**Exempt Status, Ministerial Exemptions:**

§15268 of the California Code of Regulations, Title 14, Division 6, Chapter 3.

**Reason Why Project Is Exempt:** §15268 of the CCR states that ministerial projects are exempt from the requirements of CEQA. As defined in §15369 of the CCR, a ministerial project is one that requires only conformance with a fixed standard or objective measurement and requires little or no personal judgment by a public official as to the wisdom or manner of carrying out the project. Generally, ministerial permits require a public official to determine only that the project conforms with applicable zoning and building code requirements. The proposed Raymond Berry Community Pool improvements do not require discretionary review by the County or other public agency; therefore, the project is ministerially exempt.
