Project Description: (please use a separate page if necessary)**1. Description of Project:**

Stanislaus County proposes to replace the existing Tim Bell Road Bridge with a new, approximately 960-ft bridge that spans over the 100-year floodplain. The new bridge will be shifted downstream of the existing bridge. The new alignment improves sight distance, removes the existing S-curve, and provides for a 45 miles per hour design speed. Public Works will use Highway Bridge Program (HBP) funds to replace the existing structure to improve roadway safety and comply with the American Association of State Highway and Transportation Officials (AASHTO) design guidelines and County standards.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
