Project Title: Saticoy Sanitary District 2021 Wastewater Treatment Plant Rehabilitation Project

Project Applicant: Saticoy Sanitary District

Project Location - Specific:

1419.5 Lirio Street

Project Location - City: Ventura

Project Location - County: Ventura

Description of Nature, Purpose and Beneficiaries of Project:

The proposed project consists of the installation of a 120 foot long by 30 foot wide, 8" reinforced concrete pad improvement under the sludge drying area containing the geotubes for the wastewater effluent. The project also includes the complete rehabilitation of the District's Zaboc 5200 odor scrubbers (2 units) with new filtration media, water panel assembly and nozzles, and 2 HP blower units. No upgrades in capacity to the facilities are proposed. The area of impact will be confined to the previously disturbed soils under the sludge drying geotubes. There will be no physical changes to the odor scrubber's footprint or housing. The project would result in beneficial effects on water/air/noise quality as it would improve the bedding of the sludge drying area and more effectively clear the air/noise from the odor scrubbers

Name of Public Agency Approving Project: Saticoy Sanitary District

Name of Person or Agency Carrying Out Project: Saticoy Sanitary District

Exempt Status: (check one):

☐ Ministerial (Sec. 21080(b)(1); 15268);

☐ Declared Emergency (Sec. 21080(b)(3); 15269(a));

☐ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));

☒ Categorical Exemption. State type and section number: Section 15302 Class 2 (c)

☐ Statutory Exemptions. State code number: _____

Reasons why project is exempt:

The proposed activity/project is limited to the installation of a reinforced concrete pad improvement under the existing sludge drying area containing the geotubes for the wastewater effluent and the rehabilitation of the WWTP's odor scrubbers. No expansion of service or facilities are proposed.

Lead Agency

Contact Person: Mark Norris

Area Code/Telephone/Extension: 805-658-4621

If filed by applicant:

1. Attach certified document of exemption finding.

2. Has a Notice of Exemption been filed by the public agency approving the project? ☒ Yes ☐ No

Signature: [Signature]

Date: 1/5/2021

Title: General Manager

☒ Signed by Lead Agency

☐ Signed by Applicant

Authority cited: Sections 21083 and 21110, Public Resources Code.

Reference: Sections 21108, 21152, and 21152.1, Public Resources Code.

Notice of Exemption

Figure 1. Detail A

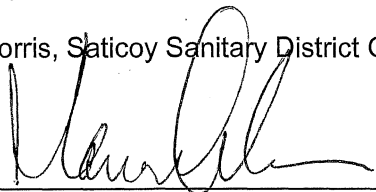

SSD 2021 WWTP Rehabilitation Project
Detail A: Concrete Pad under Geotubes and Odor Scrubber Modifications

Notice of Exemption

Reason Why Project is Exempt: The proposed activity/project is limited to the installation of a reinforced concrete pad improvement under the existing sludge drying area containing the geotubes for the wastewater effluent and the rehabilitation of the WWTP's odor scrubbers. No expansion of service or facilities are proposed.

Notice of Exemption

The exceptions to the categorical exemptions pursuant to Section 15300.2 of the CEQA guidelines are:

- (a) *Location. Classes 3, 4, 5, 6, and 11 are qualified by consideration of where the project is to be located – a project that is ordinarily insignificant in its impact on the environment may in a particularly sensitive environment be significant. Therefore, these classes are considered to apply all instances, except where the project may impact on an environmental resource of hazardous or critical concern where designated, precisely mapped, and officially adopted pursuant to law by federal, state, or local agencies.*

Discuss project: Not applicable.

- (b) *Cumulative Impact. All exemptions for these classes are inapplicable when the cumulative impact of successive projects of the same type in the same place, over time is significant.*

Discuss project: The treatment plant facilities have not been improved or replaced since their original installation circa 2002. Other projects conducted in the project area include normal maintenance and minor rehabilitation of manholes and the storage tanks. These historic activities are part of the normal provision of public sewer service infrastructure for the subject Saticoy area. Due to the location of the proposed project and the short-term nature of the cumulative projects, the environmental effects associated with these activities and the cumulative impacts are not considered significant.

- (c) *Significant Effect. A categorical exemption shall not be used for an activity where there is a reasonable possibility that the activity will have a significant effect on the environment due to unusual circumstances.*

Discuss project: The project effects would be limited to those associated with short-term construction and previously disturbed areas. Such short-term effects would not be significant because the area of impact is confined to a region of graded soils and paved areas. The project would result in beneficial effects on water/air/noise quality as it would improve the bedding of the sludge drying area and more effectively clear the air/noise from the odor scrubbers.

- (d) *Scenic Highways. A categorical exemption shall not be used for a project which may result in damage to scenic resources, including but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within a highway officially designated as a state scenic highway. This does not apply to improvements which are required as mitigation by an adopted negative declaration or certified EIR.*

Discuss project: There are no officially designated state scenic highways near the project site. U.S. Highway 101 is an eligible state scenic highway. The project would not impact any scenic resources within the viewshed of U.S. 101.

Notice of Exemption

- (e) *Hazardous Waste Sites. A categorical exemption shall not be used for a project located on a site which is included on any list compiled pursuant to Section 65962.5 of the Government Code.*

Discuss project: The project site is limited to the wastewater treatment plant facility and based upon a search of the Department of Toxic Substances Control Envirostor database and the State Water Resources Control Board Geotracker database, it is not located on or proximate to any active designated hazardous waste site.

- (f) *Historical Resources. A categorical exemption shall not be used for a project which may cause a substantial adverse change in the significance of a historical resource.*

Discuss project: The project is limited to the grading previously disturbed soils under the sludge drying area. No significant historic resources will be adversely affected.
