Project Description (including purpose and beneficiaries of project)		
<p>The Project proposes the replacement and reconstruction of the existing boat dock area at Vasona Lake County Park. Improvements include providing an accessible route from the parking lot to the boat dock, replacing the existing dock and gangway with ADA-compliant dock structures, and a 7ft-long gate near the single-finger dock. Approximately 2,480 square feet of area will be graded and includes new AC pavement, concrete pavement, and base rock.</p> <p>The demolition and construction activities will occur in dry or low-water conditions. An excavator with a hydraulic pile driver will be used to remove and install piles. Vibratory extraction method will be used to minimize disturbance of the lakebed during dock removal. The proposed galvanized steel piles will be installed using vibratory methods and requires no or minimal fill. After the piles are installed, the lake water level will be raised to the average water level. The contractor will assemble dock on dry land and then hoist into place.</p>
