Zones places the subject property in Zone 2. Based upon the radon zone classification, radon is not considered to be a significant environmental concern.

### 6.3.4 Lead in Drinking Water

According to available information, a public water system operated by the Fontana Water Company (FWC) serves the subject property vicinity. According to available information obtained from the FWC website, shallow groundwater beneath the subject property is not utilized for domestic purposes. The sources of public water for the City of Fontana are 60% groundwater, 6% local surface water, and 34% imported water from the State Water Project.

According to the FWC and the 2018 Consumer Confidence Report Annual Water Quality Report, water supplied to the subject property vicinity is in compliance with all State and Federal regulations pertaining to drinking water standards, including lead and copper. Water sampling was not conducted to verify water quality.

#### *6.3.5 Mold*

Molds are microscopic organisms found virtually everywhere, indoors and outdoors. Mold will grow and multiply under the right conditions, needing only sufficient moisture (e.g.in the form of very high humidity, condensation, or water from a leaking pipe, etc.) and organic material (e.g., ceiling tile, drywall, paper, or natural fiber carpet padding).

Partner was not provided access to the interior of the subject property building and as such was unable to observe accessible, interior areas for the subject property building for significant evidence of water damage or mold growth.

### 6.4 Adjacent Property Reconnaissance

The adjacent property reconnaissance consisted of observing the adjacent properties from the subject property premises. No items of environmental concern were identified on the adjacent properties during the site assessment, including hazardous substances, petroleum products, ASTs, USTs, evidence of releases, PCBs, strong or noxious odors, pools of liquids, sumps or clarifiers, pits or lagoons, stressed vegetation, or any other potential environmental hazards.

# 7.0 FINDINGS AND CONCLUSIONS

**Findings**

A *recognized environmental condition (REC)* refers to the presence or likely presence of any hazardous substances or petroleum products in, on, or at a property: due to release to the environment; under conditions indicative of a release to the environment; or under conditions that pose a material threat of a future release to the environment. The following was identified during the course of this assessment:

- Partner did not identify any recognized environmental conditions during the course of this assessment.

A *controlled recognized environmental condition (CREC)* refers to a REC resulting from a past release of hazardous substances or petroleum products that has been addressed to the satisfaction of the applicable regulatory authority, with hazardous substances or petroleum products allowed to remain in place subject to the implementation of required controls. The following was identified during the course of this assessment:

- Partner did not identify any controlled recognized environmental conditions during the course of this assessment.

A *historical recognized environmental condition (HREC)* refers to a past release of any hazardous substances or petroleum products that has occurred in connection with the property and has been addressed to the satisfaction of the applicable regulatory authority or meeting unrestricted use criteria established by a regulatory authority, without subjecting the property to any required controls. The following was identified during the course of this assessment:

- Partner did not identify any historical recognized environmental conditions during the course of this assessment.

An *environmental issue* refers to environmental concerns identified by Partner, which do not qualify as RECs; however, warrant further discussion. The following was identified during the course of this assessment:

- During the site reconnaissance, the subject property was developed with a dwelling and detached garage structure which were boarded up and vacant. According to City of Fontana building records, a septic system was permitted to be filled and abandoned just north of the dwelling. Two concrete pads were observed on the subject property, and the remaining area was unpaved and/or covered with wood chips. The use of these foundations is presumably associated with historical storage sheds at the subject property. Based on the residential use of the property, the former septic system is not expected to represent a significant environmental concern.
- Approximately one dozen used automotive oil filters were observed on the ground surface in an unpaved area northeast of the garage structure. The oil filters were partially buried beneath the wood chips. The exact source of these materials is unknown. Based on the historical use of the subject property for residential occupancy, it is unknown if the oil filters were illegally dumped or accumulated during historical private property use. The used oil filters should be recycled at a

used oil or household hazardous waste collection center. Although the potential to encounter additional dumped materials cannot be definitively ruled out, the materials observed during the site reconnaissance appear to represent a de minimis condition based on the minor quantity observed and the absence of stained soil or evidence of significant release.

- The subject property was historically used for agricultural purposes from as early as 1938 until at least 1953. Typical agricultural chemicals used from the 1940s through the 1950s included organochlorine pesticides (OCPs) such as DDT, methoxychlor, dieldrin, chlordane, and benzene hexachloride. It is unknown if environmentally persistent pesticides and/or herbicides were historically applied to the crops grown on the subject property. No specific areas of concern related to agricultural chemical storage and usage at the subject property have been identified during the course of this assessment. The subject property does not appear to have been excavated or redeveloped since the agricultural use; therefore, the potential exists that these chemicals are still present within the surficial soils. During grading activities, the soils are typically disturbed, shifted, and redistributed. Also, it is common that engineered fill material is placed over underlying soils as part of the development activities. These additional variables serve to reduce the potential for exposure to residual agricultural chemicals (if any). Based on these reasons and the proposed redevelopment for commercial use, Partner concludes that the possible former use of agricultural chemicals is not expected to represent a significant environmental concern at this time.
- Due to the age of the subject property buildings (circa 1927 and 1967), there is a potential that asbestos-containing materials (ACMs) and/or lead-based paint are present. Partner was not granted access to the building interiors as they were abandoned and boarded up; therefore, a visual assessment of suspect asbestos containing materials (ACMs) and painted surfaces could not be completed in the interior areas. Prior to the disturbance of any suspect ACM or LBP at the subject property, a comprehensive survey, designed to determine if the suspect materials are regulated, is recommended. If such materials are identified and need to be disturbed, repaired or removed, a licensed abatement contractor should be consulted.

**Conclusions, Opinions and Recommendations**

Partner has performed a Phase I Environmental Site Assessment in conformance with the scope and limitations of ASTM Practice E1527-13 of 16726 Slover Avenue in Fontana, San Bernardino County, California (the "subject property"). Any exceptions to, or deletions from, this practice are described in Section 1.5 of this report.

This assessment has revealed no evidence of recognized environmental conditions in connection with the subject property; however, environmental issues were identified. Based on the conclusions of this assessment, Partner recommends the following:

- The observed used oil filters should be recycled at a used oil or household hazardous waste collection center. The minor debris observed on the ground surface during the site reconnaissance appears to represent a de minimis condition. However, if previously unknown impacted soil or dumped materials are encountered during future redevelopment activities, it

should be handled and disposed of in accordance with applicable regulations, which may require sampling.

