NOTICE OF DETERMINATION

DONNA ALLRED, CLERK/RECORDER  
BY Scot Johnson DEPUTY

To: ☒ Office of Planning and Research  
1400 10th Street, Room 222  
Sacramento, CA 95814  
  
☒ County Clerk  
County of Sacramento

From: City of Sacramento  
Community Development Dept.  
Planning Division  
300 Richards Boulevard, 3rd Floor  
Sacramento CA 95811

Subject: Filing of Notice of Determination in compliance with Section 21152 of the Public Resources Code.

Project Title: **Sump Station Facilities Improvement Project (W14130615)**

2021030186	City of Sacramento	Scott Johnson	(916) 808-5842 / <a href="mailto:sjohnson@cityofsacramento.org">sjohnson@cityofsacramento.org</a>

Applicant Name	Address	Telephone / Email	

**Project Location (include county):** The project is located at five existing sump stations within the City of Sacramento: Sump 089, Sump 151, Sump 155, Sump 058, and Sump 102. Sump 089 is located near 8357 Beach Lake Rd and pumps through the levee into Morrison Creek. Sump 151 is located near 1420 Expo Parkway and pumps through the levee into the American River floodplain. Sump 155 is located near 6007 Camellia Ave and pumps through the levee into the American River. Sump 058 is located at 1185 Azusa St and pumps through the levee into Steelhead Creek. Sump 102 is located near 300 Bowman Ave and pumps through the levee into Natomas East Main Drainage Canal in the City of Sacramento, Sacramento County.

**Project Description:** The project consists of five existing sump stations within the City of Sacramento: Sumps 089, 151, 155, 058, and 102. The sump stations direct treated stormwater through underground piping to stormwater outfalls along waterways within the City. As mandated by the Sacramento Area Flood Control Agency (SAFCA) and the U.S. Army Corps of Engineers (USACE), sump station outfalls that penetrate and cross major levees within the City of Sacramento are inspected on a five-year cycle. The project entails the complete replacement of the pump discharge pipe for three drainage sump station facilities (Sumps 089, 151, and 155) and installation of stairs on the waterside slope for two additional drainage sump station facilities (Sumps 058 and 102). The improvements would not alter the overall capacity of the sump station facilities relative to existing conditions.

This is to advise that the City of Sacramento, City Council ☒ has approved the above described project on August 10, 2021 and has made the following determination regarding the above described project:

1. The project will ☒ will not ☐ have a significant effect on the environment.
2. ☐ An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.  
☒ A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation Measures were ☒/were not ☐ made a condition of the approval of the project.
4. ☐ A statement of Overriding Considerations was adopted for this project.
5. ☒ Findings were made pursuant to the provisions of CEQA

This is to certify that the final EIR with comments and responses or Negative Declaration and the record of project approval is available to the General Public at:
