Exemp	t Status: (check one):			
☐ Min	nisterial (Sec. 21080(b)(1); 15268);			
☐ Declared Emergency (Sec. 21080(b)(3); 15269(a));				
☐ Emergency Project (Sec. 21080(b)(4); 15269(b)(c));				
☐ Categorical Exemption. State type and section number: CCR 14 §15301, CCR 14 §15303, CCR 14 §15304, CCR 14 §15306				
☐ Sta	tutory Exemptions. State code number:			

Reasons why project is exempt:

Cal. Code Regs, tit. 14, §15301 provides for the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of existing or former use. This project is categorically exempt under 14 CCR §15301 because the installation of prefabricated DCFC equipment and infrastructure involves only minor physical modifications or alterations to the existing structures and electrical conveyances.

Cal. Code Regs, tit. 14, §15303 provides for the construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures; and the conversion of existing small structures from one use to another where only minor modifications are made in the exterior of the structure. This project is categorically exempt under 14 CCR §15303 because the new construction associated with the installation and placement of prefabricated DCFC involves only the construction of small structures.

Cal. Code Regs, tit. 14, §15304 provides for minor public or private alterations in the condition of land, water, and/or vegetation which do not involve removal of healthy, mature, scenic trees except for forestry and agricultural purposes. This project is categorically exempt under 14 CCR §15304 because the paving and concrete activities associated with the installation and placement of prefabricated DCFC equipment and infrastructure are minor and will restore the previously disturbed surfaces.

Cal. Code Regs, tit. 14, §15306 provides for basic data collection, research, experimental management, and resource evaluation activities which do not result in a serious or major disturbance to an environmental resource. This project is categorically exempt under 14 CCR §15306 because it requires collection of operational data from the DCFC utilized for charging the battery-electric trucks.