- If redevelopment of the subject property is planned for residential use, sampling related to the former agricultural use is recommended.
- Prior to the disturbance of any suspect ACM or LBP at the subject property, a comprehensive survey, designed to determine if the suspect materials are regulated, is recommended. If such materials are identified and need to be disturbed, repaired or removed, a licensed abatement contractor should be consulted. If the current structures are to be occupied in the future, an Operations and Maintenance (O&M) Program may be implemented in order to manage suspect ACMs and/or LBP in place at the subject property until removal is dictated by renovation, demolition, or deteriorating material condition.

## 8.0 SIGNATURES OF ENVIRONMENTAL PROFESSIONALS

Partner has performed a Phase I Environmental Site Assessment of the property located at 16726 Slover Avenue in Fontana, San Bernardino County, California in conformance with the scope and limitations of the protocol and the limitations stated earlier in this report. Exceptions to or deletions from this protocol are discussed earlier in this report.

By signing below, Partner declares that, to the best of our professional knowledge and belief, we meet the definition of *Environmental Professional* as defined in §312.10 of 40 CFR §312. Partner has the specific qualifications based on education, training, and experience to assess a *property* of the nature, history, and setting of the subject *property*. Partner has developed and performed the all appropriate inquiries in conformance with the standards and practices set forth in 40 CFR Part 312.

# EXECUTIVE SUMMARY

## DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1922 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

## RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.

The Sanborn Library has been searched by EDR and maps covering the target property location as provided by Partner Engineering and Science, Inc. were identified for the years listed below. The Sanborn Library is the largest, most complete collection of fire insurance maps. The collection includes maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow, and others. Only Environmental Data Resources Inc. (EDR) is authorized to grant rights for commercial reproduction of maps by the Sanborn Library LLC, the copyright holder for the collection. Results can be authenticated by visiting www.edrnet.com/sanborn.

The Sanborn Library is continually enhanced with newly identified map archives. This report accesses all maps in the collection as of the day this report was generated.

### UNMAPPED PROPERTY

This report certifies that the complete holdings of the Sanborn Library, LLC collection have been searched based on client supplied target property information, and fire insurance maps covering the target property were not found.

Sanborn® Library search results

Certification #: CCEF-4D47-9606

The Sanborn Library includes more than 1.2 million fire insurance maps from Sanborn, Bromley, Perris & Browne, Hopkins, Barlow and others which track historical property usage in approximately 12,000 American cities and towns. Collections searched:

- ☑ Library of Congress
- ☑ University Publications of America
- ☑ EDR Private Collection

*The Sanborn Library LLC Since 1866™*

### Limited Permission To Make Copies

Partner Engineering and Science, Inc. (the client) is permitted to make up to FIVE photocopies of this Sanborn Map transmittal and each fire insurance map accompanying this report solely for the limited use of its customer. No one other than the client is authorized to make copies. Upon request made directly to an EDR Account Executive, the client may be permitted to make a limited number of additional photocopies. This permission is conditioned upon compliance by the client, its customer and their agents with EDR's copyright policy; a copy of which is available upon request.

## ENVIRONMENTAL SITE ASSESSMENT QUESTIONNAIRE

Please complete to the best of your knowledge. For those questions that are not applicable, please respond with an "N/A". For those questions that are unknown, please respond with "unknown".

### 1. PROPERTY INFORMATION:

| | | |
|---|---|---|
| Property Name: Lebbea, LLC | | |
| Property Address: 16726 Slover Ave | | |
| City Fontana | State CA | Zip 92337 |
| Assessor's Parcel Number 251-203-09 | | |
| Property Owner & Contact Information: Marc Lebanoff 702-336-0636 | | |
| Date Property Owner Purchased: March 2016 | | |
| Key Site Manager & Contact Information: Marc | | |

### 2. COMPLETED BY

| | |
|---|---|
| Signature Marc LeBanoff | Date 6-8-2020 |
| Printed Name Marc Lebanoff | Relation to Subject Property owner |

### 3. PREVIOUS INVESTIGATIONS

Have any previous environmental investigations been performed at the property, including Phase I ESAs, Phase II Subsurface Investigations, Remediation, Asbestos or Lead-Based Paint surveys? No

(If yes, please provide copies)

### 4. PROPERTY DESCRIPTION

Property Size: 1200 SF House 200 SF Garage Number of Building(s): 2

Size of Building(s): 2.2 Acres

Date of Construction: Not Sure

Property Type: (please circle)

Multi-Family Hotel Mobile Home Park Retail/Commercial Industrial Office

Other: SFR

Please provide Rent Roll if Applicable.

Historical Use of Property:

PARTNER

## 5. Surrounding Property Uses

| Direction | Use |
|---|---|
| North | Residental |
| South | Commercial |
| East | Residental (Mobile Home Park) |
| West | Residental |

Are you aware of any potential environmental concerns associated with surrounding properties?

_____ YES _X_ NO

If yes, please describe: _____

## 6. Utilities & Services

Please provide the name of the utility or contractor providing the following:

| | | | |
|---|---|---|---|
| Electric | Edison | Bio-hazardous Waste | |
| Gas | The Gas Company | Elevator Maintenance | |
| Potable Water | Fontana Water Co | Used Grease | |
| Sanitary Sewer | Fontana City | Hazardous Waste | |

## 7. On Site Operations

| Are you aware of any of the following conditions, either past or present, on the property? | | |
|---|---|---|
| **Condition** | **Response** | **If yes, please describe** |
| 1. Stored Chemicals | ☐ Yes ☒ No | |
| 2. Underground Storage Tanks | ☐ Yes ☒ No | |

| **PROPERTY CITY, STATE ZIP:** | Fontana, CA 92237 |

1. **Environmental liens that are filed or recorded against the property (40 CFR 312.25)**

   Did a search of recorded land title records (or judicial records) identify any environmental liens filed or recorded against the property under federal, tribal, state or local law?

   ☐ YES ☑ NO

2. **Activity and use limitations (AULs) that are in place on the property or that have been filed or records against the property (40 CFR 312.26(a)(1)(v) and (vi))**

   Did a search of recorded land title records (or judicial records) identify any AULs, such as engineering controls, land use restrictions or institutional controls that are in place at the property and/or have been filed or recorded against the property under federal, tribal, state or local law?

