(g)	<input type="checkbox"/> Other. Explanation:	
9.	Reason why project was exempt:	<p>The proposed project is part of JCSD's annual water pipeline replacement program and will replace a total of approximately 4,928 LF of existing ACP pipeline with PVC waterline within the public rights-of-way. Specifically, the project will replace approximately 2,056 LF of 8-inch and 2,872 LF of 12-inch diameter waterlines as described above and shown on Figure 1 – Vicinity Map and Project Location.</p> <p>The Statutory Exemption set forth in PRC §21080.21, exempts project is applicable to "...any project of less than one mile in length within a public street or highway or any other public right-of-way for the installation of a new pipeline or the maintenance, repair, restoration, reconditioning, relocation, replacement, removal, or demolition of an existing pipeline." Pipeline for this statutory exemption subsurface facilities but does not include any surface facility related to the operation of the underground facility. All of the pipeline replacements are within public ROW and the total length of pipeline being replaced is less than one mile. Thus, the exemption set forth in PRC §21080.21 is applicable to the project.</p> <p>The project's replacement of existing, aged ACP water pipelines with the same sized PVC waterlines is further categorically exempt from CEQA under the Class 2 exemption set forth in State CEQA Guidelines §15302, which exempts the "...replacement or reconstruction of existing structures and facilities where the new</p>

	<p>structure will be located on the same site as the structure replaced and will have substantially the same purpose and capacity as the structure replaced." Here, new PVC waterlines will replace existing ACP pipelines; the replacement PVC waterlines will be located within the same public ROWs as the existing ACP waterlines and will have the same purpose and capacity as the ACP pipelines to be replaced. (CEQA Guidelines §15302(c).</p> <p>Finally, none of the exceptions to the categorical exemptions apply here. The Project will not have any cumulative impacts; there is no reasonable possibility that the Project will have a significant effect on the environment due to unusual circumstances; the Project does not affect any scenic highways or historical resources, and it is not located on a hazardous waste site.</p>
