Project Title: City of Chico Traffic Signal System

Project Location – General: Chico, Butte County, CA

Project Location - Specific: 111 existing traffic signalized intersections throughout the City Chico (see attached map).

Description of Project: The proposed project includes the upgrading and replacement of the existing traffic signal software and hardware system; installation of an interconnected wireless communication network; minor infrastructure improvements to the existing traffic signal conduits, wiring, and cabinets; and an expansion of the centralized traffic control program center in existing City offices. Minor infrastructure improvements are located entirely within the City of Chico right-of-way.

Name of Public Agency Approving Project: City of Chico

Name of Person Carrying Out Project: Brendan Ottoboni – Director, Public Works - Engineering

Exempt Status: (Check One)

- ☐ Ministerial
- ☐ Declared Emergency (Sec. 21080(b)(3);15269(a);
- ☐ Emergency Project (Sec. 21080(b)(4);15269(b)(c);
- ☒ Categorical Exemption: Class 1, Section 15301 (c) (Existing Facilities)
- ☐ Statutory Exemptions.

Reasons Why Project is Exempt: The project involves replacement of traffic control equipment and minor alterations to existing public facilities. The project involves no increase in capacity, no expansion of the existing use, and serves built-out land uses. The project area has been previously disturbed, is highly urbanized, and includes existing surface facilities. There are no unusual circumstances leading to a reasonable possibility that significant environmental impacts will result from the project. Therefore, the City finds that the project is exempt from the California Environmental Quality Act (CEQA) in accordance with CEQA Section 15301 (c).