   ☐ YES ☑ NO

3. **Specialized knowledge or experience of the person seeking to qualify for the LLP (40 CFR 312.28)**

   Do you have any specialized knowledge or experience related to the property or nearby properties? For example, are you involved in the same line of business as the current or former occupants of the property or an adjoining property so that you would have specialized knowledge of the chemicals and processes used by this type of business?

   ☐ YES ☑ NO

4. **Relationship of the purchase price to the fair market value of the property if it were not contaminated (40 CFR 312.29)**

Does the purchase price being paid for this property reasonably reflect the fair market value of the property? If you conclude that there is a difference, have you considered whether the lower purchase price is because contamination is known or believed to be present at the property?

[✓] YES [ ] NO

---

5. **Commonly known or reasonably ascertainable information about the Property (40 CFR 312.30)**

Are you aware of commonly known or reasonably ascertainable information about the property that would help the environmental professional to identify conditions indicative of releases or threatened releases?

[ ] YES [✓] NO

---

a. Do you know the past uses of the property?

[✓] YES [✓] NO

Single Family Residence

---

b. Do you know of specific chemicals that are present or once were present at the property?

[ ] YES [✓] NO

---

c. Do you know of spills or other chemical releases that have taken place at the property?

[ ] YES [✓] NO

---

d. Do you know of any environmental cleanups that have taken place at the property?

[ ] YES [✓] NO

---

e. Do you have any prior knowledge that the property was developed as a gas station, dry cleaner, manufacturing/industrial facility in the past?

[ ] YES [✓] NO

---

f. Are you aware of historical use of hazardous materials or petroleum products used or present on the property?

[ ] YES [✓] NO

---

g. Do you know if the property is currently or was formerly equipped with underground storage tanks (USTs) or septic tanks?

☐ YES ☑ NO

h. Do you know of any past, threatened or pending lawsuits or administrative proceedings concerning a release or threatened release of any hazardous substance or petroleum products involving the property by any owner or occupant of the property?

☐ YES ☑ NO

6. **The degree of obviousness of the presence or likely presence of contamination at the property, and the ability to detect the contamination by appropriate investigation (40 CFR 312.31)**

Based on your knowledge and experience related to the property are there any obvious indicators that point to the presence or likely presence of releases at the property?

☐ YES ☑ NO

# National Flood Hazard Layer FIRMette

FEMA

## Legend

SEE FIS REPORT FOR DETAILED LEGEND AND INDEX MAP FOR FIRM PANEL LAYOUT

**SPECIAL FLOOD HAZARD AREAS**
- Without Base Flood Elevation (BFE) *Zone A, V, A99*
- With BFE or Depth *Zone AE, AO, AH, VE, AR*
- Regulatory Floodway

**OTHER AREAS OF FLOOD HAZARD**
- 0.2% Annual Chance Flood Hazard, Areas of 1% annual chance flood with average depth less than one foot or with drainage areas of less than one square mile *Zone X*
- Future Conditions 1% Annual Chance Flood Hazard *Zone X*
- Area with Reduced Flood Risk due to Levee. See Notes. *Zone X*
- Area with Flood Risk due to Levee *Zone D*

**OTHER AREAS**
- NO SCREEN Area of Minimal Flood Hazard *Zone X*
- Effective LOMRs
- Area of Undetermined Flood Hazard *Zone D*

**GENERAL STRUCTURES**
- Channel, Culvert, or Storm Sewer
- Levee, Dike, or Floodwall

**OTHER FEATURES**
- 20.2 / 17.5 Cross Sections with 1% Annual Chance Water Surface Elevation
- Coastal Transect
- 513 Base Flood Elevation Line (BFE)
- Limit of Study
- Jurisdiction Boundary
- Coastal Transect Baseline
- Profile Baseline
- Hydrographic Feature

**MAP PANELS**
- Digital Data Available
- No Digital Data Available
- Unmapped

N

The pin displayed on the map is an approximate point selected by the user and does not represent an authoritative property location.

This map complies with FEMA's standards for the use of digital flood maps if it is not void as described below. The basemap shown complies with FEMA's basemap accuracy standards

The flood hazard information is derived directly from the authoritative NFHL web services provided by FEMA. This map was exported on 5/28/2020 at 10:32:36 AM and does not reflect changes or amendments subsequent to this date and time. The NFHL and effective information may change or become superseded by new data over time.

This map image is void if the one or more of the following map elements do not appear: basemap imagery, flood zone labels, legend, scale bar, map creation date, community identifiers, FIRM panel number, and FIRM effective date. Map images for unmapped and unmodernized areas cannot be used for regulatory purposes.

Instructions
This map enables users to interact with three sets of information:
Current
Zoning – shows how land shall be used in the community. Zoning sets design standards for commercial, industrial, park and residential properties.
Specific Plan - used to help implement the General Plan. It helps establish links between implementing the General Plan and the individual development proposals in defined areas.
Planned and Current
General Plan - the policy of acceptable land uses in Fontana. General Plan is created to guide growth and land development for both the current and the long term.
The Layer List shows the operational layers; Zoning,

**SUBJECT:** **CERTIFIED RECORD SEARCH FINDINGS**
**16726 SLOVER AVENUE, FONTANA, CALIFORNIA**
**APN#: 0251-203-09-0000**

This is to confirm that the OFM Hazardous Materials Division (HMD) has searched its records for any file(s) pertaining to the subject property, as described in your request, and finds that no records exist for the above site description(s).

Records maintained by OFM-HMD date back to mid-1980's. Records searched include:

- facilities with hazardous waste generator permits, hazardous materials handler permits, underground storage tank permits, universal waste permits, tiered permits, EPCRA facilities, RMP facilities, Cal ARP facilities, and/or waste recycling generators, including inactive and/or out of business records, as well as non-permitted facility actions;
- logs of permits issued for the removal, installation, and/or modification of underground storage tanks;
- records and databases pertaining to illicit dumping, spill reports and release notifications, and complaints;
- incidents responded to by the hazardous materials emergency response team;
- and sites undergoing remediation for contaminated soil and/or groundwater.

# EXECUTIVE SUMMARY

A search of available environmental records was conducted by Environmental Data Resources, Inc (EDR). The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-13), the ASTM Standard Practice for Environmental Site Assessments for Forestland or Rural Property (E 2247-16), the ASTM Standard Practice for Limited Environmental Due Diligence: Transaction Screen Process (E 1528-14) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

# EXECUTIVE SUMMARY

**SURROUNDING SITES: SEARCH RESULTS**

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.
Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in ***bold italics*** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

**STANDARD ENVIRONMENTAL RECORDS**

***State- and tribal - equivalent CERCLIS***

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

A review of the ENVIROSTOR list, as provided by EDR, and dated 01/27/2020 has revealed that there are 10 ENVIROSTOR sites within approximately 1 mile of the target property.

