1. Define Project

[SLR Guidance page 6]

a. Describe Project Objectives

Project is to construct redwood fencing at a residence in Wilder Ranch State Park. Fencing will provide privacy and safety for residence who are near a public through-way.

b. What the the expected lifetime of the project?

20 years

c. Is the primary purpose of the project to mitigate inundation, flooding, or erosion? (e.g., seawalls, dune restoration, relocation, etc.)

☐ Yes ☒ No

If "Yes", please consider both the project itself as well as any resource the project might be protecting.

2. Assess Vulnerability to Inundation, Flooding, or Erosion

Exposure

[SLR Guidance page 7]

a. Based on your observations, is the project located in an area that is already a flood zone or has a history of past damage due to waves, inundation, flooding, or erosion?

☐ Yes ☒ No ☐ Uncertain

b. According to the CSP web tool (<http://mshqgisweb11/flex/SeaLevelRise/>), does the project location fall within one or more of the areas shaded by the inundation, flood, or erosion projections?

☐ Yes ☒ No

If "No" to both 2.a and 2.b, and your project lifetime is less than 100 years, no further analysis is required and the worksheet is complete. If you do not meet ALL of these criteria, please continue with the worksheet.

c. Which projection(s) does your project fall within?

- ☐ NOAA SLR
- ☐ Pacific Institute 2100 SLR and 100 yr Storm
- ☐ Pacific Institute 2100 Bluff and Dune Erosion Hazard
- ☐ CoSMoS SLR and 100 yr Storm (only available in some areas)
- ☐ Personal observation of damage due to waves, inundation, flooding or erosion

d. Identify any other local factors that may be relevant to your project's capacity for resilience to inundation, flooding, or erosion (e.g., uplift, subsidence, tectonics, nearby seawalls or developments).

Sensitivity

[SLR Guidance page 9]

e. Does the project itself have inherent characteristics or materials that make it sensitive to inundation, flooding, or erosion? Describe the sensitivity.

Examples include:

- A rare plant or animal that cannot tolerate flooding, inundation, or a change in salinity
- A cultural resource that will be exposed due to erosion or damaged due to flooding
- A facility that will have its structure or function compromised by seawater
- A site where soil is contaminated and will influence water quality
- A particularly important point for public access.

Adaptive Capacity

[SLR Guidance page 10]

f. Can the outcome of the project be easily moved upland to avoid impacts from inundation, flooding, or erosion?

☐ Yes ☐ No

g. Can the outcome of the project be easily raised or reinforced to prevent damage from inundation, flooding, or erosion?

☐ Yes ☐ No

h. Describe how the project can be relocated or modified to tolerate or withstand inundation, flooding, or erosion.

Overall Vulnerability

[SLR Guidance page 10]

i. Discuss overall vulnerability considering exposure, sensitivity, and adaptive capacity.

3. Identify Project Impacts (Positive and Negative)

[SLR Guidance page 11]

a. **Infrastructure.** Will parking, restrooms, campsites, first-aid stations, interpretive elements (centers, kiosks, panels, etc.), or utilities be positively or negatively affected by this project under inundation, flooding, or erosion projections?

☐ Yes ☐ No Impacts ☐ Unknown

b. **Natural Resources.** Will this project positively or negatively affect the beach/near shore environment and/or biological diversity under inundation, flooding, or erosion projections?

☐ Yes ☐ No Impacts ☐ Unknown

c. **Cultural Resources.** Will archeological sites, historical structures, or other cultural resources be positively or negatively affected by this project under inundation, flooding, or erosion projections?

☐ Yes ☐ No Impacts ☐ Unknown

d. **Visitors.** Does this project positively or negatively affect natural or cultural resources that attract visitors, based on inundation, flooding, or erosion projections?

☐ Yes ☐ No Impacts ☐ Unknown

e. **Recreation Areas.** Will hiking, biking, horseback riding, OHV sites, or other recreation that attracts visitors be positively or negatively affected by this project under inundation, flooding, or erosion projections? Will recreational features like trails or overlooks be impacted?

☐ Yes ☐ No Impacts ☐ Unknown

ELECTRONIC RECORD AND SIGNATURE DISCLOSURE

From time to time, California State Department of Parks and Recreation (we, us or Company) may be required by law to provide to you certain written notices or disclosures. Described below are the terms and conditions for providing to you such notices and disclosures electronically through your DocuSign, Inc. (DocuSign) Express user account. Please read the information below carefully and thoroughly, and if you can access this information electronically to your satisfaction and agree to these terms and conditions, please confirm your agreement by clicking the 'I agree' button at the bottom of this document.

Getting paper copies

At any time, you may request from us a paper copy of any record provided or made available electronically to you by us. For such copies, as long as you are an authorized user of the DocuSign system you will have the ability to download and print any documents we send to you through your DocuSign user account for a limited period of time (usually 30 days) after such documents are first sent to you. After such time, if you wish for us to send you paper copies of any such documents from our office to you, you will be charged a \$0.00 per-page fee. You may request delivery of such paper copies from us by following the procedure described below.

Withdrawing your consent

If you decide to receive notices and disclosures from us electronically, you may at any time change your mind and tell us that thereafter you want to receive required notices and disclosures only in paper format. How you must inform us of your decision to receive future notices and disclosure in paper format and withdraw your consent to receive notices and disclosures electronically is described below.

Consequences of changing your mind

If you elect to receive required notices and disclosures only in paper format, it will slow the speed at which we can complete certain steps in transactions with you and delivering services to you because we will need first to send the required notices or disclosures to you in paper format, and then wait until we receive back from you your acknowledgment of your receipt of such paper notices or disclosures. To indicate to us that you are changing your mind, you must withdraw your consent using the DocuSign 'Withdraw Consent' form on the signing page of your DocuSign account. This will indicate to us that you have withdrawn your consent to receive required notices and disclosures electronically from us and you will no longer be able to use your DocuSign Express user account to receive required notices and consents electronically from us or to sign electronically documents from us.

All notices and disclosures will be sent to you electronically

Unless you tell us otherwise in accordance with the procedures described herein, we will provide electronically to you through your DocuSign user account all required notices, disclosures, authorizations, acknowledgements, and other documents that are required to be provided or made available to you during the course of our relationship with you. To reduce the chance of you inadvertently not receiving any notice or disclosure, we prefer to provide all of the required notices and disclosures to you by the same method and to the same address that you have given us. Thus, you can receive all the disclosures and notices electronically or in paper format through the paper mail delivery system. If you do not agree with this process, please let us know as described below. Please also see the paragraph immediately above that describes the consequences of your electing not to receive delivery of the notices and disclosures electronically from us.
