Project Description (Proposed actions, location, and/or consequences).  Construction of a wireless communication facility including a 60' monopine tower installed with twelve (12) panel antennas on antenna arrays, four surge suppressors, twenty-two remote radio units (RRU), and one microwave dish; and equipment enclosure installed with the walk-in cabinet, GPS unit, and diesel generator on a concrete slab.				
Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.				
Potential impacts have been identified for aesthetics, hazards and hazardous materials, and wildfires. Conditions of approval have been incorporated to assure compliance with County requirements to the extent that they reduce to less than significant the identified potential impacts.				
If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.				
Ridgeline development in the scenic hills of Cachagua and Tassajara is controversial.				
Provide a list of responsible or trustee agencies for the project.