***Other Ascertainable Records***

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

A review of the RCRA NonGen / NLR list, as provided by EDR, and dated 03/23/2020 has revealed that there are 5 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

HWT: A listing of hazardous waste transporters. In California, unless specifically exempted, it is unlawful for any person to transport hazardous wastes unless the person holds a valid registration issued by DTSC. A hazardous waste transporter registration is valid for one year and is assigned a unique registration number.

A review of the HWT list, as provided by EDR, and dated 01/06/2020 has revealed that there is 1 HWT site within approximately 0.25 miles of the target property.

| Violation Date: | 09-20-2018 |
| Citation: | 23 CCR 16 2715(c) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2715(c) |
| Violation Description: | Failure to comply with one or more of the following designated operator (DO) monthly inspection requirements: Be performed by an ICC certified DO. Inspect monthly alarm history report, check that alarms are documented and responded to appropriately, and attach a copy. Inspect for the presence of liquid/debris in spill containers. Inspect for the presence of liquid/debris in under dispenser containment (UDC) and ensure that the monitoring equipment is positioned correctly. Inspect for liquid or debris in containment sumps where an alarm occurred with no service visit. Check that all testing and maintenance has been completed and documented. Verify that all facility employees have been trained in accordance with 23 CCR 2715(f)(2). |
| Violation Notes: | Returned to compliance on 08/15/2019. OBSERVATION: On the monthly DO reports the following alarms were not addressed or documented with a follow-up action: Setup Data Warning L16: Disp 15/16, 03/28/18, 03/28/2018, and 03/27/2018. No maintenance records records were available for why any alarms were caused. CORRECTIVE ACTION: Submit a signed statement stating that all alarms will be properly addressed on the DO monthly inspection reports and work orders that pertain to the UST system will be maintained on-site. Formal enforcement may occur. |

Violation Source: CERS

Site ID: 153499
Site Name: SIERRA Fuel INC.
Violation Date: 07-09-2019
Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)
Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1,- 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.
Violation Notes: Returned to compliance on 12/03/2019. 36 MONTH OVERFILL TESTING WITH NOTIFICATION GIVEN TO THIS DEPARTMENT HAS NOT BEEN COMPLETED FOR THIS UST SYSTEM. IMMEDIATELY SCHEDULE OVERFILL PREVENTION TEST TO BE WITNESSED BY THIS DEPARTMENT WITHIN 30 DAYS.

Environmental Interest/Information System:
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.
STATE MASTER
ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Registry ID: 110013308303
Facility URL: http://ofmpub.epa.gov/enviro/fii_query_detail.disp_program_facility?p_registry_id=110013308303

Environmental Interest/Information System:
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: 4.14 Request
Completed Date: 01/04/2005
Comments: Approved.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Supplemental Site Investigation Tech Memo
Completed Date: 09/18/2007
Comments: SSI Tech Memo Workplan was approvedby DTSC for implementation.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Supplemental Site Investigation Report
Completed Date: 10/07/2008
Comments: DTSC approved the SSI report for FA in the form of RAW.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Supplemental Site Investigation Tech Memo
Completed Date: 02/21/2008
Comments: The SSI Workplan Addendum No. 1 was conditionally approved by DTSC for implementation. DTSC requested that sample additional sampling locations adjacent to the structures be utilized.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fieldwork
Completed Date: 04/18/2008
Comments: Additional field sampling activities took place at the site in order to better determine the lateral and vertical extent of pesticide impacted soil associated with the former and existing structures. Soil sampling activities were conducted over the course of two days.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Removal Action Workplan
Completed Date: 10/17/2008
Comments: DTSC approved the RAW for implementation after comleting the public comments period. 13 comments were received and did not affect the RAW conclusion.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Supplemental Site Investigation Tech Memo
Completed Date: 06/27/2008
Comments: DTSC reviewed the SSI Workplan Addendum No. 2 and concurred with the additional step-outs and step-downs necessary to delineate the soil impacted by organochlorine pesticides at the project site.

Completed Area Name: PROJECT WIDE
Completed Sub Area Name: Not reported
Completed Document Type: Fact Sheets
Completed Date: 09/07/2008
Comments: Fact Sheets mailed to community.

| Citation: | HSC 6.7 25290.1(d) - California Health and Safety Code, Chapter 6.7, Section(s) 25290.1(d) |
| Violation Description: | Failure of a UST system installed on or after July 1, 2004 to be designed and constructed with a monitoring system capable of detecting the entry of the liquid or vapor-phase of the hazardous substance stored in the primary containment into the secondary containment and capable of detecting water intrusion into the secondary containment. |
| Violation Notes: | OBSERVATION: Please make the following repairs: 1) The hydrostatic sensor (TS-UHS) in Sump 8 was not working. Technician stated that the sensor needs to be ordered. 2) Alarms on monitoring panel: o Transition Sump- brine sensor o Tank 2 Sump 8- brine sensor o Zone 1 Tank 1- vacuum sensor too high CORRECTIVE ACTION: 1) Replace non-working hydrostatic sensor (TS-UHS) in Sump 8. 2) Repair to eliminate brine leak in the system.- Contact this Division with scope of work. Ensure that required permits are obtained prior to making repairs. |

**KAISER FOUNDATION HOSP (Continued)** **U001574868**

Violation Description: Failure to keep water out of the secondary containment of UST systems installed on or after July 1, 2003.
Violation Notes: Returned to compliance on 11/15/2019. OBSERVED POOLED WATER INSIDE THE TRANSITION SUMP FROM EITHER RAIN/IRRIGATION WITH LIQUIDS SENSOR IN ALARM. POOLED LIQUIDS INSIDE THE TRANSITION SUMP WILL BE REMOVED BY UST CONTRACTOR. INVESTIGATE THE CAUSE OF THE LIQUID INTRUSION AND SUBMIT SCOPE OF WORK THAT WILL PREVENT FURTHER INTRUSION OF LIQUIDS INSIDE THE CONTAINMENTS TO THIS DEPARTMENT WITHIN 15 DAYS.
Violation Division: San Bernardino County Fire Department
Violation Program: UST
Violation Source: CERS

Site ID: 395683
Site Name: KAISER FOUNDATION HOSP
Violation Date: 11-04-2015
Citation: HSC 6.7 29291(b) - California Health and Safety Code, Chapter 6.7, Section(s) 29291(b)
Violation Description: Failure of the UST system to be designed and constructed with a monitoring system capable of detecting the entry of the hazardous substance stored in the primary containment into the secondary containment.
Violation Notes: Returned to compliance on 12/03/2015. OBSERVATION: 1)The liquid sensor (ULS-type) was observed to be damaged. Sensor was observed in the S3 sump, located in the South UST#1. 2)The SCCM (Secondary Containment Control Module) , for Zone 1 failed when tested . Vacuum sensor was observed in the South UST#1. 3) The annular sensor failed when tested. Failed sensor was observed in the North diesel tank 3. COMPLIANCE REQUIREMENT: Replace/ repair all non-functional sensors. Call office for a witnessed re-test of repair/ replaced sensors.

# GOVERNMENT RECORDS SEARCHED / DATA CURRENCY TRACKING

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

**STANDARD ENVIRONMENTAL RECORDS**

***Federal NPL site list***

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Date of Government Version: 04/27/2020

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

***Federal Delisted NPL site list***

Delisted NPL: National Priority List Deletions

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

***Federal CERCLIS list***

FEDERAL FACILITY: Federal Facility Site Information listing

A listing of National Priority List (NPL) and Base Realignment and Closure (BRAC) sites found in the Comprehensive Environmental Response, Compensation and Liability Information System (CERCLIS) Database where EPA Federal Facilities Restoration and Reuse Office is involved in cleanup activities.

Date of Government Version: 04/03/2019
Date Data Arrived at EDR: 04/05/2019
Date Made Active in Reports: 05/14/2019
Number of Days to Update: 39

Next Scheduled EDR Contact: 07/13/2020
Data Release Frequency: Varies

SEMS: Superfund Enterprise Management System

SEMS (Superfund Enterprise Management System) tracks hazardous waste sites, potentially hazardous waste sites, and remedial activities performed in support of EPA's Superfund Program across the United States. The list was formerly know as CERCLIS, renamed to SEMS by the EPA in 2015. The list contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). This dataset also contains sites which are either proposed to or on the National Priorities List (NPL) and the sites which are in the screening and assessment phase for possible inclusion on the NPL.

Date of Government Version: 04/27/2020

***Federal CERCLIS NFRAP site list***

SEMS-ARCHIVE: Superfund Enterprise Management System Archive

SEMS-ARCHIVE (Superfund Enterprise Management System Archive) tracks sites that have no further interest under the Federal Superfund Program based on available information. The list was formerly known as the CERCLIS-NFRAP, renamed to SEMS ARCHIVE by the EPA in 2015. EPA may perform a minimal level of assessment work at a site while it is archived if site conditions change and/or new information becomes available. Archived sites have been removed and archived from the inventory of SEMS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list the site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. The decision does not necessarily mean that there is no hazard associated with a given site; it only means that. based upon available information, the location is not judged to be potential NPL site.

***Federal RCRA non-CORRACTS TSD facilities list***

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

***State- and tribal - equivalent CERCLIS***

ENVIROSTOR: EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

**ADDITIONAL ENVIRONMENTAL RECORDS**

***Local Brownfield lists***

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Data Release Frequency: Varies

UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

ABANDONED MINES: Abandoned Mines

An inventory of land and water impacted by past mining (primarily coal mining) is maintained by OSMRE to provide information needed to implement the Surface Mining Control and Reclamation Act of 1977 (SMCRA). The inventory contains information on the location, type, and extent of AML impacts, as well as, information on the cost associated with the reclamation of those problems. The inventory is based upon field surveys by State, Tribal, and OSMRE program officials. It is dynamic to the extent that it is modified as new problems are identified and existing problems are reclaimed.

HAZNET: Facility and Manifest Data

Facility and Manifest Data. The data is extracted from the copies of hazardous waste manifests received each year by the DTSC. The annual volume of manifests is typically 700,000 - 1,000,000 annually, representing approximately 350,000 - 500,000 shipments. Data are from the manifests submitted without correction, and therefore many contain some invalid values for data elements such as generator ID, TSD ID, waste category, and disposal method. This database begins with calendar year 1993.

WDR: Waste Discharge Requirements Listing

In general, the Waste Discharge Requirements (WDRs) Program (sometimes also referred to as the "Non Chapter 15 (Non 15) Program") regulates point discharges that are exempt pursuant to Subsection 20090 of Title 27 and not subject to the Federal Water Pollution Control Act. Exemptions from Title 27 may be granted for nine categories of discharges (e.g., sewage, wastewater, etc.) that meet, and continue to meet, the preconditions listed for each specific exemption. The scope of the WDRs Program also includes the discharge of wastes classified as inert, pursuant to section 20230 of Title 27.

CERS: CalEPA Regulated Site Portal Data

The CalEPA Regulated Site Portal database combines data about environmentally regulated sites and facilities in California into a single database. It combines data from a variety of state and federal databases, and provides an overview of regulated activities across the spectrum of environmental programs for any given location in California. These activities include hazardous materials and waste, state and federal cleanups, impacted ground and surface waters, and toxic materials

**EDR HIGH RISK HISTORICAL RECORDS**

***EDR Exclusive Records***

EDR MGP: EDR Proprietary Manufactured Gas Plants
The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

EDR Hist Auto: EDR Exclusive Historical Auto Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

EDR Hist Cleaner: EDR Exclusive Historical Cleaners

EDR has searched selected national collections of business directories and has collected listings of potential dry cleaner sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include dry cleaning establishments. The categories reviewed included, but were not limited to dry cleaners, cleaners, laundry, laundromat, cleaning/laundry, wash & dry etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

**OTHER DATABASE(S)**

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data
Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

AHA Hospitals:
Source: American Hospital Association, Inc.
Telephone: 312-280-5991
The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing
Source: Centers for Medicare & Medicaid Services
Telephone: 410-786-3000
A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services, a federal agency within the U.S. Department of Health and Human Services.

Nursing Homes
Source: National Institutes of Health
Telephone: 301-594-6248
Information on Medicare and Medicaid certified nursing homes in the United States.

Public Schools
Source: National Center for Education Statistics
Telephone: 202-502-7300
The National Center for Education Statistics' primary database on elementary and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

# GEOCHECK ®- PHYSICAL SETTING SOURCE ADDENDUM

**TARGET PROPERTY ADDRESS**

SLOVER AVENUE
16726 SLOVER AVENUE
FONTANA, CA 92337

**TARGET PROPERTY COORDINATES**

| | |
|---|---|
| Latitude (North): | 34.063576 - 34° 3' 48.87'' |
| Longitude (West): | 117.439363 - 117° 26' 21.71'' |
| Universal Tranverse Mercator: | Zone 11 |
| UTM X (Meters): | 459455.0 |
| UTM Y (Meters): | 3769097.5 |
| Elevation: | 1089 ft. above sea level |

**USGS TOPOGRAPHIC MAP**

| | |
|---|---|
| Target Property Map: | 5619058 FONTANA, CA |
| Version Date: | 2012 |

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principle investigative components:

1. Groundwater flow direction, and
2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**GROUNDWATER FLOW DIRECTION INFORMATION**

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

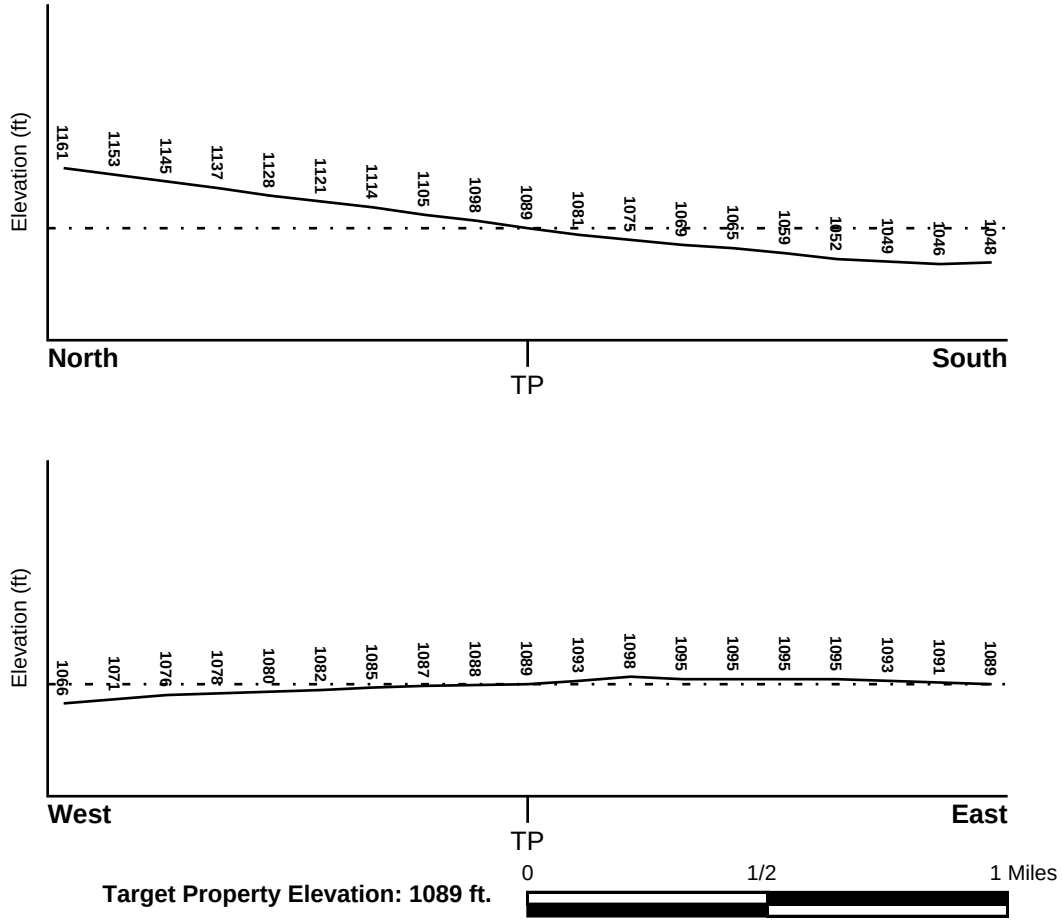
**TOPOGRAPHIC INFORMATION**

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

**TARGET PROPERTY TOPOGRAPHY**

General Topographic Gradient: General SSW

**SURROUNDING TOPOGRAPHY: ELEVATION PROFILES**



Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**HYDROLOGIC INFORMATION**

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

**FEMA FLOOD ZONE**

| Flood Plain Panel at Target Property | FEMA Source Type |
|---|---|
| 06071C8654H | FEMA FIRM Flood data |

| Additional Panels in search area: | FEMA Source Type |
|---|---|
| 06071C8658H | FEMA FIRM Flood data |
| 06071C8665H | FEMA FIRM Flood data |
| 06071C8666H | FEMA FIRM Flood data |

**NATIONAL WETLAND INVENTORY**

| NWI Quad at Target Property | NWI Electronic Data Coverage |
|---|---|
| FONTANA | YES - refer to the Overview Map and Detail Map |

**HYDROGEOLOGIC INFORMATION**

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

***Site-Specific Hydrogeological Data*:***

| | |
|---|---|
| Search Radius: | 1.25 miles |
| Status: | Not found |

**AQUIFLOW®**

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

| MAP ID | LOCATION FROM TP | GENERAL DIRECTION GROUNDWATER FLOW |
|---|---|---|
| Not Reported | | |

* ©1996 Site−specific hydrogeological data gathered by CERCLIS Alerts, Inc., Bainbridge Island, WA. All rights reserved. All of the information and opinions presented are those of the cited EPA report(s), which were completed under a Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) investigation.

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**GROUNDWATER FLOW VELOCITY INFORMATION**

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

**GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY**

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

**ROCK STRATIGRAPHIC UNIT**

# GEOCHECK® - PHYSICAL SETTING SOURCE SUMMARY

**DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY**

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

---

**Soil Map ID: 1**

Soil Component Name: TUJUNGA

Soil Surface Texture: gravelly loamy sand

Hydrologic Group: Class A - High infiltration rates. Soils are deep, well drained to excessively drained sands and gravels.

Soil Drainage Class: Somewhat excessively drained

Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Moderate

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

| Soil Layer Information | | | | | | | |

## TOPOGRAPHIC INFORMATION

USGS 7.5' Digital Elevation Model (DEM)
Source: United States Geologic Survey
EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Current USGS 7.5 Minute Topographic Map
Source: U.S. Geological Survey

## HYDROLOGIC INFORMATION

Flood Zone Data: This data was obtained from the Federal Emergency Management Agency (FEMA). It depicts 100-year and 500-year flood zones as defined by FEMA. It includes the National Flood Hazard Layer (NFHL) which incorporates Flood Insurance Rate Map (FIRM) data and Q3 data from FEMA in areas not covered by NFHL.
Source: FEMA
Telephone: 877-336-2627
Date of Government Version: 2003, 2015

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002, 2005 and 2010 from the U.S. Fish and Wildlife Service.

State Wetlands Data: Wetland Inventory
Source: Department of Fish and Wildlife
Telephone: 916-445-0411

## HYDROGEOLOGIC INFORMATION

AQUIFLOW$^{R}$ Information System
Source: EDR proprietary database of groundwater flow information
EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

## GEOLOGIC INFORMATION

Geologic Age and Rock Stratigraphic Unit
Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map, USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database
Source: Department of Agriculture, Natural Resources Conservation Service (NRCS)
Telephone: 800-672-5559
SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Service, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

## LOCAL / REGIONAL WATER AGENCY RECORDS

FEDERAL WATER WELLS

PWS: Public Water Systems
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data
Source: EPA/Office of Drinking Water
Telephone: 202-564-3750
Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)
This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

STATE RECORDS

Water Well Database
Source: Department of Water Resources
Telephone: 916-651-9648

California Drinking Water Quality Database
Source: Department of Public Health
Telephone: 916-324-2319
The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

## OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations
Source: Dept of Conservation, Geologic Energy Management Division
Telephone: 916-323-1779
Oil and Gas well locations in the state.

California Earthquake Fault Lines
Source: California Division of Mines and Geology
The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.

RADON

State Database: CA Radon
Source: Department of Public Health
Telephone: 916-210-8558
Radon Database for California

Area Radon Information
Source: USGS
Telephone: 703-356-4020
The National Radon Database has been developed by the U.S. Environmental Protection Agency (USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at private sources such as universities and research institutions.

# PHYSICAL SETTING SOURCE RECORDS SEARCHED

EPA Radon Zones
Source: EPA
Telephone: 703-356-4020
Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor radon levels.

# APPENDIX D: QUALIFICATIONS/INSURANCE

PARTNER

**Ramiro Vejar**
**Project Scientist**

## Education

Associate of Science, Computer Networking Technology, Westwood College, Los Angeles, CA

## Registrations

Asbestos Building Inspector, ABIR0308190005N20839

## Training

Asbestos Building Inspector Initial Course DOSH #: CA-015-06
2015 Compliance Training: Hazard Communicating, Asbestos, Lead, and Mold Awareness, Chemical Inventory, Personal Protective Equipment

## Highlights

8 years of experience in the environmental consulting industry
Phase I Environmental Site Assessments
Records Search Risk Assessment Reports

## Experience Summary

Mr. Vejar currently serves as a Project Scientist at Partner Engineering and Science, Inc. (Partner), where he is responsible for conducting various environmental assessments, including Phase I Environmental Site Assessments (ESAs) and Records Search Risk Assessment (RSRA) Reports in accordance with the ASTM E1527 standard, the US Environmental Protection Agency's All Appropriate Inquiry (AAI) regulation, US Small Business Administration environmental policy, as well as customized client formats, as needed.

Mr. Vejar brings over 8 years of experience in the environmental consulting industry, having conducted Database Reviews (DR), Records Search Risk Assessment Reports (RSRA), Historical Records Review (HRR), Historical Records and Database Review (HRDR), Extended Database Search (EDS), Environmental Transaction Screen (ETS), Phase I Environmental Site Assessments (ESA), Asbestos Sampling and Radon Screenings, and several other related environmental assessments. He is knowledgeable with various property types, including apartment buildings/complexes, commercial office buildings, shopping centers, multi-tenant commercial complexes, industrial warehouses, manufacturing facilities, gasoline service stations, and dry cleaning operations.

## Project Experience

*Phase I ESA, Santa Fe Springs Marketplace, Santa Fe Springs, CA.* A 100,133 SF retail center on 13.07 acres including restaurants, retail, and an active drycleaner release site with ongoing remediation.

*Phase I ESA, Harbor Auto Care Center, Santa Ana, CA.* An eleven tenant automotive repair and service center with storage of hazardous materials and generated hazardous waste.

*Phase I ESA, Mass Kansas, Riverside, CA.* A 102,742 SF fiberglass and composite manufacturing of below ground enclosures on a 14.42 acre facility. Impacted with volatile organic compounds (VOCs) from historic manufacturing an industrial operations that operated from the facility since the 1940s.

*Phase I ESA, Park @ VNY, Van Nuys, CA.* A 37.34-acre historic Former Used Defense Site during World War II occupied by the United States Army between 1942 and 1946 and by the CA Air National Guard between 1954 and 1989.

*Phase I ESA, Montclair, CA.* A 1.24-acre property with a gasoline service station and car wash building. The site was identified with an open release case and ongoing Santa Ana Regional Water Quality Control Board (RWQCB) oversight.

*Phase I ESA, Bellflower, CA.* A six parcel commercial property with three multistory buildings which was historically occupied by two gasoline stations in the 1920s and 1930s prior to the redevelopment of the retail structures in 1946 and 1957. A Phase II subsurface investigation was recommended which included advancing borings for soil analysis and geophysical surveys to identify potential Underground Storage Tanks (USTs) or backfill anomalies.

*Phase I ESA, Moon Valley Nursery, Hemet, CA.* An 80 acre nursery property with barns, residential living, pesticide and herbicide storage, and related horticultural activities.

*Phase I ESA, Gasser Olds Bronze, Vernon, CA.* A 24,375 SF bronze foundry and metal plaque manufacturing facility operating since 1982 from a building which has been historically occupied for industrial use since it was constructed in 1941.

*Phase I ESA, Dalton Trucking, Fontana, CA.* An active 25 acre trucking facility since the 1970s with onsite truck and trailer maintenance/repair, refueling with associated underground diesel and gasoline tanks, truck and trailer washing with an associated in-ground clarifier, and storage of hazardous substances in aboveground storage tanks with a capacity ranging between 150 and 1,500-gallons. A Phase II subsurface investigation was recommended based on the age of the subsurface features and historical operations.

# Sarah Vosovic
Project Manager

PARTNER Engineering and Science, Inc.

***Education***

B.S., Environmental Science, California State University, Chico

***Registrations***

OSHA 40-Hour HAZWOPER
AHERA Building Inspector training
California Department of Health Services/USEPA Lead Inspector/Assessor training

***Summary of Professional Experience***

Ms. Vosovic has more than 14 years of experience in the environmental consulting field and has worked in various disciplines, including environmental due diligence, NEPA compliance, lead-based paint and asbestos assessment, and LUST monitoring and reporting. Ms. Vosovic has performed hundreds of Phase I ESAs. She has also served as senior reviewer for NEPA compliance documents, with thousands of reports reviewed. She has tracked and managed the regulatory compliance for hundreds of microwave sites for a major telecommunications carrier.

Ms. Vosovic is well versed in EPA's All Appropriate Inquiry and ASTM E1527-13. She is knowledgeable in due diligence reporting standards, including Fannie Mae DUS, Freddie Mac, and HUD. Ms. Vosovic has conducted Phase I ESAs on a wide range of properties. Site assessment experience includes agricultural properties, semiconductor manufacturing facilities, fueling and automobile repair facilities, chemical distribution facilities, landfills, oil well fields, telecommunications sites, and shopping centers with dry cleaning facilities. She has scoped projects, mentored field personnel, identified environmental risks, and regularly provides detailed reports within demanding deadlines.

Ms. Vosovic is responsible for conducting all aspects of Phase I Environmental Site Assessments including proposal writing, staffing projects, client liaison, site reconnaissance and record reviews. Ms. Vosovic also provides management and QA/QC review of Phase I ESAs and Transaction Screens, and is focused on providing exemplary client service. Ms. Vosovic is responsible for ensuring consistency and quality of due diligence services and ensuring that client-specific requirements are met, as well as the requirements of ASTM and AAI standards. Ms. Vosovic displays excellent technical writing and editing skills, attention to detail, and excels at providing concise, logical conclusions and recommendations.

Project experience for Ms. Vosovic includes the following:

- Provided senior review for thousands of NEPA Screening Reports, Environmental Assessments, Section 106 Reports, SHPO consultation packets, NEPA Audit Reports, and

other related documents for various telecommunications industry clients. NEPA Technical Manager for multiple telecommunications industry clients in the western United States. Served as the primary point of contact with multiple state and federal agencies.

- Assisted in subsurface investigations at heavily industrialized and commercially developed properties. Subsurface investigations included the installation of soil borings, characterization of soils, and subsequent sampling of soil and groundwater. Oversaw geophysical surveys.

- Evaluated proposed microwave installations, LTE installations and underlying support structures for compliance with environmental, FAA, and FCC regulations. Tracked and managed over 700 microwave sites in two markets. Worked closely with the client, construction managers, turf vendors, engineers, and RF safety engineers to obtain and track regulatory compliance documentation.

- Managed a database and scheduled quarterly reporting for 45 leaking underground storage tank (LUST) cases under regulatory direction. Prepared Groundwater Monitoring Reports, NPDES Quarterly Reports, Subsurface Investigation Reports, Remediation Work Plans, Sensitive Receptor Surveys, and UST Cleanup Fund submittals. Collected soil and groundwater samples for laboratory analysis.

- Performed regulatory compliance audits for a major telecommunications carrier. Provided solutions and established protocols for ensuring compliance.

- Laboratory Instructor for Introductory Geology and Environmental Science courses at California State University, Chico.

## Education

Bachelor of Arts, Public Administration & Economics, San Diego State University
Executive MBA Program, 2000-2003

## Highlights

Over 20 years of experience in the environmental and engineering consulting industry
Property Condition Assessments (PCAs)
Fannie Mae, Freddie Mac, and HUD due diligence

## Experience Summary

Mr. Lambson is a true veteran of the commercial real estate services industry. He has over 20 years of experience managing and performing environmental and engineering consulting projects on a national level. Mr. Lambson serves as a Principal for Partner and is located in Partner's San Diego County office. Mr. Lambson currently provides client management and consulting to a nationwide client base and specializes in advising "equity" clients during the acquisition phase of commercial property transactions in the U.S., Mexico, and Canada.

Mr. Lambson has assisted clients on over 10,000 commercial real estate transactions throughout his career. His due diligence resume includes experience at all levels, and includes advising REITs, developers, property managers, retail companies, commercial real estate brokers, mortgage brokers, attorneys, lenders, universities, and real estate investment groups with the following nationwide services:

- Property Condition Assessments (PCAs)
- Individual Building System Inspections for Roof, Mechanical Electrical Plumbing (MEP), Elevator, Structure, Façade, and ADA/Accessibility
- Phase I Environmental Site Assessments (ESAs)
- Phase II Subsurface Investigations (Soil and groundwater sampling and analysis)
- Phase III Environmental Remediation Services
- Asbestos, Lead, Radon, Mold Sampling
- Seismic and Structural Assessments (PMLs)
- Energy Audits, Benchmarking, AB1103 Energy Disclosure, and LEED-related services
- Hydrology, Water Conservation and Efficiency
- Fannie Mae / Freddie Mac / HUD Due Diligence
- Geotechnical and Soils Reports
- Zoning Reports
- ALTA Surveys

**Building Sciences**

Property Condition Assessment, MEP Report, Roof Report, Elevator Report, Structural and Seismic Assessment for a high-profile Class A office campus acquisition in the San Francisco Bay Area

ADA Compliance and Accessibility Reviews for a national bank branch portfolio

Fannie Mae Property Condition / Physical Needs Assessment services for a 5400-unit multifamily portfolio in Nevada

**Environmental Assessments**
Phase I and Phase II Environmental Assessments for a 75-acre aerospace facility in the Northwest United States

Over 500 Phase I Environmental Site Assessments for a national fast-food chain

Environmental consulting for over 1 million acres of desert land in California, Nevada, and Arizona

**Land Surveys**
ALTA Surveys for 2400-unit apartment portfolio in the Midwest

**Multi-Site Portfolios**
113-site office portfolio acquisition for a national REIT

122-site hotel portfolio for a national lending institution

55-site hotel portfolio acquisition for a private investment group

68-site healthcare portfolio acquisition for a national REIT

50-site country club/golf course acquisition for a private investment group

**Energy and Water Efficiency**
Energy & Water consulting for a national property owner that operates and manages 30 retail and office centers on the West Coast and Texas
